One of the greatest challenges faced today by those responsible for ancient cultural sites is that of maintaining the delicate balance between conserving these fragile resources and making them available to increasing numbers of visitors. Tourism, unchecked development, and changing environmental conditions threaten significant historical sites throughout the world. These issues are among the topics dealt with in this book, which reports on the proceedings of an international conference on the conservation of classical sites in the Mediterranean region, organized by the Getty Conservation Institute and the J. Paul Getty Museum. The book includes chapters discussing management issues at three sites: Piazza Armerina, Sicily; Knossos, Crete; and Ephesus, Turkey. While visiting these sites, conference participants examined how issues raised at these locales can illuminate the challenges of management and conservation faced by complex heritage sites the world over. Additional chapters discuss such topics as the management of cultural sites, the reconstruction of ancient buildings, and ways of presenting and interpreting sites for today's visitors.

Cruelty and Utopia AVA Publishing

Yves Saint Laurent and Pierre Berge amassed this collection together before the Saint Laurent's death in 2008. The works, which had adorned their Paris flats, the Chateau Gabriel in Normandy and their home in Morocco, include antiquities, Old Master and 19th-century paintings and drawings, Art Deco pieces and European furniture and art."

Botticelli Past and Present Penguin

Is fashion your passion? Unlock the language of clothes with this ultimate fashion show that traces people's dresses over the past 3000 years. Fashion is a visual feast, packed with stunning illustrations of 1,500 costumes from around the globe. It celebrates famous trendsetters, designers, and fashion icons from Queen Henrietta Maria to Jackie Onassis and Jean Paul Gautier. Fashion endlessly reinvents itself, reflecting society's trends and

innovations. Discover why different looks caught on, from the elaborate ruffs, wigs, and farthingales of the 17th century, to Dior's "new look" in 1947 and shoulder pads in the 1980s. Find out why for centuries people's dress was regulated by governments' "sumptuary rules" and how the invention of new textiles from velvet to spandex that influenced clothing design. Whether you're part of the fashion industry, a student, or you just love clothes, Fashion is both a glorious visual treat and a treasured history.

The Culture of the Copy Phaidon Press

On November 2nd armed with a sheaf of visas...one suitcase...and my typewriter, I left humdrum London for the thrilling cities of the world... In 1959, Ian Fleming, the creator of James Bond, was commissioned by the Sunday Times to explore fourteen of the world's most exotic cities. Fleming saw it all with a thriller writer's eye. From Hong Kong to Honolulu, New York to Naples, he left the bright main streets for the back alleys, abandoning tourist sites in favour of underground haunts, and mingling with celebrities, gangsters and geishas. The result is a series of vivid snapshots of a mysterious, vanished world.

The Guilds of Florence Weidenfeld & Nicolson

A novel attempt to make sense of our preoccupation with copies of all kinds—from counterfeits to instant replay, from parrots to photocopies. The Culture of the Copy is a novel attempt to make sense of the Western fascination with replicas, duplicates, and twins. In a work that is breathtaking in its synthetic and critical achievements, Hillel Schwartz charts the repercussions of our entanglement with copies of all kinds, whose presence alternately sustains and overwhelms us. This updated edition takes notice of recent shifts in thought with regard to such issues as biological cloning, conjoined twins, copyright, digital reproduction, and multiple personality disorder. At once abbreviated and refined, it will be of interest to anyone concerned with problems of authenticity, identity, and originality. Through intriguing, and at times humorous, historical analysis and case studies in contemporary culture, Schwartz investigates a stunning array of simulacra: counterfeits, decoys, mannequins, and portraits; ditto marks, genetic cloning, war games, and camouflage; instant replays, digital imaging, parrots, and photocopies; wax museums,

apes, and art forgeries—not to mention the very notion of the Real McCoy. Working through a range of theories on biological, mechanical, and electronic reproduction, Schwartz questions the modern esteem for authenticity and uniqueness. The Culture of the Copy shows how the ethical dilemmas central to so many fields of endeavor have become inseparable from our pursuit of copies—of the natural world, of our own creations, indeed of our very selves. The book is an innovative blend of microsociology, cultural history, and philosophical reflection, of interest to anyone concerned with problems of authenticity, identity, and originality. Praise for the first edition "[T]he author... brings his considerable synthetic powers to bear on our uneasy preoccupation with doubles, likenesses, facsimiles, replicas and re-enactments. I doubt that these cultural phenomena have ever been more comprehensively or more creatively chronicled.... [A] book that gets you to see the world anew, again." —The New York Times "A sprightly and disconcerting piece of cultural history" —Terence Hawkes, London Review of Books "In The Culture of the Copy, [Schwartz] has written the perfect book: original and repetitive at once." —Todd Gitlin, Los Angeles Times Book Review

