 Feet and Footwear in
 Antiquity, held at

 Ancient dress and
 adornment have
 received significant
 consideration in recent
 scholarship, though,
 strikingly, feet and
 footwear have featured

relatively little in this discussion. This volume aims to rectify this imbalance through its fifteen chapters covering a wide range of aspects associated with feet and footwear in classical antiquity. Contributions are grouped under four headings: 'Envisaging footwear', 'Following footprints', 'One from a pair' and 'Between representation and reality', reflecting the broad range and interdisciplinary nature of the approaches undertaken.

 Eugène Delacroix (1798–1863) was one of the towering figures to emerge in France in the wake of Napoleon.

No other artist of the nineteenth century balanced a reverence for the past with such a strong ambition and spirit of innovation. Distinguishing himself from many other talented young artists in Paris, he gained renown in the 1820s for his novel subject matter, theatrical sense of composition, vibrant palette, and vigorous painterly technique. His vast production—including some eight hundred paintings, prints in a variety of media, and thousands of drawings and pages of writing—won the admiration of countless writers and artists, including Charles Baudelaire, Paul Cézanne, and Pablo Picasso. This comprehensive monograph closely

examines the full breadth of Delacroix's career, including his engagement with the work of his predecessors, his fascination with the natural world, his interest in Lord Byron and the Greek War of Independence, and the profound influence of his voyage to North Africa in 1832. It brings to life his relationships with his contemporaries, ranging from the painters Pierre Narcisse Guérin and Antoine Jean Gros to Gustave Courbet, as well as his exploration of literary, historical, and biblical themes, his writing in personal journals, and his triumphant exhibition at the Exposition Universelle of 1855. Richly illustrated and encompassing the

entire range and diversity of his art, from grand paintings to intimate drawings, Delacroix illuminates how this intrepid figure changed the course of European painting by heeding "a call for the liberty of art."

This book—along with its companion volume *Mary I in Writing: Letters, Literature, and Representations*—centers on representations of Queen Mary I in writing, broadly construed, and the process of writing that queen into literature and other textual sources. It spans an equally wide chronological and geographical scope, accounting for the years prior to her accession in July 1553

through the centuries that followed her death in November 1558 and for her reach across England, and into Ireland, Spain, Italy, Russia, and Africa. Its intent is to foreground words and language—written, spoken, and acted out—and, by extension, to draw out matters of and conversations about rhetoric, imagery, methodology, source base, genre, narrative, form, and more. Taken together, these volumes find in England's first crowned queen regnant an incomparable opportunity to ask new questions and seek new answers that deepen our understanding of queenship, the early modern era, and modern popular

culture.

 From insidious murder weapons to blaze-igniting crinolines, clothing has been the cause of death, disease and madness throughout history, by accident and design. Clothing is designed to protect, shield and comfort us, yet lurking amongst seemingly innocuous garments we find hats laced with mercury, frocks laden with arsenic and literally 'drop-dead gorgeous' gowns. Fabulously gory and gruesome, *Fashion Victims* takes the reader on a fascinating journey through the toxic history of dress, in myth and reality. Drawing upon numerous visual and textual sources, from nonsensical mad

hatters and lice-ridden soldiers, to the fiery deaths of Oscar Wilde's half-sisters, the book explores how garments have actually, purportedly, or mythically, tormented those who made and wore them. Vividly chronicling evidence from Greek mythology to the present day, Matthews David puts everyday apparel under the microscope and unpicks the dark side of fashion. *Fashion Victims* is lavishly illustrated with over 100 images and is a remarkable resource for everyone from scholars and students to fashion enthusiasts.

"Accompanying an exhibition in honor of Philippe de Montebello, Director Emeritus of The Metropolitan

Museum of Art, this engaging book examines the influence of music and theater on the art of Jean-Antoine Watteau (1684-1721). Fifteen major paintings and a number of drawings by Watteau that illustrate the connections between painting and the performing arts in Paris are explored. In addition, drawings and prints by other 18th-century artists featuring musical or theatrical subjects and objects and musical instruments are included."--Publisher description.

