When in 1980 I wrote the foreword to *The Art of Royal Icing* I wished my friend Audrey Holding every success for her book; I was convinced that its appearance would fill a real gap in the literature then available by providing a comprehensive but simple and practicable guide to the techniques used in royal icing. Now, six years later, with *The Art of Royal Icing* sold widely throughout the world. I know that Audrey's second book on this subject is assured of success. In it she has developed many of the ideas presented in her first book, and she takes the cake-decorator through the stages of intricate techniques which would normally be regarded as beyond the competence of the amateur. With Audrey's guidance (and lots of patient practice!) we can all become experts. JUNE ELWOOD M. Inst. B. B. , M. e. FA(e. G) Cake Artistry Studio. Swinton, Manchester, UK v Preface My first book. *The Art of Royal Icing* * set out to explain the craft to those who had no previous knowledge of the subject. In this book, I hope to go one stage further and expand the ideas and techniques formulated in *The Art of Royal Icing*, especially in relation to runout figure piping. In order to avoid repetition, some basics have been omitted, enabling other areas to be dealt with in greater detail.

Nationalism and Youth in Theatre and Performance explores how children and young people fit into national political theatre and, moreover, how youth enact interrogative, patriotic, and/or antagonistic performances as they develop their own relationship with nationhood. Children are often seen as excluded from public discourse or political action. However, this idea of exclusion is false both because adults place children at the center of political debates (with the rhetoric of future generations) and because children actively insert themselves into public discourse. Whether performing a national anthem for visiting heads of state, creating a school play about a country's birth, or marching in protest of a change in public policy, young people use theatre and performance as a means of publicly staking a claim in national politics, directly engaging with ideas of nationalism around the world. This collection explores the issues of how children fit into national discourse on international stages. The authors focus on national performances by/for/with youth and examine a wide range of performances from across the globe, from parades and protests to devised and traditional theatre. *Nationalism and Youth in Theatre and Performance* rethinks how national performance is defined and offers previously unexplored historical and theoretical discussions of political youth performance.

Rosemary Run Series Books 1-5: A gripping series of domestic suspense where trouble's brewing below the picture-perfect surface HarperCollins

'An incredible story, and so well told' Bear Grylls 'Honesty, integrity and real experience that puts you in the thick of the action.' Billy Billingham There were three patrols that fateful January 1991 morning: Bravo One Zero, Bravo Two Zero and Bravo Three Zero. It was the opening hours of the Gulf War and the SAS were flown deep behind enemy lines to hunt down Saddam's Scud missiles, the use of which threatened a Third World War. The men of Bravo One Zero stepped off the chopper, took one look at the flat desert devoid of any cover and decided no way were they deploying into all of that. But Andy McNab's famed Bravo Two Zero patrol did deploy, with fatal results - all but one

being captured or killed. And then there was Bravo Three Zero. These men were different. Thought differently. Acted differently. Treating as gospel the SAS's saying 'any fool can be uncomfortable', they deployed with vehicles, and while there was nowhere to hide they could make a dash for the border if desperate. Even as warnings came in that McNab's patrol was on the run, Bravo Three Zero remained undetected - the furthest Coalition forces behind Iraqi lines. Slipping through enemy positions, a string of targets were taken out. But with the desert turning bitter and snow starting to fall, they were forced to fight a running battle against the elements as much as the enemy. Though overshadowed by the fate of Bravo Two Zero, the achievements of this highly-decorated patrol are the stuff of elite forces legend. Now, for the first time, SAS veteran Des Powell reveals their story in gritty, blow-by-blow detail. Written with acclaimed military author Damien Lewis, this is a tale of edge-of-the-seat daring deep inside enemy lands. Brutal, savage, unrelenting - prepare to be blown away, in a tale that proves utterly the SAS motto - who dares wins.

Recent scholarship, particularly that of Nicholas Higham, proposes that the seventh-century conversion of the Anglo-Saxon kingdoms to Christianity occurred because Christianity offered methods for accessing and using power that Anglo-Saxon kings had previously lacked. A nuanced evaluation that looks at more than just political necessity is needed to account for those kingdoms that resisted conversion. Examining the conversion of the kingdom of Mercia from the perspective of its origin and development shows that what concerned Mercia's rulers - especially Penda, Mercia's last pagan king - was not the "overlordship" or sacral kingship identified by Higham and others as the Anglo-Saxon kings' primary concerns. Instead, Penda's resistance to Christianity arose from Mercia's identity as a "border" kingdom and its status among the other kingdoms of England. Penda may have resisted conversion in order to maintain and defend that Mercian identity.

Malaysian Murders and Mysteries brings together 42 of the nation's most well-known and notorious cases - and investigates over a century of crimes and murders that have gripped the attention of the entire nation and beyond. The cases go as far back as 1875, beginning with colonial-era intrigues that remain unresolved to this day, to the swift and sudden demise of a North Korean man at KLIA in 2017 and a mysterious epidemic that killed 15 villagers in a remote Kelantan outpost in 2019. Based on the authors' meticulous research and consultations with several of Malaysia's most eminent historians and criminal lawyers, crime reporters and police officers, this compilation breathes new life into some of the cases and sheds new light on the notorious events.

