Scandtastic!:
The best of
design from
northern
Europe
Scandinavians

are
exceptionally
gifted in
design. They
are world-
famous for
their
inimitable,
democratic
designs which
bridge the gap
between
crafts and
industrial
production.

The marriage
of beautiful
organic forms
with everyday
functionality is
one of the
primary
strengths of
Scandinavian
design and
one of the
reasons why
Scandinavian
creations are
so cherished

and sought after. This all-you-need guide includes a detailed look at Scandinavian furniture, glass, ceramics, textiles, jewelry, metalware and industrial design from 1900 to the present day, with in-depth entries on over 180 designers and design-led companies, plus essays on the similarities and differences in approach between Norway, Sweden, Finland,

Iceland, and Denmark. Also included is a list of important design-related places to visit for readers planning to travel to Scandinavia. Including: DESIGNERS Verner Panton, Arne Jacobsen, Alvar Aalto, Timo Sarpaneva, Hans Wegner, Tapio Wirkkala, Sigvard Bernadotte, Stig Lindberg, Ingeborg Lundin, Finn Juhl, and many others. COMPANIES Fritz Hansen, Artek, Le Klint,

Gustavsberg, Iittala, Fiskars, Volvo, Saab, Orrefors, Royal Copenhagen, Holmegaard, Arabia, Marimekko, George Jensen, and many more. Cobra Herridge & Sons Limited This important book summarises the wealth of recent research on our understanding of process-property relationships in wrought magnesium alloys and the way this understanding can be used to

develop a new generation of alloys for high-performance applications. After an introductory overview of current developments in wrought magnesium alloys, part one reviews fundamental aspects of deformation behaviour. These chapters are the building blocks for the optimisation of processing steps covered in part two, which discusses casting, extrusion, rolling and forging

technologies. The concluding chapters cover applications of wrought magnesium alloys in automotive and biomedical engineering. With its distinguished editors, and drawing on the work of leading experts in the field, *Advances in wrought magnesium alloys* is a standard reference for those researching, manufacturing and using these alloys.

Summarises recent research on our understanding of process-property relationships in wrought magnesium alloys. Discusses the way this understanding can be used to develop a new generation of alloys for high-performance applications. Reviews casting, extrusion, rolling and forging technologies, fundamental aspects of deformation behaviour, and applications of

wrought magnesium alloys in automotive and biomedical engineering
Porsche Book Delius Klasing Verlag Gmbh
Over the 15 years since the countrys last National Human Development Report (NHDR) was published Ethiopia has undergone significant economic and social changes and has recorded some of the highest growth rates in the world- over 10 per cent in some

years. However, Ethiopias Human Development Index (HDI) and its relative ranking have not moved appreciably during the past decade. Even though Ethiopia is one of the 10 countries globally that has attained the largest absolute gains in its HDI over the last several years, it still ranks 173rd out of 186 countries in the latest UNDP Human Development Report. It is this

development challenge that underlines the fact that the preparation of the NHDR is so opportune now and why the focus of the report on inclusive growth for sustainable human development is so apposite. In 1998, when the last NHDR was written, the development challenges facing the country were considerably different. Mountain Roads Porter Press
No other team dominated the 2014 Formula

One season like Mercedes-Benz. Lewis Hamilton and Nico Rosberg competed for the pole position, providing ample excitement during each of the races. This coffee table book relives the season with stunning images, giving the reader an exciting behind-the-scenes glimpse into the inner workings of the sport. Motorsports enthusiasts gain insight into the technical feats achieved by

the entire Mercedes-Benz team. This edition brings together the history of the Silver Arrows, the development of the racing cars and highlights from the 2014 season. SELLING POINTS: * Official publication of the winning racing team with forewords by Dieter Zetsche, Niki Lauda, and Toto Wolff * Fantastic behind-the-scenes photos with texts by the motorsports

authority Hartmut Lehbrink * From the birth of the silver arrows to the extraordinary 2014 season, there are chapters on each race * This book is interactive. This magnificent book tells the story of the most important Porsche 917 of all – the one that gave Porsche its first victory in the Le Mans 24 Hours. In 1970, the world’s greatest sports car race was ravaged by periods of torrential rain, but through it all came 917-023, driven by Hans Herrmann and Richard Attwood. They achieved a landmark success for

the German manufacturer. This book provides detailed insight into not only this race, but the six other races 917-023 competed in. Supported by a superb collection of period photographs, many in color, all Porsche fans will love this addition to the “Great Cars” series. **2014 Turning Silver Into Gold UN** Get the full scoop on Great Britain's best-loved sports car manufacturer

with Aston Martin DB, an exquisitely produced, photo-loaded, history by Aston Martin expert, Andrew Noakes. The name David Brown is synonymous with the glory days of Aston Martin, when a tiny British sports car company was rescued from near-extinction and turned into a marque that could compete with Ferrari-- and win. Stylish design, lavish illustration and meticulously