The Pot Book Abrams

A richly illustrated, authoritative global survey of the best and most creative interior designers and decorators working today. Our surroundings are the key to our comfort and happiness, and we're endlessly inspired by the creative professionals that show us how to put a personal stamp on the spaces we inhabit. This gorgeous book is a timely, comprehensive showcase of the most exceptional, innovative, and groundbreaking interior designers working today, nominated by an esteemed group of industry experts and thoughtfully curated to demonstrate why the world of interior design continues to raise the bar of creative practice. Nominators include: Felix Burchter, Aric Chen, Amy Fine Collins, Francisco Costa, Ronnie Fieg, Marianne Goebel, Laila Gohar, Niki Haas, Gert Jonkers & Jop van Bennekom, Lorena Mosquera, Hanya Yanagihara, and Rachel Zoe. Featured designers include: Beata Heuman Ltd, Kelly Wearstler Studio, Martin Brudnizki Design Studio, Neri & Hu, Norm Architects, Romanek Design Studio, Studioilse, Studio KO, Studio Shamshiri, Faye Toogood, and Vincent Van Duysen.

Unexpected Pucci. Interiors: Furniture, Ceramics and Art Pieces.
Ediz. Illustrata HarperCollins UK

From its ancient incarnation as a song to recent translations in modern languages, Homeric epic remains an abiding source of inspiration for both scholars and artists that transcends temporal and linguistic boundaries. The Cambridge Guide to Homer examines the influence and meaning of Homeric poetry from its earliest form as ancient Greek song to its current status in world literature, presenting the information in a synthetic manner that allows the reader to gain an understanding of the different strands of Homeric studies. The volume is structured around three main themes: Homeric Song and Text; the Homeric World, and Homer in the World. Each section starts with a series of 'macropedia' essays arranged thematically that are accompanied by shorter complementary 'micropedia' articles. The Cambridge Guide to Homer thus traces the many routes taken by Homeric epic in the ancient world and its continuing relevance in different periods and cultures.

Serious Play Museum of Arts & Design

A lively exploration of eclecticism, playfulness, and whimsy in American postwar design, including architecture, graphic design, and product design This spirited volume shows how postwar designers embraced whimsy and eclecticism in their work, exploring playfulness as an essential construct of modernity. Following World War II, Americans began accumulating more and more goods, spurring a transformation in the field of interior decoration. Storage walls became ubiquitous, often serving as a home's centerpiece. Designers such as Alexander Girard encouraged homeowners to populate their new shelving units with folk art, as well as unconventional and modern objects, to produce innovative and unexpected juxtapositions within modern architectural settings. Playfulness can be seen in the colorful, child-sized furniture by Charles and Ray Eames, who also produced toys. And in the postwar corporate world, the concept of play is manifested in the influential advertising work of Paul Rand. Set against the backdrop of a society that was experiencing rapid change and high anxiety, *Serious Play* takes a revelatory look at how many of the country's leading designers connected with their audience through wit and imagination.

By Design Chronicle Books

The recent exhibitions dedicated to Botticelli around the world

show, more than ever, the significant and continued debate about the artist. Botticelli Past and Present engages with this debate. The book comprises four thematic parts, spanning four centuries of Botticelli's artistic fame and reception from the fifteenth century. Each part comprises a number of essays and includes a short introduction which positions them within the wider scholarly literature on Botticelli. The parts are organised chronologically beginning with discussion of the artist and his working practice in his own time, moving onto the progressive rediscovery of his work from the late eighteenth to the turn of the twentieth century, through to his enduring impact on contemporary art and design. Expertly written by researchers and eminent art historians and richly illustrated throughout, the broad range of essays in this book make a valuable contribution to Botticelli studies.

