This book examines the traditional grammar, very briefly for its Greek and Latin origins, and fully during its first two hundred years as 'English' grammar.

The Time of the Goats Walter de Gruyter

BAUDOLINO gravita em torno dos prazeres da corte de Federico Hohenstaufen, conhecido como Barbarossa, à época da Terceira Cruzada. A história engloba justamente o período entre 1152 e 1204, começando com a ascensão de Barbarossa ao trono e terminando com a conquista de Constantinopla pela temida ordem dos cavaleiros templários. A trama é protagonizada por Baudolino - adolescente, criativo e mentiroso que dá título à obra - e Niceta Coniate, personagem inspirado em um historiador e orador que viveu na corte de Constantinopla. A narrativa retrocede, enquanto Baudolino conta a Niceta suas aventuras e desventuras, numa mistura de fantasia e realidade, História e faz-de-conta. Tudo isso temperado por inúmeras situações cômicas. No intervalo, Eco embaralha os seus personagens inventados e produz o mais recorrente efeito de seu texto: interferir em acontecimentos históricos conhecidos por meio de atos ou circunstâncias vividas pelos personagens fictícios.

The General of the Dead Army Walter de Gruyter GmbH & Co KG

The General of the Dead Army is a moving and timely meditation on war and its consequences by the winner of the inaugural Man Booker International Prize, available again in paperback. Twenty years after World War II, an Italian general—armed with maps, measurements, and dental

records—is sent to Albania to recover the remains of his country’s fallen soldiers. A quarrelsome priest joins him, and in rain and sleet they dig up the Albanian countryside—once a battlefield, now a graveyard—checking teeth and dog tags, assembling a dead army in pine-box uniforms. In addition to the brutal weather, they also battle the hostility of the Albanians working for them. This may be an errand of mercy for the general, but the chance to humiliate their one-time conquerors offers the Albanians a welcome vengeance. Fighting the hopelessness of his undertaking, the general finds his movements shadowed by a German general on the same gruesome mission for his own country. In a terrible crescendo at a wedding, the Italian general must answer for the crimes of his country and all countries that have invaded this land of eagles, seeking to destroy its people. Enthralling and poignant, *The General of the Dead Army* is an elegy for the young people of every country who are sent abroad to die in battle.

The tender plant of Albanian literature grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European cultural history in general.

Fathers and Forefathers BRILL

This book is the first comprehensive survey of mood in the languages of Europe. It gives readers access to a collection of data on mood. Each article presents the mood system of a specific European language in a way that readers not familiar with this language are able to understand and to interpret the data. The articles contain information on the morphology and semantics of the mood system, the possible combinations of tense and mood morphology, and the possible uses of the non-indicative mood(s). The papers address the explanation of mood from an empirical and descriptive perspective. This book is of interest to scholars of mood and modality, language contact, and areal linguistics and typology.

The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.

Masterful in its simplicity, *Chronicle in Stone* is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy’s eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy’s story are tantalizing fragments of the city’s history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

The fundamental contrast between convergent and divergent tendencies in the development of Balkan cultural identity can be seen as an important determinative both in the contradictory self-images of people in the Balkans and in the often biased perceptions of Balkan societies held by external observers, past and present. In bringing together case studies from such heterogeneous lines of research as linguistics, anthropology, political, literary and cultural history, each presenting insightful analyses of micro- as well as macro-level aspects of identity construction in the Balkans, this collection of essays provides a forum for the elucidation and critical evaluation of an intriguing paradox which continues to characterize the cultural situation in the Balkans and which, moreover, is of undeniable relevance for our understanding of recent political developments. As such, it also provides a window into the actual state of scholarly interest in the rich interdisciplinary field of Balkan studies. This book contains a selection of papers presented at the international conference «Developing Cultural Identity in the Balkans: Convergence vs. Divergence», organized by the Center for Southeast European Studies at Ghent University on 12 and 13 December 2003 in Ghent.

Young’s Literal Translation of the Bible is, as the name implies, a strictly literal translation of the Hebrew and Greek texts (from the *Textus Receptus* and *Majority Text*). Compiled by Robert Young in 1862, he went on to produce a revised version in 1887 based on the Westcott-Hort text which had been completed in 1885. Young died on October 14, 1888, and the publisher released a New Revised Edition in 1898. Young used the present tense in many places where other translations used the past tense- particularly in narratives. The Preface to the Second Edition states: “If a translation gives a present tense when the original gives a past, or a past when it has a present; a perfect for a future, or a future for a perfect; an a for a the, or a the for an a; an imperative for a subjunctive, or a subjunctive for an imperative; a verb for a noun, or a noun for a verb, it is clear that verbal inspiration is as much overlooked as if it had no existence. THE WORD OF GOD IS MADE VOID BY THE TRADITIONS OF MEN. [Emphasis in original.]” For example, the YLT version of Genesis begins as follows: 1. In the beginning of God’s preparing the heavens and the earth--- 2. The earth hath existed waste and void, and darkness on the face of the deep, and the Spirit of God fluttering on the face of the waters, 3. And God saith, ‘Let light be;’ and light is. 4. And God seeth the light that it is good, and God separateth between the light and the darkness, 5. And God alled to the light ‘Day,’ and to the darkness He hath called ‘Night;’ and there is an evening, and there is a morning---day one. Young’s Literal Translation in the 1898 Edition also consistently renders the Hebrew Tetragrammaton (the four Hebrew letters usually transliterated YHWH or JHVH that form a biblical proper name of God) throughout the Old Covenant/Testament as "Jehovah", instead of the traditional practice of "LORD" in small capitals, which was used in editions prior to 1898. Young’s usage of English present tense rather than past tense has been supported by scholars ranging from the medieval Jewish rabbi Rashi (who advised, "If you are going to interpret [this passage] in its plain sense, interpret it thus: At the beginning of the creation of heaven and earth, when the earth was (or the earth being) unformed and void . . . God said, ‘Let there be light.’") to Richard Elliott Friedman in his translation of the Five Books in "The Bible with Sources Revealed" (2002). There is a linked Table of Contents for each book and chapter.