researched text come together in this large-format, 224-page book to create a superb celebration of the 70th anniversary of DB Aston Martins in 2017. There's a wealth of detail on the Aston Martin DB road and race cars, both from the David Brown era of 1947-1972 and the modern DB era from 1993 onwards, together high quality images and specification tables for all

the key models. Aston Martin DB 70 Years is a fitting celebration of one of the world's most enduring sports cars. The fast, beautiful sports cars that Aston Martin built under Brown's ownership won the Le Mans 24-hour race and the World Sports Car Championship, and provided James Bond with his most famous transport: the ejector-seat equipped DB5 that won acclaim in

Goldfinger. Though the DB era ended when Brown sold the company in 1972, its influence continued to be felt. James Bond's most recent car, the specially-made DB10, and Aston Martin has just launched its most complete car ever, the DB11. 'DB' means as much to Aston Martin now as ever. **Automobil** Delius Klasing Verlag Gmbh Presents a series of anecdotes that tell the

history and meaning of American uniforms, identifying their cultural significance in terms of how uniforms unite and divide people as well as how they vary throughout the world.

High Performance

Elsevier
The new range of S-Class cars (W126) was launched in 1979 with the first UK cars arriving in autumn 1980. The new wedge shape with less weight helped with fuel

economy whilst retaining the comfort. The wheelbase was increased and the body to boot size relationship changed. Automatic was standard on all V8 engined cars. Within a year the (Energy Conceptö engines were introduced, and in 1985 all the engines were revised with a single-cam, 3-litre and a 4.2 V8. A 5-litre was re-introduced in late 1987. This is a book of contemporary road and

comparison tests, specification and technical data, new model introductions, driver's reports, buying second hand, long term tests, touring. Models covered include:- 280, 300, 380, 420, 500, 560, SD, SE, SEL, SEC, AMG and Koenig. Elements of Business Logistics
Superfinds
This book is unique. It is a compendium of wonderful automotive treasure, as discovered.

With the passage of time all cars became worthless and unloved, no matter how eminent. Racing cars inevitably became uncompetitive and redundant. Many vehicles passed into scrapyards, the motoring equivalent of a cemetery, or simply rotted away.

Wenn Autofirmen Studien und Prototypen zeigen, erlauben sie damit einen Blick hinter den Vorhang, eine Vision von dem, was kommt oder kommen könnte. Neben dem, was bei offiziellen Terminen und auf Messen gezeigt wird,

gibt es aber eine überwältigend e Menge von Entwürfen und Modellen, die der Öffentlichkeit aus verschiedensten Gründen verborgen bleiben. In diesem Buch wird das unmögliche möglich: ein Blick auf noch nie gesehene Porsche - Porsche Unseen. Stefan Bogner durfte exklusiv im Allerheiligsten des Porsche Designs fotografieren und beschert uns absolute Aha-Momente.

<p>Die Porsche-DNA ist in jedem der gezeigten Modelle erkennbar, die Ausführung aber so neu und zum Teil so unerwartet, dass man meint, in einem Paralleluniversum gelandet zu sein. Ein 1-Liter-Auto von Porsche? Ein coupéhafter 4-Sitzer mit 911-Zügen? Einsitzige Roadster mit dem Geist der 50er-Jahre? Das alles hat Stefan Bogner im Modell oder sogar fahrfertig vor der Linse gehabt. Die</p>	<p>erhellenden Hintergründe hat Jan Baedeker im persönlichen Gespräch mit Designchef Michael Mauer notiert. Folgen Sie uns auf eine unvergleichliche Entdeckungsrise durch die Welt des Porsche Designs! Zweisprachig: Deutsch/Englisch Unknown valuables When car companies present studies and prototypes, they allow a glimpse behind the scenes, a vision of what</p>	<p>will come or might come. Apart from what is shown on official events and at fairs, there is an overwhelming number of drafts and models, that remain hidden from the public for various reasons. This book achieves the impossible: a look at Porsche cars the public never laid eyes on - Porsche Unseen. Stefan Bogner was exclusively allowed to take pictures</p>
--	---	--

in the Porsche Design sanctum, aha-experiences guaranteed. The Porsche DNA is recognisable in any of the models shown, but the design is so new and unexpected that it suggests the existence of a parallel universe. A 1-litre Porsche? A coupé-like four seater with 911-looks? Single-seated roadsters with 50's flair? Stefan Bogner took photos of all of them - either as models or ready to drive. Jan Baedeker talked with Michael Mauer, Head of Design, and took down the enlightening background information. Join our extraordinary expedition of discovery through the world of Porsche Design! Works Cortina, Corsair & Capri In Detail Porter Press Historian Graham Robson tackles the story of Ford's emergence during the 1960s as a leader in international saloon car competition beginning with the Mark 1 Cortina in 1962. The career of every works Mark I and Mark II Cortina, Lotus-Cortina, Capri, and Corsair is individually recounted in Works Cortina, Corsair & Capri In Detail, with contemporary action photographs and listings of events entered, results and drivers, and with accounts of performances in rallies and races. Plus,

