Group Skills for Alcoholism Counselors John Wiley & Sons
Develop Winning Managers—the Heart of the Team Frontline managers are an organization’s first level of management: the “people managers” across its business operations and functions. Developing frontline managers is key to an organization’s overall health and prosperity. The latest book in ATD’s successful Workshop Series, Management Development Training offers trainers of all expertise levels the tools and strategies necessary for delivering powerful professional development training for frontline managers. Through Management Development Training, training facilitators can apply ATD’s research-based ACCEL Model—a management framework that includes five core skills necessary for managerial success (accountability, collaboration, communication, engagement, and listening and assessing)—to take new and experienced managers beyond their roles as the centers of their teams to the powerful roles as the hearts of their teams. This workshop volume demonstrates how the development of these skills can help managers positively impact every member of their team. With expert management trainer Erica Nelson as your guide, choose between uniquely designed two-day and three-day workshops. Everything you need for workshop design and delivery is included: agendas, assessments, handouts, tools, learning activities, and PowerPoint slides. Chapters also cover customizing your own workshop, conducting needs analysis, facilitating, design and delivery, and evaluating your workshop results.

Everything Today’s CPA Candidates Need to Pass the CPA Exam Published annually, this comprehensive four-volume paperback reviews all four parts of the CPA exam. Many of the questions are taken directly from previous CPA exams. With 3,800 multiple-choice questions, these study guides provide all the information candidates need to master in order to pass the computerized Uniform CPA Examination. Complete sample exam in business environment and concepts The most effective system available to

prepare for the CPA exam—proven for over thirty years Timely-up-to-the-minute coverage for the computerized exam. Contains all current AICPA content requirements in auditing and attestation Unique modular format—helps you zero in on areas that need work, organize your study program, and concentrate your efforts Comprehensive questions—over 3,800 multiple-choice questions and their solutions in the four volumes Covers the new simulation-style problems Guidelines, pointers, and tips—show you how to build knowledge in a logical and reinforcing way Wiley CPA Exam Review 2010 arms test-takers with detailed outlines, study guidelines, and skill-building problems to help candidates identify, focus on, and master the specific topics that need the most work.

Global Toolkit for Law Enforcement Agents John Wiley & Sons

Teacher education is an evolving field with multiple pathways towards teacher certification. Due to an increasing emphasis on the benefits of field-based learning, teachers can now take alternative certification pathways to become teachers. The Handbook of Research on Field-Based Teacher Education is a pivotal reference source that combines field-based components with traditional programs, creating clinical experiences and “on-the-job” learning opportunities to further enrich teacher education. While highlighting topics such as certification design, preparation programs, and residency models, this publication explores theories of teaching and learning through collaborative efforts in pre-Kindergarten through grade 12 settings. This book is ideally designed for teacher education practitioners and researchers invested in the policies and practices of educational design.

Experiencing ACT from the Inside Out UNESCO Publishing
Build your intercultural communication skills to ensure the best possible patient outcomes. Includes DVD with dramatizations of realistic health-care scenarios. Cultural Competency Skills for Health Professionals teaches techniques for meeting the challenges of working with culturally diverse patients and their families. The skills that health professionals and students acquire through using this workbook will improve their communication and problem-solving abilities when working across cultures. Cultural Competency Skills for Health Professionals approaches

intercultural issues in health care from the perspective of communication. It sharpens your ability to understand the messages and information being communicated by patients and their families. The workbook provides eight learning modules based on realistic health-care scenarios, along with exercises and self-assessment tools. The modules include high-quality video dramatizations and worksheets, and cover topics including: Traditional roles of family care. Cultural issues in obtaining consent. Cultural issues in compliance. Language diversity in health care. Generational views on personal directives. Cultural issues in end-of-life care. Challenging cultural norms. Cultural influence in family decision-making.

Teaching for Diversity and Social Justice Routledge

In North America obesity continues to be a problem, one that extends throughout life as children move into adolescence and adulthood and choose progressively less physical activity and less healthy diets. This public health issue needs to be addressed early in childhood, when kids are adopting the behaviors that they will carry through life. *Eat Well & Keep Moving*, Third Edition, will help children learn physically active and nutritionally healthy lifestyles that significantly reduce the risk of obesity, heart disease, high blood pressure, type 2 diabetes, and other diseases. **BENEFITS** This award-winning evidence-based program has been implemented in all 50 states and in more than 20 countries. The program began as a joint research project between the Harvard School of Public Health (currently the Harvard T.H. Chan School of Public Health) and Baltimore Public Schools. In extensive field tests among students and teachers using the program, children ate more fruits and vegetables, reduced their intake of saturated and total fat, watched less TV, and improved their knowledge of nutrition and physical activity. The program is also well liked by teachers and students. This new edition provides fourth- and fifth-grade teachers with the following: • Nutrition and activity guidelines updated according to the latest and best information available • 48 multidisciplinary lessons that supply students with the knowledge and skills they need when choosing healthy eating and activity behaviors • Lessons that address a range of learning outcomes and can be integrated across multiple subject areas, such as math, language arts, social studies, and visual arts • Two

