Ryunosuke Akutagawa was one of Japan's great writers - author of the stories 'Rashomon' and 'In a Bamboo Grove', most famously - who lived through Japan's turbulent Taisho period of 1912 to 1926, including the devastating 1923 Earthquake, only to take his own life at the age of just thirty-five in 1927. These are the stories of Patient X in one of our iron castles. He will tell his tales to anyone with the ears and the time to listen - Inspired and informed by Akutagawa's stories, essays and letters, David Peace has fashioned a most extraordinary novel of tales. An intense, passionate, haunting paean to one writer, it also thrillingly explores the act and obsession of writing itself, and the role of the artist, both in public and private life, in times which darkly mirror our own.

Psychotherapy: An Erotic Relationship challenges the traditional belief that transference and countertransference are merely forms of resistance which jeopardize the therapeutic process. David Mann shows how the erotic feelings and fantasies experienced by clients and therapists can be used to bring about a positive transformation. Combining extensive clinical material with theoretical insights and new research on infants, the author traces erotic development back to the parent-child relationship, drawing parallels between this relationship and the therapist/client dyad. Individual chapters

explore the function of the erotic within the unconscious, pre-Oedipal and Oedipal material, homoeroticism in therapy, sexual intercourse as a metaphor for psychological change, the primal scene and the difficulties of working with perversions.

The Pulitzer Prize-winning author of Cleopatra, the #1 national bestseller, unpacks the mystery of the Salem Witch Trials. It began in 1692, over an exceptionally raw Massachusetts winter, when a minister's daughter began to scream and convulse. It ended less than a year later, but not before 19 men and women had been hanged and an elderly man crushed to death. The panic spread quickly, involving the most educated men and prominent politicians in the colony. Neighbors accused neighbors, parents and children each other. Aside from suffrage, the Salem Witch Trials represent the only moment when women played the central role in American history. In curious ways, the trials would shape the future republic. As psychologically thrilling as it is historically seminal, The Witches is Stacy Schiff's account of this fantastical story -- the first great American mystery unveiled fully for the first time by one of our most acclaimed historians.

Thad Roberts, a fellow in a prestigious NASA programme had an idea - a romantic, albeit crazy, idea. He wanted to give his girlfriend the moon. Literally. Thad convinced his girlfriend and another female accomplice, both NASA interns, to break into an impenetrable laboratory at NASA's headquarters - past security checkpoints, and electronically locked door with cipher security codes and camera-lined hallways - and help him steal the most precious objects in the world: Apollo moon rocks from every moon landing in history. Was Thad Roberts - undeniably gifted, picked for one of the most competitive scientific posts imaginable - really what he seemed? And what does one do with an item so valuable that it's illegal even to own? Based on meticulous research into thousands of pages of court records, FBI transcripts and documents, and scores of interviews with the people involved, Mezrich - with his signature high-velocity swagger - has reconstructed the madcap story of genius, love, and duplicity all centred on a heist that reads like a Hollywood thrill ride.

In this provocative volume, Dr. Florence W. Rosiello addresses erotic dynamics in the treatment relationship within the context of a two-person therapy, emphasizing the necessity of mutuality and emotional reciprocity between patient and therapist. With rich clinical illustrations, she demonstrates how the intimacy created by working within the sexual dimension of the therapeutic relationship may present opportunities for insight and growth that could easily be missed if one seeks to avoid these highly charged issues. Focusing on those patients who are predisposed to relating to others in a sexualized manner, Dr. Rosiello has discovered that mutual exploration of both the therapist's and the patient's subjective experience offers a valuable and effective means of enhancing the treatment.