there are specially commissioned color photographs of a number of surviving works cars, which have been shot in considerable detail. For fans of the race and rally Fords of these glory days, as well as for motor sport enthusiasts, this book is pure treasure. Polar Inertia Houghton Mifflin Harcourt In this technically versatile tome, photographer Uli Weber shows his

prowess behind the lens, mixing fine portraiture and reportage with animal and sport images in a wide spectrum of fine photographic craftsmanship. The majority of these stunning images were shot over the past six years at various manors and estates around Great Britain, as well as at the yearly Smithfield Horse Fair in Dublin. In a unique examination of the close

relationship between humans and horses, The Allure of Horses takes readers on a journey across equine communities from the steeplechase to the thrill of the polo field to sidesaddle riding through the countryside on a warm summer's eve. The Sociology of Invention John Wiley & Sons - Highlights from 10 years of mountain photography: Stefan Bogner's most beautiful aerial photos

of Alpine routes, mountain passes, and scenic roads worldwide - Unique, limited coffee-table book in a slipcase, including four prints autographed by the photographer of the bestselling "Escapes" and the popular "Curves" magazines - Over 200 fascinating aerial shots by the multi-award winning designer Driving upwards, the pass seems endless, hairpin turn

after hairpin turn winding its way to the top. You change gear, keep your eyes on the road, concentrate on the next stretch. And easily forget about the magnificence around you -- the fantastic mountain panorama -- in order to focus on roads that combine the pleasure and practicality of a roller coaster ride. This book presents over 200 breathtaking aerial images by "Curves" magazine

photographer Stephen Bogner, capturing stunning mountain passes, hairpin turns, switchbacks, and scenic roads. For the past decade, Stephen Bogner has taken glorious photographs of mountain vistas from a helicopter that a driver focusing on the road cannot stop to appreciate. This book brings together the best images of the past 10 years in one beautifully produced,

limited edition, slipcased retrospective, with 4 signed prints. His outstanding photos are accompanied by text by Jan-Karl Baedeker. A must-have for the fans of "Curves", "Escapes" and "Porsche Drive." Text in English and German.

The Porsche 911 Book

HBR Insights Providing a firsthand history of the sport, this book takes a detailed look at all aspects of drag racing: the sport, the business, and

tracks the innovations that permitted racers to disprove the "laws of physics". 147 halftones.

Sport- und Action-Fotografie

TeNeues Chronicles every grand prix motor race from 1894 onwards, including profiles of the cars, the drivers, and the racetracks; traces the development of motorcar racing; and presents, in chronological order, all the cars and models.

Art of the

Mustang

Springer Science & Business Media This book tells the complex saga of a sports car that was created in the early 1960s as a result of an unlikely collaboration between a plain-talking ex-racing driver from Texas and a conservative British automobile manufacturer, funded by one of the giants of the industry, the Ford Motor Company. Carroll Shelby, AC Cars, and

Ford came together to create a car called the Cobra, based on the AC Ace roadster that had been in production since 1954. When the Shelby Cobra was created, it was far from state-of-the-art, but the use of a new series of Ford V8 engines saw the lightweight car annihilate the Chevrolet Corvette in American sports car racing. By adding aerodynamic bodywork, the Daytona Cobra Coupe

arrived in Europe to contest the FIA World Championship and took victory in the GT category in 1965, making Shelby American the first (and only) USA-based manufacturer to achieve this feat. In order to capitalize on this success, even greater power was required and the car was developed to take a huge 7-liter engine that proved to be a triumph of horsepower over handling - thus the 427 Cobra became

an overnight legend, establishing new performance records and creating a reputation for being more than a little tricky to drive. The era of the Cobra was brief - production ended at Shelby American during 1966 and at AC Cars in 1968 where they built their own final version, the AC289 Sports. Just over 1000 Cobras were built during that time but the final cars proved

difficult to sell, their vintage qualities deterring potential owners.

Carroll Shelby closed his company and went to Africa while AC developed other models, but the Cobra was not quite finished yet. Within a matter of a few years, a new market

for the car was created as the demand for affordable kit cars grew. The most popular model by far was the Cobra and many thousands were built, with the result that both AC Cars and Carroll Shelby put their own versions back into

production. And then the arguments really started... If it was an improbable car over forty years ago, it is even more implausible today, but the remarkable Cobra, in one form or another, is still with us. It may be dead, but it just won't lie down!