'Brian McGilloway's command of plot and assurance of language make it difficult to believe that *Borderlands* is his debut' *The Times* 'A mystery of labyrinthine complexity' *Sunday Telegraph* 'Dazzling' *The Guardian* The corpse of local teenager Angela Cashell is found on the Tyrone- Donegal border, between the North and South of Ireland, in an area known as the borderlands. Garda Inspector Benedict Devlin heads the investigation: the only clues are a gold ring placed on the girl's finger and an old photograph, left where she died. Then another teenager is murdered, and things become further complicated when Devlin unearths a link between the recent killings and the disappearance of a prostitute twenty-five years earlier - a case in which he believes

one of his own colleagues is implicated. As a thickening snow storm blurs the border between North and South, Devlin finds the distinction between right and wrong, vengeance and justice, and even police-officer and criminal becoming equally unclear. _____ A dazzling and lyrical debut crime novel, *Borderlands* marks the beginning of a compelling new series featuring Inspector Benedict Devlin. Advanced AutoCAD® 2009 Exercise Workbook Kensington Books

This volume contains contributions from twenty-four scholars concerning the significance and implications of the world's borderlands in economic, political, and socio-cultural contexts. Together these essays explore the changing role of borders in a global world. Are borders increasingly irrelevant under conditions of globalization, or can a case be made to demonstrate their continuing importance at various levels of spatial activity? Situating itself within a growing border literature, *Holding the Line* argues that contemporary borders facilitate parallel processes of globalization and localization of political activity. As such, the essays adopt a holistic approach to understanding the impact of boundaries on both society and space. They demonstrate that any attempt to create a methodological and conceptual framework for the understanding of boundaries must be concerned with the process of bounding, rather than simply the means through which the physical lines of separation are delimited and demarcated. This approach renders the notion of a "borderless world" highly problematic, because the latter ignores the important and ongoing relationship between the functional role of borders in the bounding process, and the symbolic role of borders as imagined social, political, and economic constructions embedded within a geographical text. The changing characteristics of political boundaries during an era of globalization has become a great focus of interdisciplinary study, and this book will appeal to scholars of political geography, border studies, and international relations.

The story of two refugee families and their hope and resilience as they fight to survive and belong in America The welcoming and acceptance of immigrants and refugees has been central to America's identity for centuries--yet America has periodically turned its back at the times of greatest humanitarian need. After the Last Border is an intimate look at the lives of two women as they struggle for the twenty-first century American dream, having won the "golden ticket" to settle as refugees in Austin, Texas. Mu Naw, a Christian from Myanmar struggling to put down roots with her family, was accepted after decades in a refugee camp at a time when America was at its most open to displaced families; and Hasna, a Muslim from Syria, agrees to relocate as a last resort for the safety of her family--only to be cruelly separated from her children by a sudden ban on refugees from Muslim countries. Writer and activist Jessica Goudeau tracks the human impacts of America's ever-shifting refugee policy as both women narrowly escape from their home countries and begin the arduous but lifesaving process of resettling in Austin, Texas--a city that would show them the best and worst of what America has to offer. After the Last Border situates a dramatic, character-driven story within a larger history--the evolution of modern refugee resettlement in the United States, beginning with World War II and ending with current closed-door policies--revealing not just how America's changing attitudes toward refugees has influenced policies and laws, but also the profound effect on human lives.

The book deals with European law aspects of two European Court of Justice cases concerning cross-border tax relief claims and the decisions which have been criticized for lack of clarity and for breach of the freedom of establishment (Article 49 TFEU). The papers collected in the book cover the following issues: the underlying tax obstacles which exist for companies operating in more than one Member State; potential for tax avoidance; prevention of double use of losses (the 'no possibilities' test); disadvantages that arise as a consequence of the parallel exercise of fiscal sovereignty; the concept of 'balanced allocation of taxing powers'; meaning of 'final losses'; the 'Bosal fix'; cash-flow disadvantages of having to carry losses forward; deduction of currency losses; deduction-and-recapture rules; and VAT grouping.

reimagining Whether negotiating the mind-games of the Israeli intelligence services or performing ablutions in a London bathroom, Mohammad Chowdhury's life as a British Muslim travelling the world brings daily challenges. *Border Crossings* is the story of Chowdhury's journey, gripping in some parts and shame-inducing in others, as he describes a lifelong struggle to reconcile the British, Asian and Muslim sides of his identity, constantly dealing with the mistrust of Westerners alongside the hypocrisies of his own community and their misunderstanding of Islam. Chowdhury's story echoes the experience of thousands of Western Muslims who since 9/11 have been subjected to a constant barrage of questions that cast doubt over the very goodness of their faith. It is the story of a man who cries when England win the Ashes, yet still finds himself screaming in the face of racism and religious bigotry. This timely book powerfully rejects the poisonous narrative that Muslims can no longer be trusted as honest citizens of the West.