new core messages on water consumption and sleep and screen time along with two new related lessons • A new Kid's Healthy Eating Plate, created by nutrition experts at the Harvard T.H. Chan School of Public Health, that offers children simple guidance in making healthy choices and enhances the USDA's MyPlate Eat Well & Keep Moving also offers a web resource that contains numerous reproducibles, many of which were included in the book or the CD-ROM in previous editions. A separate website, www.eatwellandkeepmoving.org, provides detailed information for food service managers interested in making healthful changes to their school menus; this information includes recipes, preparation tips, promotional materials, classroom tie-ins, and staff training. The web resource also details various approaches to getting parents and family members involved in Eat Well & Keep Moving. A Holistic Approach Eat Well & Keep Moving is popular because it teaches nutrition and physical activity while kids are moving. The program addresses both components of health simultaneously, reinforcing the link between the two. And it encompasses all aspects of a child's learning environment: classroom, gymnasium, cafeteria, hallways, out-of-school programs, home, and community centers. Further, the material is easily incorporated in various classroom subjects or in health education curricula. Eight Core Principles Central to its message are the eight core Principles of Healthy Living. Those principles—at least one of which is emphasized in each lesson—have been updated to reflect key targets as defined by the CDC-funded Childhood Obesity Research Demonstration partnership. These are the principles: • Make the switch from sugary drinks to water. • Choose colorful fruits and vegetables instead of junk food. • Choose whole-grain foods and limit foods with added sugar. • Choose foods with healthy fat, limit foods high in saturated fat, and avoid foods with trans fat. • Eat a nutritious breakfast every morning. • Be physically active every day for at least an hour per day. • Limit TV and other recreational screen time to two hours or less per day. • Get enough sleep to give the brain and body the rest it needs. Flexible, Inexpensive, Easy to Adopt The entire curriculum of Eat Well & Keep Moving reflects the latest research and incorporates recommendations from the latest Dietary Guidelines for Americans. It fits within school curricula, uses existing school resources, is inexpensive to implement, and is easy to adopt. The content is customizable to

school and student population profiles and can help schools meet new criteria for federally mandated wellness policies. Most important, armed with the knowledge they can gain from this program, elementary students can move toward and maintain healthy behaviors throughout their lives.

Project Management the Agile Way, Second Edition John Wiley & Sons

"This book shares theoretical and applied pedagogical models and systems used in math e-learning including the use of computer supported collaborative learning, which is common to most e-learning practices"--Provided by publisher.

Decision Making Training offers all the ready-to-use content needed to enable professional trainers, facilitators, and others to quickly create learning events that build confident decision makers. Beginning with an easily understandable decision making process, the book provides everything needed to build interactive half, full, and multi-day training programs. The book includes online access to dozens of customizable exercises, handouts, assessments, practice tools, and PowerPoint[trademark] slides. It features a structured facilitation framework that provides step-by-step facilitation instructions.

Routledge

"I wanted to say I bought just the four books by Wiley for each CPA section and took all 4 parts of the exam in May 2009. I studied for about half a year, and I PASSED ALL 4 PARTS ON THE FIRST TRY!!! 95% REG, 88% FAR, 82% AUD, 81% BEC. I am very excited and happy that these books alone helped me pass!"

The Quarterly Review of Distance Education is a rigorously refereed journal publishing articles, research briefs, reviews, and editorials dealing with the theories, research, and practices of distance education. The Quarterly Review publishes articles that utilize various methodologies that permit generalizable results which help guide the practice of the field of distance education in

the public and private sectors. The Quarterly Review publishes full-length manuscripts as well as research briefs, editorials, reviews of programs and scholarly works, and columns. The Quarterly Review defines distance education as institutionally-based formal education in which the learning group is separated and interactive technologies are used to unite the learning group.

