If you've always loved the sound of the guitar and longed to play it, then you've come to right place. With this book, you'll learn the magic of music and musical instruments. Every modern band has at least one guitar in the group. The guitar is not only easy to play, but it is also versatile. And who doesn't love a great guitar solo? The guitar can fill in the tones ranging from the lows of the bass guitar to the highs of the lead guitar. In this book, you'll learn about the different types of guitars, the material used to make them, and the kind of music you can play. Underlying music is the theory that defines the arrangement of notes and the way you play chords. Learning this will help you understand how the world of music connects each instrument and forms a song. You can open magical doors by understanding how to transition between notes and use chords. In this book you'll discover: -How to choose the best guitar -How to care for and maintain your guitar-Gadget, tips, and tricks to help you refine your playing-Basic major and minor chords found in most songs-Diminished, slashed and inverted chords-The basics of playing songs for beginners Everything you need to know about guitar music is here. Click the Buy Now button and begin your musical journey. You can start making music today!

If You're New To The Guitar and Want To Be Playing Your First Song In 7 Days or Less Then Keep Reading... Do you want to learn to play the Guitar? Do you want to do it in a fun and practical way? Do you want to be playing your first song by this time next week (or earlier)? If you're an aspiring Guitarist like I was, you probably answered yes to all of the questions. Now, learning the 'boring' parts like Music Theory and ALL Chords certainly has it's place, however, as a beginner what we want to do is PLAY Music, not theorize about it. That's why I'm so passionate about writing these books, to help aspiring Guitarists not go through the same boring fate I did. Not only that, I saw so many potentially great Guitarists give up because they couldn't deal with the mind-numbing teachings anymore. The funny thing is once you have hours and hours of playing time under your belt, learning the 'boring' parts isn't half as bad, as you know you're only doing it if it's essential to make you a better Guitarist. And, believe me, once you fall in love with playing and realize just how amazing playing your first full songs, or your first solo, or your all-time favorite song is, you will be a lot more motivated to sit down and learn the theory. But, as a beginner, you have no idea of the feeling playing can give you, so what you need first is that playing experience, and that's exactly what I'm here to give you. Oh, and you don't need to worry, this isn't a 24/7 all work, no play programme. Yes, you'll need to spend some time practicing, but it's the 21st Century, we have very busy lives, and I have busy lives, and I made all of the

practices and learning as streamlined as possible for you! And, here's a slither of what you'll discover inside... The 7 MUST KNOW Chords For Any New Guitarist! (Without All The Fluff) The 3 Things You'll Want To Know Before Buying A New Guitar (Includes A Complete Buying Guide) A Proven Guide To Schedule Your Time To Maximize Your Results (We Don't All Have Endless Time To Practice Unfortunately) The Absolute Essentials To Guitar Maintenance And Why You're Potentially Wasting \$100's If You Ignore This The Bare Essentials Of Reading Music The Right Way, Without Boring You To Death 2 Tips That Could Prevent You From Wasting Hours Getting Nowhere With Your Practice 3 Tips For Preparing For Your First Song How Listening To Music Can Help You Rapidly Develop Your Skills An Easy Solution To Prevent The Dreaded Newbies Finger Pain... And that is a tiny fraction of what you're getting. Even if you've NEVER picked up a Guitar in your life, even if you have no idea how to even pick or tune a Guitar and even if you don't know the difference between a chord and a scale this Practical Beginners Guide will have you playing your first song in 7 days or less! (All for the price of a few cups of Coffee, I think that's a fair deal) So, If You Want A Fun And Practical Way To Actually Learn Guitar Without All The Boring And Mind-Numbing Parts Scroll Up And Click "Add To Cart."

This book gives you all the information you need to get started on the keyboards. A series of short, illustrated lessons build up your knowledge one step at a time. Essential aspects of keyboard technique are covered as well as music theory - notation and harmony. Includes a CD of musical cues and songs

to play along with. Over 60,000 copies sold worldwide. This is a laid-back tutorial book aimed at building skills and confidence quickly, and above all, making learning to play keyboards fun. The main section of this book is made up of simple lessons. Comprehensive chord and scale libraries will enable the reader to apply his knowledge to any song or playing situation. A brief history of keyboards provides a background, and a buyer's guide walks players through the myriad of contemporary electronic keyboard choices, with useful suggestions on finding an instrument to suit your requirements. A fold-out page offers an at-a-glance key to understanding musical notation.

Easy play-along guide to understanding music, building confidence and learning to jam like a pro, with over 100 audio play-along practice tracks If you play ukulele to a basic level but want to take your playing skills to the next level by being able to hear, follow and understand the music and songs you play then this book is for you. With Next Level Ukulele you can: - Dramatically boost your confidence when performing - Develop your music theory knowledge, rhythm and listening skills - Improve your ability to play and remember songs - Transform your all round skills as a musician Does the world really need another uke book? We think it does - you see, many experienced beginner/intermediate ukulele players grow frustrated by their inability to understand and follow the music they play. Instead of blindly following the chords on the page, they want to be able to 'hear and feel' the music they play in the same way an experienced musician