The Art of the Shoe

Kate'Art Éditions

A huddle of wooden sheds in a courtyard off the Boulevard Montmartre known as Cormon's atelier was where the handsome art student from

Sydney, John Peter Russell, first met the haunted, intense newcomer from Holland, Vincent van Gogh. Both were foreigners in the competitive art world of Paris in the 1880s, and over the next two years both would discover a passion for colour painting. Now, for the first time, Ann Galbally traces the passage of this extraordinary and unlikely friendship. The two spent hours together in a Paris studio experimenting with the fast-moving changes in art practice. Both artists ultimately rejected the Impressionist's world of urban sophistication and left Paris to develop colour painting in isolation, Van Gogh at Arles in Provence, and Russell on Belle Ile

off the coast of Brittany. With a supporting cast including Gauguin, Rodin, Monet and Matisse this is a journey through the struggles and failures, plots and intrigues of artistic life. A tale of love found and lost and ultimate tragedy, it makes for enthralling reading.

and cemetery Deir el-Bachit stands on the hilltop of Dra' Abu el-Naga, the well-known necropolis in Qurna (West Bank, Luxor). It is the largest Coptic monastery complex preserved in Western Thebes and the first monastery that has been systematically investigated. The excavation of the monastery was started as a DFG-Project des Ägyptologischen Instituts der Ludwig-Maximilians-Universität Muenchen in close collaboration with the Deutsches Archäologisches Institut Abteilung Kairo. Until the start of the investigations in 2001 with a survey, little research was done. After three seasons of preliminary research, full archaeological research was started in

2004. The leatherwork was studied in 2007, the present volume of which presents the results. The book consists of two parts: the analysis and a detailed catalogue, including colour images of all finds and, where necessary, line drawings. The finds are analysed within the framework of the excavation as well as within the frameworks of the Ancient Egyptian Leatherwork Project and the Ancient Egyptian Footwear Project (www.leatherandshoes.nl).

This beautifully illustrated catalogue highlights 101 works of art from the Fred Jones Jr. Museum of Art at the University of Oklahoma. Combining

full-color reproductions with explanatory text, the catalogue presents significant examples of Asian, European, American, American Indian, and contemporary art from the museum's permanent collection. For visitors to the museum and art aficionados, these pages offer a tour of the museum's exceptional paintings, sculptures, works on paper, and photographs. Arranged in chronological and thematic sequence, the catalogue entries focus on single works, each by a different artist. Authors Eric McCauley Lee and Rima Canaan discuss the artists' backgrounds and analyze the featured works. Where appropriate, related objects in the

collection appear as accompanying illustrations. The celebrated artists represented in the catalogue include Claude Monet, Pierre-Auguste Renoir, Vincent van Gogh, Pablo Picasso, Edward Hopper, Georgia O'Keeffe, Allan Houser, and members of the Taos Society of Artists. Published to coincide with the opening of the museum's new wing, designed by renowned architect Hugh Newell Jacobsen and named in honor of Mary and Howard Lester, this catalogue celebrates the extraordinary development of the museum's collections over nearly three-quarters of a century. *Suzy's City Promenades* Princeton University Press

Abandoning a French look on the subject, Mrs. Bossan, the author, develops her study with a dichotomous vision: that of time that touches the history of mankind and that of geography and sociology, which lead to an almost ethnographic analysis. The author dissects the shoe and all that surrounds it: from its history to painting and literature. After this book, it will be difficult to publish a book with a more complete treatment of the subject. Illustrated with an iconography that is exceptional both for its

aestheticism and the pieces chosen, this book is a reference for historians, sociologists and for the fashion victims and designers...