Reading English with Awareness - Level A John Wiley & Sons Research shows that internships are the dominant form of experiential learning used in business schools worldwide, providing practical insight into a job role for students and enhancing their employability. This book provides practical resources that practitioners and students can use to maximize the overall internship experience by explaining business education, internships, skill development, and employment outcomes. It also includes material to assist in the development or enhancement of internship programs to create a high-quality internship course while providing guidance on reflecting and evaluating the learning gained from the experience. Including quizzes and short activities, this book can be used as a companion text for any student participating in an internship, or as a guide that practitioners in this field can use to help design their own internship program and course content. Business schools are increasing their focus on experiential learning and are encouraging faculty to incorporate internships into their existing curriculum. Linking theory, history, and practice, this book is ideal reading for students participating in an internship for academic credit and as a guidebook for business school practitioners who wish to start or improve their existing academic internship program.

NASA EP. Project Management the Agile Way, Second Edition This unique resource helps therapists build their skills in schema therapy (ST) by applying ST techniques to themselves and reflecting on the experience. Designed for use by individuals or groups, the book harnesses the power of self-practice/self-reflection (SP/SR), an evidence-based training strategy. Twenty modules take therapists step by step through using ST to address a professional or personal problem--from establishing safety and creating a self-conceptualization to implementing mode change work, including cognitive, experiential, and behavioral pattern-breaking interventions. In a convenient large-size format, the book is illustrated with vivid therapist examples and features numerous reproducible worksheets and forms for doing the SP/SR

exercises. Purchasers get access to a Web page where they can download and print the reproducible materials.

Forensic Accounting and Fraud Examination Springer Nature Forensic Accounting and Fraud Examination introduces students and professionals to the world of fraud detection and deterrence, providing a solid foundation in core concepts and methods for both public and private sector environments. Aligned with the National Institute of Justice (NIJ) model curriculum, this text provides comprehensive and up-to-date coverage of asset misappropriation, corruption, fraud, and other topics a practicing forensic accountant encounters on a daily basis. A focus on real-world practicality employs current examples and engaging case studies to reinforce comprehension, while in-depth discussions clarify technical concepts in an easily relatable style. End of chapter material and integrated IDEA and Tableau software cases introduces students to the powerful, user-friendly tools accounting professionals use to maximize auditing and analytic capabilities, detect fraud, and comply with documentation requirements, and coverage of current methods and best practices provides immediate relevancy to real-world scenarios. Amidst increased demand for forensic accounting skills, even for entry-level accountants, this text equips students with the knowledge and skills they need to successfully engage in the field.

Catalog of Nonresident Training Courses John Wiley & Sons The Manual provides step-by-step guidance to assist instructors in training policymakers and practitioners in the use of economic instruments - pollution taxes, user fees, property rights, etc. - for sustainable development in general and for environmental and natural resource management in particular. Designed as an interactive working document composed of flexible modules and exercises and providing guidance for trainers and course participants, the manual offers substantial flexibility for trainers to custom design courses that meet local needs and priorities.

English Language Arts, Grade 11 Module 1 IGI Global The #1 CPA exam review self-study leader The CPA exam review self-study program more CPA candidates turn to take the test and pass it, Wiley CPA Exam Review 39th Edition contains more than 4,200 multiple-choice questions and includes complete information on the Task Based Simulations. Paths to College and Career Jossey-Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts (ELA) curriculum and professional development resources for grades 6–12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6–12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes: Nationally recognized professional development from an organization that has been

immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

This is an open access book. As the biggest university in Jambi province, Indonesia, Universitas Jambi has played an essential role as a key-player in both human and natural resources development in Jambi province. We have successfully developed cooperation in all sectors of development in Jambi province, Indonesia. We have contributed to a variety of activities such as research, community services, consultancies, and training services and provided some experts to speed up the development of Jambi Province and Indonesia in general. Today, Jambi University consistently seeks innovative methods to participate more actively in an inter-discipline study for sharing research on green development in all areas of knowledge, science, and expertise. In doing so, the Research and Community Service Institute (LPPM) of Universitas Jambi hosted the fourth Green Development International Conference in 2022, carried out once every two years. This Conference aims to provide insightful information concerning the development of a number of

innovations in science and technology that are environmentally friendly, covering the fields of technology, environment, agriculture, energy, health, Law, education, and humanities.

Promoting Local Economic Development through Strategic Planning: Vol 5 Trainer's Guide Routledge

"This book invites therapists to enhance their effectiveness "from the inside out" using self-practice/self-reflection. It leads therapists through a structured three-stage process of focusing on a personal or professional issue they want to change, practicing therapeutic techniques on themselves (self-practice), and reflecting on the experience (self-reflection). Research supports the unique benefits of SP/SR for providing insights and skills not readily available through more conventional training procedures. The approach is suitable for therapists at all levels of experience, from trainees to experienced supervisors"--
