Paperweights for

Collectors Francis Joseph Pub
Lampworked and millefiori paperweights have become recognized as little works of art, because their intricate designs pose a challenge to even the most accomplished glassblowers. Successful pieces are beautiful and intriguing, displaying the best skills in the glass field. Included are company histories and detailed descriptions of nearly 500 paperweights produced over the last 150 years from around the world. The

authoritative text includes new information that will fascinate collectors, along with many rare and exceptional paperweights. Full pricing information and a detailed glossary are also included.

Identifying Antique

Paperweights Schiffer Book for Collectors
German Meissen porcelain figures made during the Kaendler Period are considered the best era in the Meissen factorys history. They are organized here by their subjects, depicting Street

Traders, Court Life, Military and Hunting scenes, Italian Comedy, Children, Mythology, Artisans, and various nationalities. Many figures are matched to the original engravings that inspired them. By recognizing the colors used when the originals were made, one can date the figures; manufacturer marks alone are not reliable. This book guides and delights today's designers and collectors by presenting the figures in exquisite detail. All about Paperweights

Sharma Krauskopf began her career after graduation from Purdue University working with disadvantaged populations. She worked her way from direct services to administration

of multi-million dollar nonprofit organizations serving people with special needs. She began sharing those experiences through her own company, Innovative Consulting Services (ICS, Inc.) all over the world. The consulting meant endless travel so she gave it up so she could be home closer to her family and began her writing career. One of the advantages of the consulting was it resulted in her falling in love with Scotland where her ancestors were members

of the Clan Morrison. She began an e-zine called Scottish Radiance to share Scotland with the world. That e-zine was the number one e-zine for many years in the early days of the Internet and stories from it are still available on the internet. Writing and editing Scottish Radiance brought a publisher to her in 1999 wanting her to write a book entitled Scotland: Complete Guide and Road Atlas. Since that book she has had 28 book printed by publishers in the UK, Ireland and USA. The

books include non-fiction, fiction and books for children. Her love for Scotland grew to the point that she and her husband decided to buy a vacation home in Scotland. The first piece of property they looked at was Neist Pointe lighthouse on the Isle of Skye. Even though they were outbid on that property it convinced them lighthouse living was for them. They spent the next nine years looking for a Scottish lighthouse home. They finally bought Eshaness Lighthouse on Scotland's

Shetland Island archipelago in the North Sea across from Norway. David A Stevenson a member of the family of the world's best lighthouse builders designed and built it. The search for and living at Eshaness are responsible for her very popular books about lighthouses and her experiences at Eshaness. In 2014 she wrote a screenplay and produces a feature length motion picture with the goal to honor lighthouse keepers entitled Lighthouse Unmanned. That motion

picture was filmed in 2015 and will be released in 2016. She began in 2016 she writing screenplays and producing animated motion pictures for children based on her popular children books.

The Collector's Guide to Paperweights

Wellfleet

Collector's Guide to Paperweights provides comprehensive price information that is long overdue, from the golden era in the mid-nineteenth century to the multitude of individual artisans working today. After the

classic period in the mid-nineteenth century, paperweights virtually disappeared! In the 1970s the paperweight revival was just beginning; from the 1980s to the present, an ever-increasing number of artisans have taken up the art of paperweight-making. Paperweights encompass every possible price category in glassware from inexpensive models under \$25 (Chinese floral and others made in Asia as well as some of America's small glass novelty makers Blenko,

Boyd, Gibson, St. Clair, etc.) up into the thousands of dollars (antique French, Stankard, 1 on 1 s, etc.) and everything in between. The purpose of this guide is to provide practical pricing on all such categories in both Europe and America. 2007 values.

colored with uranium, popularly called Vaseline glass, was made primarily in Great Britain in the late 19th and early 20th centuries, but also in America and Europe. Collectors look for examples by a particular factory or type of product, such as paperweights or tablewares. This book is a mandatory reference for collectors, containing well-researched, up-to-date discussions, 35 comparative charts, and over 400 color photos in 49 chapters covering known makers, their

marks, and specific design groups of houseware, tableware, and jewelry. The captions include full descriptions, date, size, and current values. The author's expertise is a gift of scholarship and passion carefully compiled here for a tool of incomparable value. This is a companion to the author's previous book from Schiffer Publishing, *The Big Book of Vaseline Glass. Meissen Figures, 1730-1775* Wallace-Homestead Book Company English glass paperweight

makers from early times to the present and over 400 examples pictured in color from the early 19th century to 1980. Here are famous Bacchus paperweights. By comparing canes, colors, and styles with these examples, collectors now can identify unknown weights, the fake "1848" dated paperweights, and inkwells. Snow Globes Schiffer Pub Limited

The Cristallerie de Clichy was arguably the finest paperweight maker in the world during the classic period. In their relatively short history they made some of the finest weights ever produced. This book is the history of Clichy, focusing on its

magnificent glass paperweights. The author has spent over thirty years, and driven over a million miles, researching and photographing weights for inclusion in this book. Here the reader will find the history of the crystalworks and its wonderful creations. Also included is an overview of the period world's fairs, starting with the first one, the London Crystal Palace Exhibition in 1851. Clichy was an award winner and major contributor to these stunning exhibitions which helped shape

industry and commerce worldwide. Clichy's classic period millefiori and lampwork paperweights, as well as cameo and foil incrustations, and paperweight-related objects are covered in detail. The broad range of approaches to a subject and the relative rarity of each is discussed. Clichy's weights-from the most common to the rarest-are all here. This book is a must for any connoisseur of Clichy crystal or paperweight collector. This large format book has 240 pages and is

lavishly illustrated with almost 900 color photographs and over 100 original drawings..... As we have come to expect from Paul Dunlop, the illustrations are outstanding; he has captured the typical warm, rich colors of Clichy paperweights beautifully and goes to great pains to show the weights their actual size. This long-promised volume, Clichy Paperweights-classics of the nineteenth century, brings an impressive amount of new information to light.

Everything you wanted to know or cared to imagine about Clichy paperweights can likely be found in this truly outstanding reference book which should rightly take a prominent place in every serious collector's bookcase. John D. Hawley - Author and Collector
