*Annual Report of the  
South African Police  
Service* University of  
Kwazulu Natal Press  
Written specifically for  
middle-level South  
African Police (SAPS)  
managers, this guide  
explores: the creation  
of a learning  
environment within the  
SAPS; the development  
of general and  
resource management

skills and practices;  
and the promotion of  
community policing  
and its role in the  
SAPS.

The Regiment LAP  
Lambert Academic  
Publishing

This is a book about  
the men and women  
who police  
contemporary South  
Africa. Drawing on rich,  
original ethnographical  
data, it considers how  
officers make sense of  
their jobs and how they  
find meaning in their  
duties. It demonstrates  
that the dynamics that

lead to police abuses and scandals in transitional and neo-liberalising regimes such as South Africa can be traced to the day-to-day experiences and ambitions of the average police officer. It is about the stories they tell themselves about themselves and their social worlds, and how these shape the order they produce through their work. By focusing on police officers, this book positions the individual in primacy over the organisation, asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts. It acknowledges but downplays the importance of police culture in determining officers' attitudes and behaviour, and

reminds readers that most officers' lives are entangled in, and shaped by a range of social, political and cultural forces. It suggests that a job in the South African Police Service (SAPS) is primarily just that: a job. Most officers join the organisation after other dreams have slipped beyond reach, their presence in the Service being almost accidental. But once employed, they re-write their self-narratives and enact carefully choreographed performances to ease managerial and public pressure, and to rationalize their coercive practices. In an era where 'evidence' and 'what works' reigns supreme, and where 'cop culture' is often deemed a

primary socializing force, this book emphasises how officers' personal histories, ambitions, and vulnerabilities remain central to how policing unfolds on the street.

*Annual Report of the Commissioner of the South African Police*

Juta and Company Ltd

The structure, uniform, equipment, and training of the South African Police Service have changed since apartheid, says Marks (sociology, U. of KwaZulu-Natal); the force proclaims a community-oriented service ethic, hires more women and black personnel in high positions, and is rarely rather than often excessively violent during demonstrations and protests. Still, she asks how much the

police have changed, and whether it is really to change them, or indeed to change the police anywhere.

### **South African Police**

Penguin Random

House South Africa

The simple truth is that the police do not prevent crime, and some researchers even refer to this responsibility (of the police) as an impossible mandate.

### **List of addresses**

Routledge

This monograph examines the new sector policing policy for South Africa and reflects on the experience of sector policing in London.

*South African Police Force, Established Under Act No. 14 of 1912* Oxford University Press

While it is generally accepted that the history of Rhodesia began in 1890, the history of that country's police force began a year earlier, in 1889. From the beginning, the Force held to the customs and traditions of a light cavalry regiment, with military ranks and disciplines and, reflecting the military ethos, laying emphasis upon a smartness of turnout and drill. The unique character of the Force developed from this time. Not only did it have to establish the rule of law, it also had to defend the borders of the country, a responsibility it held until 1953. This

stunning volume, filled with the author's own vivid water color illustrations, traces the fascinating story of the British South Africa Police during its 90 year existence from 1890 to 1980.

*Strategic Perspectives on Crime and Policing in South Africa*

Routledge

Every South African has a strong opinion on crime and policing, but most know very little about the lives and experiences of the average cop in the 185 000-strong South African Police Service. This book is composed of excerpts from interviews with current and former members of the service who, for the first time, share their personal experiences of life behind the badge. The book covers a wide

range of themes, including reasons for signing up, training, policing under apartheid and transformation after 1994. It describes the experience of solving cases, using lethal force, being shot at and losing colleagues. Policemen and -women speak frankly about the psychological toll of police work and the impact on their family lives, and give startling insights into ethics, torture, corruption, sex and power. There is a mantra among police: 'What happens on the shift stays on the shift.' In *Behind the Badge*, members break through this wall of silence and reveal the hidden life of the police.

### **Police Integrity in South Africa**

The purpose of this

document is to communicate the approved operational structures of the South African Police Service (SAPS) at the provincial level.

### Report of the Commission of Enquiry Appointed to Enquire Into the Organisation of the South African Police Force Established Under Act, No. 14 of 1912

Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994, as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency—the South African Police

Service (SAPS)—that would provide unbiased policing to all the country’s people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic

circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers, probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents’ race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about

police integrity and enhancing it in their organizations.

*Police Management in South Africa*

This case study sought to critically compare the management system of South African Police Service (SAPS) and the Royal Danish Police.

*Strategic Plan for the South African Police Service, 2004 - 2007*

Strategic Management  
A systems approach:

Why are some organisations successful, while so many other businesses fail? Is it a question of luck?. They may have the right mix of products and/or services at the right time. But even if luck leads to success, it probably will not last. Most organisations that are highly successful over the long term

effectively acquire, develop, and manage resources and capabilities that provide competitive advantages. High achieving organisations have also learned how to develop and manage relationships with a wide range of organisations, groups, and people that have a stake in their organisation. This book explores how organisations such as the South African Police Service can grow and prosper through successful execution of the strategic management process.

**Report of the Commission Appointed by His Excellency the Governor-general to Enquire Into the Organisation of the South African Police**

### **Force Established Under Act No. 14 of 1912**

Often overlooked by journalists and scholars, the police forces of the African continents are a significant and little-studied phenomenon. This book seeks to redress that lacuna. The studies span the continent, from South Africa to Sierra Leone, keeping a strong ethnographic focus on police officers and their work.