Soldiershop Publishing Marie-Antoinette (1755–1793) continues to fascinate historians, writers, and filmmakers more than two centuries after her death. She became a symbol of the excesses of France's aristocracy in the eighteenth century that helped pave the way to dissolution of the country's monarchy. The great material privileges she enjoyed and her glamorous role as an arbiter of fashion

and a patron of the arts in the French court, set against her tragic death on the scaffold, still spark the popular imagination. In this gorgeously illustrated volume, the authors find a fresh and nuanced approach to Marie-Antoinette's much-told story through the objects and locations that made up the fabric of her world. They trace the major events of her life, from her upbringing in Vienna as the archduchess of Austria, to her ascension to the French throne, to her execution at the hands of the revolutionary tribunal. The exquisite objects that populated Marie-Antoinette's rarefied surroundings—beautiful gowns, gilt-mounted furniture, chinoiserie

porcelains, and opulent tableware—are depicted. But so too are possessions representing her personal pursuits and private world, including her sewing kit, her harp, her children’s toys, and even the simple cotton chemise she wore as a condemned prisoner. The narrative is sprinkled with excerpts from her correspondence, which offer a glimpse into her personality and daily life. Visually rich and engaging, Marie-Antoinette offers a fascinating look at the multifaceted life of France’s last, ill-fated queen.

The Deconstructive Owl of Minerva: An Examination of

Schizophrenia through Philosophy, Psychoanalysis and Postmodernism takes as its project the articulation of the language of schizophrenia as it inscribes itself between the self and ‘other.’ It takes into account Georg W. F. Hegel’s account of self-consciousness as a master-slave relation. A reading of Jacques Lacan provides access to the narrative self in terms of the “mirror stage” as the recognition of the self as ‘other’. By a further reading of postmodern theorists, this book shows that what has been named schizophrenia calls for a deconstructive strategy that operates with the divergence between pharmacological

treatment and the understanding of the language of the schizophrenic condition. This difference will emphasize language as plural, plurivalent, polyphonic and polylogical. This book, essentially, seeks to circumvent the label of “schizophrenia” and to provide alternative ways to understand schizophrenic language in order to culturally rearticulate its effects in society. Postmodern and deconstructive modes of access to the languages of desire, dispersal, and plurivalence that are associated with schizophrenic conditions can help to open up spaces of understanding that are rendered impossible through symptomatic treatment models.

In her meticulous and wide-ranging study, Nora M. Heimann follows the metamorphosis of Joan of Arc's posthumous representation during the years in which her image ascended from relative obscurity as a minor provincial figure in the middle ages through her treatment as a figure of political satire in the eighteenth century to her ultimate emergence as an image of piety and sanctity in the mid-nineteenth century. Offering the first scholarly art historical and cultural analysis of the origins of the modern Joan of Arc cult, she takes on the challenge of charting, as no previous critic has, why and how the Maid of Orléans has been

all things to such a diverse public through the ages, particularly during the rapid shifts in political regimes that came in the wake of the French Revolution. Joan of Arc's image has shown a protean capacity to embody a vast and often contradictory range of qualities, from martial ascendancy to vulnerable piety, from maidenly purity to transgressive androgyny, from the power of the people to the divine right of kings. Heimann makes a persuasive case for this enduringly resonant woman as the only figure in French culture to be warmly embraced simultaneously by republicans, monarchists, feminists, and neo-fascists alike. In its recounting of the

iconographic fortunes of this remarkable woman during her transformation from an image of satire to one of sanctity, *Joan of Arc in French Art and Culture (1700-1855)* offers an illustrated, interdisciplinary depiction of the relationship between art and politics that will appeal not only to art historians but also to those working in literature, women's studies, cultural studies, intellectual history, and religious history.

This revelatory study of Georges Seurat (1859-1891) explores the artist's profound interest in theories of visual perception and analyzes how they influenced his

celebrated seascape, urban, and suburban scenes. While Seurat is known for his innovative use of color theory to develop his pointillist technique, this book is the first to underscore the centrality of diverse ideas about vision to his seascapes, figural paintings, and drawings. Michelle Foa highlights the importance of the scientist Hermann von Helmholtz, whose work on the physiology of vision directly shaped the artist's approach.

Foa contends that Seurat's body of work constitutes a far-reaching investigation into various modes of visual engagement with the world and into the different states of mind that visual experiences can produce. Foa's analysis also brings to light Seurat's sustained exploration of long-standing and new forms of illusionism in art. Beautifully illustrated with more than 140 paintings and drawings, this book serves as an essential reference on Seurat.
