Calendar Girl Anthology Hachette UK
 In this companion to his previous book, *The Bible in Early English Literature*, David Fowler completes his stimulating and broad-ranging study of medieval English literature in the light of biblical tradition. As in the first volume, he both provides a broad general view of literary trends and closely examines representative works that illustrate these trends. The author begins by discussing medieval drama in England--with special attention to the Cornish drama-- as revealed in the cycle plays that enacted the entire history of the world from Creation to Doomsday. He demonstrates how the drama grew out of the liturgy of the Church and developed into a parallel fashion with other kinds of

vernacular literature in the later Middle Ages, and he offers a possible explanation of the origin of the morality play in England. This is followed by an examination of representative shorter medieval lyrics. Fowler shows that many of these lyrics were composed to memorialize particular "secular" and "religious" elements blended subtly and distinctively in Middle English lyrics, often with a complete harmony of sacred and sexual significance. A special section deals with Mary Magdalene in popular tradition, comparing her description in the Bible with her treatment in legend, drama, lyric poetry, and the ballad. The final three chapters focus on particular literary works which the author believes to be outstanding examples of poems composed in the biblical tradition. "The Parliament of Fowls" is selected as the best example of biblical influence in all of Chaucer. The

work is seen as a Creation poem with its organizing principles derives from commentaries on the first chapter of Genesis--a new theory of the poem's structure which the author feels resolves many of the difficulties previously encountered by scholars. Fowler than treats several works of the "Pearl" poet--"Cleanness," "Patience," "Saint Erkenwald," and the "Pearl"--in their particular blend of humor, seriousness, and Christian serenity. In stark contrast, "Piers the Plowman," the final work dealt with, reflects the agony of the turmoil of late fourteenth-century England. The emphasis is on the historical significance of the poem: the importance of the A text as an ideological influence on the leadership of the Peasants' Revolt in 1381, and the exchatological implications of the later versions (B and C texts). "It is my hope," the author states, "that future

studies of 'Piers' will increasingly take history into account and likewise study the versions of the poem separately. Until we learn to walk from this text out into history, we run the risk of missing the important message that this profound and troubling poem offers to twentieth-century man." This book will be of value both to scholars and students of medieval literature and religion and to general readers interested in the varied and intriguing ways that the Bible has influenced vernacular literature.

Communist Gourmet presents a lively, detailed account of how the communist regime in Bulgaria determined people's everyday food experience between 1944 and 1989. It examines the daily routines of acquiring food, cooking it, and eating out at restaurants through the memories of Bulgarians and foreigners, during communism. In looking back on a wide array of issues and events, Albena Shkodrova attempts to explain the paradoxes of daily existence. She reports human stories that are touching, sometimes dark, but often full of humor and anecdotes from nearly one hundred people: some of them are Bulgarians who were involved in the communist food industry, whether as consumers or employees, while others are visitors from the United States and Western Europe who report culinary highlights and disappointments. The author made use of the national press, officially published cookbooks, Communist Party documents, and other previously unstudied sources. An appendix containing recipes of dishes typical of the period and an extensive set of archival photographs are special features of the volume.

"One book leads to another; one book grows out of another; one book flows out of others. Flowing is a fitting figure for a book about a river, creeks, wetlands and water. The present volume grew out of a brief discussion of two paintings of wetlands in mid-western Victoria by the nineteenth-century colonial landscape painter Eugene von Guérard. This discussion was part of a chapter on wetlands in Australian painting and photography (Giblett 2020a). It was included in John Ryan's and Li Chen's edited collection *Australian Wetland Cultures* (Ryan and Chen, eds 2020). I also contributed a chapter to this volume on Aboriginal wetland cultures, their sacral water beings and their refraction in Rainbow Serpent anthropology and Rainbow Spirit theology (Giblett 2020e). I take up and develop this discussion in the present volume in relation to particular Aboriginal peoples and places in mid-western Victoria, their practices of wetland cultures and their stories about and images of them, including the Rainbow

This book critically examines the term 'religion' (shūkyō) as a social category within the sociological context of contemporary Japan. Whereas the nineteenth-century construction of shūkyō has been critically studied by many, the same critical approach has not been extended to the contemporary context of the Japanese-language discourse on shūkyō and Temple Buddhism. This work aims to unveil the norms and imperatives which govern the utilization of the term shūkyō in the specific context of modern day Japan, with a particular focus upon Temple Buddhism. The author draws on a number of popular publications in Japanese, many of which have been written by Buddhist priests. In addition, the book offers rich interview material from conversations with Buddhist priests. Readers will gain insights into the critical deconstruction, the historicization, and the study of social classification system of 'religion', in terms of its cross-cultural application to the contemporary Japanese context. The book will be of interest to students and scholars across a range of disciplines including Japanese Studies, Buddhism, Religious Studies, Social Anthropology, and Sociology.
