Born with one foot in light and one in darkness, she is torn between both.Melea is the greatest warrior in the world. In service to the Lord of Light, she uses her abilities to kill for his divine vision. Shadows grow larger as the Light spreads-the world and the forces that define it are changing and Melea is caught in the center. American Boy is the poignant story of a brother's fall through the eyes of a little sister. Matthew went from clashing lightsabers with Shea and scaring away bullies, to driving off into night and stumbling up to federal court podiums. Megale chronicles Matt's journey through opioid addiction with brutal truth and unimaginable love, revealing raw and shocking insight into this national and deadly epidemic. This firsthand biography seeks to help others by sharing what worked for Matthew and what didn't, and looking back on mistakes made in the heat of survival. Megale challenges families to talk without shame about their loved one's addiction, and what communities can do to change the course of this historic crisis in front of them. Written with haunting intimacy and surprising hope, Megale's account is a must-read for anyone touched by substance abuse or grief. It is the portrait of Matt-his spirit and his warmth-but the story of her, too, and her fight to return to him with both urgency and ideas of forever

The dinner with Emma was a gift after the tense period in Budapest. While eating, I looked at her face as she was talking, animated, relaxed, laughing, with short periods of seriousness. I wished I could take pictures in those moments, moments that I had missed, moments that I usually miss. I often thought about my pictures, what sort of photographer was I? A portrait photographer? A journalist? In that moment, thinking of taking pictures of her while she was eating, of the way she closed her eyes with each bite, and laughed under the calming light in the room, I considered myself a photographer of moods. Mark works in a current affairs magazine as a photographer. He spends his time bickering and philosophising with his friends. Young to middle aged, Mark and his friends pass their moments avoiding commitments, shunning what goes on around them. There are times to make decisions often made through no action. Responsibilities dissolve in comfort, and emotions seem to be foreign phenomena in their life under illusion of personal liberty. Can this all change?
