 This unique handbook offers an analytical review of the education systems of all European countries, following common analytical guidelines, and highlighting the paradox that education simultaneously pursues a universal value as well as a national character. Coverage includes international student performance studies, and a comparison of education dynamics in Eastern "new Europe" with "older" western EU members. The book provides a differentiated analytical data base, and offers suggestions for further research.

*Kognitive Semantik /Cognitive Semantics* Marion Boyars Publishers

Few discussions in modern social science have occupied as much attention as the changing nature of welfare states in western societies. Gosta Esping-Andersen, one of the most distinguished contributors to current debates on this issue, here provides a new analysis of the character and role of welfare states in the functioning of contemporary advanced western societies. Esping-Andersen distinguishes several major types of welfare state, connecting these with variations in the historical development of different western countries. Current economic processes, the author argues, such as those moving towards a post-industrial order, are not shaped by autonomous market forces but by the nature of states and state differences. Fully informed by comparative materials, this book will have great appeal to everyone working on issues of economic development and post-industrialism. Its audience will include students and academics in sociology, economics and politics.

In most subtitling countries, those lines at the bottom of the screen are the most read medium of all, for which reason they deserve all the academic attention they can get. This monograph represents a large-scale attempt to provide such attention, by exploring the norms of subtitling for television. It does so by empirically investigating a large corpus of television subtitles from Scandinavia, one of the bastions of subtitling, along with other European data. The aim of the book is twofold: first, to provide an advanced and comprehensive model for investigating translation problems in the form of Extralinguistic Cultural References (ECRs). Second, to empirically explore current European television subtitling norms, and to look into future developments in this area. This book will be of interest to anyone interested in gaining access to state-of-the-art tools for translation analysis, or in learning more about the norms of subtitling, based on empirically reliable and current material.

On a business trip to Tunisia, Preising, a leading Swiss industrialist, is invited to spend the week with the daughter of a local gangster. He accompanies her to the wedding of two London city traders at a desert luxury resort that was once the site of an old Berber oasis. With the wedding party in full swing and the bride riding up the aisle on a camel, no one is aware that the global financial system stands on the brink of collapse. As the wedding guests nurse their hangovers, they learn that the British pound has depreciated tenfold, and their world begins to crumble around them. So begins *Barbarian Spring*, the debut novel from Jonas Lüscher, a major emerging voice in European fiction. The timely and unusual novel centers on a culture clash between high finance and the value system of the Maghreb. Provocative and entertaining, *Barbarian Spring* is a refreshingly original and all-too-

believable satire for our times.

Beiträge über die "Besonderheiten der deutschen Schriftsprache im Ausland" damit begonnen, die Landschaften der Hochsprache zu bearbeiten. Was Österreich betrifft, sind zwei ausführlichere Arbeiten zu erwähnen: H. Rizzo-Baur, "Die Besonderheiten der deutschen Schriftsprache in Österreich und Südtirol", Mannheim 1962 (Duden-Beiträge 5) und Z. Yalta, Prag, "Die österreichischen Prägungen im Wortbestand der deutschen Gegenwartssprache", 1967; dem Autor der letztgenannten Arbeit bin ich sehr zu Dank verpflichtet, daB ich das Manuskript seiner leider noch ungedruckten Arbeit einsehen durfte. Mannheim/Wien, im August 1969 Jakob Ebner Vorwort zur zweiten Auflage In der Neubearbeitung wurde der Wortschatz ergänzt und aktualisiert. Dazu wurde das neueste Schrifttum ausgewertet, einschließlich der Jugendliteratur. Über 700 Stichwörter wurden neu aufgenommen. Dies wurde durch platzsparenden Druck ermöglicht. Außerdem wurden Wörter der älteren Literatursprache und ältere Sachbezeichnungen sowie Wörter mit zu geringem Unterschied zum Sprachgebrauch in Deutschland gestrichen. Der allgemeine Teil am Schluß des Buches wurde durch eine Darstellung der österreichischen Umgangssprache und eine Suchliste Binnendeutsch-Österreichisch erweitert. Die vielen Anregungen und Korrekturvorschläge, die mich in den letzten zehn Jahren in Rezensionen und Briefen erreichten, bildeten eine wichtige Grundlage für die Neubearbeitung. Ich habe allen Benutzern und Kritikern der ersten Auflage für ihre Mitarbeit zu danken.

*Transcending Boundaries: Writing for a Dual Audience of Children and Adults* is a collection of essays on twentieth-century authors who cross the borders between adult and children's literature and appeal to both audiences. This collection of fourteen essays by scholars from eight countries constitutes the first book devoted to the art of crosswriting the child and adult in twentieth-century international literature. Sandra Beckett explores the multifaceted nature of crossover literature and the diverse ways in which writers cross the borders to address a dual readership of children and adults. It considers classics such as Alice's Adventures in Wonderland and Pinocchio, with particular emphasis on post-World War II literature. The essays in *Transcending Boundaries* clearly suggest that crossover literature is a major, widespread trend that appears to be sharply on the rise.

A colorful look at getting along! Matilda, the Queen of Colors, has a color for her every mood—she calls for Blue when she's calm, Red when she's wild, and Yellow when she wants to be warm. But when Matilda and Yellow begin to quarrel, not even Blue and Red can stop the argument. And before long everything in the kingdom turns Gray, until Matilda cries tears—bright colorful tears. Jutta Bauer's simple yet evocative story and pictures convey a rainbow of emotions as The Queen of Colors plays and jousts with her primary subjects—Blue, Red, and Yellow.