does! This is where Next Level Ukulele comes in - simply follow the step-by-step method in this book (with over 100 play-along tracks included), and see your musical skills improve dramatically. By focusing on really listening and learning to recognise the sounds in the music you play - you can go beyond basic ukulele playing, and begin to think, hear and feel like a real musician. Next Level Ukulele comes with over 100 play-along backing tracks demonstrating most of the examples in the book. These are used to teach you to hear and recognise all of the most common things you hear in the songs you play - chords, chord progressions, keys and key changes, common rhythmic patterns and more. Playing along with these 'live band feel' backing tracks is also the perfect way to practice your uke playing at home and become totally confident when you make music with others - whether it's as a solo performer, in a uke band or club, at open mic nights or impromptu sing-alongs and jam sessions. Next Level Ukulele shows you how to: Learn to play 'by ear'. This is how many musicians can work out and play songs they've never even played before! Learn how to develop the skills you need to eventually be able to do this Understand and recognise the common elements we see in the popular ukulele repertoire - major and minor chords and keys, different rhythms and time signatures, 'seventh' chords, common chord sequences, key changes, 'borrowed' chords and much more Recognise common song forms and structures like the 12 bar blues, 'IV' chord chorus songs, and song based on simple repeating chord patterns (makes it much easier to learn and remember songs you want to play) Learn to 'feel the rhythm' and nail common rhythmic feels and strumming patterns - including

swing rhythms, shuffles, 'train' rhythms, waltz time and more Perfect if: - You want to improve your ukulele playing skills, feel more confident when playing with other musicians, and simply enjoy your playing more - You'd like to become one of those players who can hear songs and work them out simply by using their ears! - You want to improve your ability to listen to and follow the music you play - You want to learn some of the skills you need to jam with others (and feel comfortable and confident doing so!) - You'd like to play music and songs on the spot 'by ear' instead of always following a chord sheet - You want a deeper understanding of the music you play - You'd like to be able to recognise the common chords, chord progressions, song forms and key changes used in the popular ukulele repertoire Ready to see a dramatic boost in your ukulele and music skills? Then grab Next Level Ukulele (with over 100 play-along practice tracks) and get started!

Piano Book for Kids 5 and Up - Beginner Level Independently Published

The Melodica is one of the best educational instruments. The Melodica is light and portable The Melodica develops both keyboard skills and breath control The Melodica is perfect for group play The Melodica works like a clarinet The Melodica plays like a piano The Melodica sounds like a harmonica or an accordion This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. That is why we use an "easy-to-play" visual aid so any beginner can play music quickly. Neither kids nor their parents have to read sheet music or have a musical background. No previous knowledge is

necessary. None at all. Every song has a large and simple, color and letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There is a total of 22 songs and 3 options to help children to begin to play right away. PLAYING BY COLOR CIRCLE PLAY BY LETTER PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - CIRCLES Mary Had a Little Lamb - Ver 1 - NOTES Level 2. In this part, you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Ver 1 - CIRCLES Hot Cross Buns - Ver 1 - NOTES Hot Cross Buns - Ver 2 - NOTES (Here the player will play songs in a different key and learn to transpose). Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3. Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see

how the same melody can be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer, not only Melodica). Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as kalimba, marimba, xylophone, glockenspiel, or even color bell set.

Are you a beginner and would like to learn how to play the ukulele from scratch? Are you looking for a practical and simple guide to learning to play ukulele? Playing the ukulele should bring you peace and joy. Do not make it into a job where you feel like you have to practice every day. Music is all about staying true to yourself and staying in love with the practice of it. I am going to leave you with my top 5 list of beginner's tips for the ukulele and that you will find in this book: Starting as a beginner play slowly. This will also assist with chord changes. Practice this with lots of chord changes. Your goal is accuracy and not speed as the speed will naturally come and will not the other way around. Refer to the figures on how to correctly hold your Ukulele standing or sitting. Proper strumming influences your sound more than you know when beginning. Besides strumming you can palm mute and then slap the strings to get down and funky. Ensure you have the basics covered in this book. I know you want to go from 0 to 100 in two seconds but do not try or you will become disheartened. You had to crawl before you walked, right? Do exercises and practice fingering. This will make you more accurate and you guessed it, faster. I wish you well, and I hope that you found everything that you

needed in these pages. I have made sure that you have all of the necessary material to get started and a few great diagrams to give you a clearer picture. You have gone thru the basics of playing a Ukulele, and with practice, practice, practice and should become a great player if not even a virtuoso! Good luck, and have fun! It Took Me 3 Months to Play My First Song - But You'll Be Doing That in Less Than A Week. It wasn't because I was slow or bad at guitar. Neither was it because I practiced less. I was simply misguided - like every other person to ever pick up the guitar! I took the "traditional" method of learning where you learn all the chords and all the theory behind it before you get to the fun part. This also involves months of practice and learning boring theory. This book is here to end that - to simplify things - to make things so simple that you'll be playing your first melody on day 1 and your first song within 7 days. How can this book do that? You would

have heard people say - "You need to learn theory to be a real guitarist" Well..... Wrong! Not everyone needs to know theory - why do you need to learn all the boring theory if it's of no use to you? Why is this forced upon all guitarists? This book cuts out all the cr*p and gives you a streamlined process of mastering guitar. Even if you failed every exam at school and you have never picked up a single instrument in your life, you will be able to become a proficient guitar player without years and years of expensive guitar lessons. With the right strategy, you will get addicted to your guitar and the songs you are able to play. How long will I have to practice? Now, I know you have other commitments in life and cannot spend 25 hours a day practicing guitar. No one wants to do that. This book has been designed with exactly that in mind. It will give you goals for each of your 7 days with step by step instructions on what to play each day. You won't have to worry if you're practicing too less or too much - the book will tell you what you need to be accomplishing each day.
