Her New York Times bestseller *LaBelle Cuisine: Recipes to Sing About*, which sold more than 300,000 copies, established

her as a cooking star. Today, Patti's baking skills have the country buzzing. In Fall 2015, a fan's YouTube review of her sweet potato pie became a viral sensation, with over 20 million views. In just one weekend, her pies were completely sold out at Wal-Mart stores across the country. Now, for the first time, fans of Patti's pie can make their own, as well as other amazing sweets! Filled

with her favorite recipes for pies, cakes, cookies, and puddings, as well as a chapter on diabetic-friendly recipes, moving personal stories from her career and life, this is the most personal cookbook LaBelle has written. Every fan of soul and sweets will want to own it.

The Western World

Cambridge University Press
James Lovelock described his

previous book, *The Revenge of Gaia*, as 'a wake-up call for humanity'. Stark though it was in many respects, in *The Vanishing Face of Gaia* Lovelock says that even though the weather seems cooler and pollution lessens as the recession bites, the environmental problems we will face in the twenty-first century are even more terrifying than he previously realised. The Arctic and Antarctic ice-caps are melting very

quickly, and water shortages and natural disasters are more common occurrences than at any time in recent history. The civilisations of many countries will be jeopardised and life as we know it severely disrupted. Almost all predictions of the likely rate of climate change have been based on estimates which professional observers in the real world now show are consistently

underestimating the true rate of change. As a global community we continue to be fixated by conventional 'green' ideas which we believe will help save our world. Lovelock argues that only Gaia theory, which he originated over forty years ago, can really help us understand the crisis fully. The root problem is that there are too many people and animals for the Earth to carry. And

there is in fact only one possible procedure which might bring a permanent cure for climate change, but we are unlikely to adopt it. 'Our wish to continue business as usual will probably prevent us from saving ourselves' says Lovelock, so we must adapt as best we can and try to ensure that enough of us survive to allow a more capable species to evolve from

us. There could hardly be a more important message for humankind. James Lovelock has been an active and accurate observer of the Earth environment since the 1960s and was the first to find CFCs and other gases accumulating in the air. His Gaia theory provides insight into climate change in the coming century. This is his final warning. Beard on Pasta Letts &

It is not a peaceful time in the Algardis Empire. War is raging between the mages and seventeen-year-old Sara Fairchild will be right in the middle of it. She just doesn't know it yet. Sara is the daughter of a disgraced imperial commander, executed for desertion. Sara is also the best duelist and hand-to-hand combatant in Sandrin. She lives quietly with her family's shame but

when challenged about her family's honor, her opponent inevitably loses. On the night she finds out her father's true last actions, she takes the Mercenary Guilds' vows to serve in the emperor's army. Using her quick wits and fierce fighting skills, she earns a spot in the first division. There she discovers secrets the mages on both sides would prefer stay hidden. Dark enemies

hunt her and soon it's not just Sara questioning the motivation behind this war. While fighting mages, blackmailing merchants and discovering new friends, Sara comes across something she's never had before - passion. The question is - can she fight for her empress against a mage who might unwittingly claim her heart? This is year one of the Initiate

Wars. Sara is hoping it doesn't become the year she dies. Shining will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its

creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded

near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the "Triangle Terror" ... and then forgot about her. But I never forgot—my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a cold

February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington—deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon's preteen sister, Alexis, is murdered in their home, plunging Landon's life into further despair. Two

decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father-of-the-year about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister's murder? And so begins Landon's journey to piece together

the puzzle of secrets, lies, and truths that can free his father, avenge his sister, and perhaps save himself. B. Du Bois was a public intellectual,

sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the

post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. One of the most neglected and obscure books by W. E. B. Du Bois, *In Battle for Peace* frankly documents Du Bois's experiences following his attempts to mobilize Americans against the emerging conflict

between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial-he was later acquitted-and faced political persecution for over a decade. Part autobiography and part political statement, *In Battle for Peace* remains today a powerful analysis of race in America. With a series introduction by editor Henry Louis Gates, Jr., and

an introduction by Manning Marable, this edition is essential for anyone interested in African American history.

The University and the State New York Review of Books Follow two abolitionists who fought

one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into

slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by

slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day

<p>"underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young</p>	<p>siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The</p>	<p>"Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.</p>