“We walked toward the part of the library where the air smelled as if it had been interred for years..... Finally, we got to the hallway where the wooden floor was the creakiest, and we sensed a strange whiff of excitement and fear. It smelled like a creature from a bygone time. It smelled like a dragon.” Thirteen-year-old Juan's favorite things in the world are koalas, eating roast chicken, and the summer-time. This summer, though, is off to a terrible start. First, Juan's parents separate and his dad goes to Paris. Then, as if that wasn't horrible enough, Juan is sent away to his strange Uncle Tito's house for the entire break! Uncle Tito is really odd: he has zigzag eyebrows; drinks ten cups of smoky tea a day; and lives inside a huge, mysterious library. One day, while Juan is exploring the library, he notices something inexplicable and rushes to tell Uncle Tito. “The books moved!” His uncle drinks all his tea in one gulp and, sputtering, lets his nephew in on a secret: Juan is a Princeps Reader—which means books respond magically to him—and he's the only person capable of finding the elusive, never-before-read Wild Book. Juan teams up with his new friend Catalina and his little sister, and together they delve through books that scuttle from one shelf to the next, topple over unexpectedly, or even disappear altogether to find The Wild Book and discover its secret. But will they find it before the wicked, story-stealing Pirate Book does?

How do gender and sexual difference influence the erotic transference? Gender, Countertransference and the Erotic Transference offers new insights into working with complex transference and countertransference phenomena. Including views from a wide spectrum of theoretical backgrounds, it makes a unique contribution to discourse on the themes of gender, sexuality and the erotic transference. The contributors are highly experienced clinicians with international reputations as theorists in the fields of analytical psychology, psychoanalysis and psychoanalytic psychotherapy. Illustrated with closely observed clinical examples and detailed theoretical discussion, innovations in technique are introduced on themes including developmental mourning, female perversion, the meaning and purpose of the erotic transference, the dying patient, lesbian homoerotic transference and supervision of the erotic transference. In a perfect vacuum, Stanislaw Lem presents a collection of book reviews of nonexistent works of literature - works that, in many cases, could not possibly be written. Embracing postmodernism's "games for games' sake" ethos, Lem joins the contest with hilarious and grotesque results. Most of the "reviews" target the postmodern infatuation with antinarratives by lampooning their self-indulgence and exploiting their mannerisms. Lem exposes the limits of postmodern fiction, showing how its studious self-consciousness frequently conceals intellectual paucity. Beginning with a review of his own book, Lem moves on to tackle (or create pastiches of) the French new novel, James Joyce, pornography, authorless writing, and Dostoevsky, while at the same time ranging across scientific topics, from cosmology to the pervasiveness of computers.

'I am writing this because I believe we have an absolute duty in the Church to offer homosexual couples not only practical support, but the same theological understanding of their relationship that we offer to heterosexual couples, to help them fulfil the same hope, the same ideal - of permanent, faithful, stable love.' Drawing on many years' personal and pastoral experience, Jeffrey John explores the meaning and context of the mentions of homosexuality in the Bible and also considers the moral arguments, before offering guidance to same-sex couples on forming a lasting, covenanted, monogamous relationship. Earlier editions of this book have become essential reading for anyone seeking to understand the theology of same-sex relationships in a Christian context. It has been cited by the former Archbishop of Canterbury, Dr Rowan Williams, as one of the most helpful books on the subject. This new edition has been updated to take account of the latest thinking on the issue. In a brand new Preface and Postscript, Jeffrey John speaks forthrightly about the Church of England's failure to move positively in support of same-sex marriage.

Worldwide, an increasingly diverse and growing number of people are seeking therapy. We go to address past traumas, to break patterns of behaviour, to confront eating disorders or addiction, to talk about relationships, or simply because we want to find out more about ourselves. Susie Orbach has been a psychotherapist for over forty years. Also a million-copy bestselling author, *The New York Times* called her the 'most famous psychotherapist to have set up couch in Britain since Sigmund Freud'. Here, she explores what goes on in the process of therapy through a series of dramatized case studies. Insightful and honest about a process often necessarily shrouded in secrecy, *In Therapy: The Unfolding Story* is an essential read for those curious about, or considering entering, therapy. This complete edition takes us deeper into the world of therapy, with 13 further sessions and a new introduction.

Emotional literacy means being able to recognise what you are feeling so that it enhances rather than interferes with thinking - a contrast with emotional expression which can mean one is driven by emotions so that it isn't possible to think.' In this, the second collection of her *Guardian* columns (one of the longest running and most popular of the paper) Susie Orbach again proves herself to be a clear-sighted and intelligent guide to understanding what's really going on around and within us. Her belief that we must learn how to validate emotion in public and private life remains the cornerstone of her work and has at long last, become a part of public debate.