A celebration of the meaning and comfort printed books bring to our homes and lives, from the curation and design experts at Juniper Books. Explore the significance of the home library, embellished with alluring photography and illustrations, in a keepsake worthy of any bibliophile's collection. For the Love of Books shares the vision of Juniper Books, a business that embraces the roles that books fulfill in our lives and their staying power. It recounts the history of books and private libraries, and champions the resilience of books in the digital era. Dive into the nuances that define books for reading, books for decoration, and books for inspiration. Instructive chapters provide useful details for creating and curating one's own home library, whether it be a single shelf or multiple rooms each with their own collection. You will never look at your bookshelves the same way again. For the Love of Books is about storytelling beyond the pages of our favorite books. Our books—the ones we choose to keep—tell the story of who we are. They remind us who we once were and who we aspire to be. Thatcher Wine founded Juniper Books in 2001. The company creates custom libraries and has perfected the art of turning books inside out to allow for books to tell stories not just to us, but about us. Working with booklovers, homeowners, and designers, Juniper Books has provided the world with a fresh new approach to the printed book. Thatcher grew up in New York City where his parents owned and operated The Quilted Giraffe, one of the most innovative restaurants in America. Thatcher graduated from Dartmouth College with a degree in history and

art history and lives in Boulder, Colorado. Elizabeth Lane is the founder of Quarterlane, a quarterly subscription book service which merged with Juniper Books in 2018. She is also the book buyer for her local independent bookstore, Partners Village Store and Kitchen in Westport, Massachusetts. Prior to working in books, Elizabeth worked in contemporary visual art—in galleries, nonprofit initiatives and museums in New York, Austin, and Chicago. Elizabeth graduated from Davidson College with a degree in art history and received her masters degree from the School of the Art Institute of Chicago.

Is it better for a martini to be shaken, not stirred? Does it matter which order you add the ingredients of a Long Island Iced Tea? How many ice cubes can you add to a margarita without compromising the flavour?

Basics Fashion Design 04: Developing a Collection Getty Publications

Building a masterpiece explores some of the untold chapters in the long history of the Opera House's gestation, development and completion -- of individuals whose careers were made or broken by the Opera House, the companies whose reputations were secured through their association with the building, and the pioneering construction methods, innovative technologies and methodologies developed to meet the demands of its unprecedented design and challenging construction. The workers who built the building, the politicians, architects and members of the public who championed it and its often beleaguered architect are discussed as is its current world status as a symbol of Australia. To coincide with the 40th anniversary of the opening of the Sydney Opera House, this new edition of Building a Masterpiece will include a new chapter on another little known and much misunderstood story: the architect who took over from Utzon and completed the project.

Pantone, the worldwide color authority, invites you on a rich visual tour of 100 transformative years. From the Pale Gold (15-0927 TPX) and Almost Mauve (12-2103 TPX) of the 1900 Universal Exposition in Paris to the Rust (18-1248 TPX) and Midnight Navy (19-4110 TPX) of the countdown to the Millennium, the 20th century brimmed with color. Longtime Pantone collaborators and color gurus Leatrice Eiseman and Keith Recker

identify more than 200 touchstone works of art, products, decor, and fashion, and carefully match them with 80 different official PANTONE color palettes to reveal the trends, radical shifts, and resurgences of various hues. This vibrant volume takes the social temperature of our recent history with the panache that is uniquely Pantone.

Ralph Pucci Getty Publications

An A-Z history of ceramic art by one of the world's leading ceramic artists, Edmund de Waal. The history of ceramic art is ingrained in the history of mankind. Clay is one of the very first materials 'invented' by man. An essential part of our lives it has been moulded, thrown, glazed, decorated and fired for over 30,000 years in order to preserve and transport food and water. And it was on the surface of these early jugs, vases, dishes, plates, beakers and amphorae that man placed some of his first decorative markings. In more recent times clay has been used not just by artisans and potters, but also by artists, designers and architects. The Pot Book is the first publication to document the extraordinary range and variety of ceramic vessels of all periods, from a delicate bowl made by an unnamed artisan in China in the third millennium bc, or a jug made in eighteenth-century Dresden, to a plate made by Picasso in 1952, a 'spade form' made by Hans Coper or the vases of Grayson Perry today. Each entry is sequenced in alphabetical order by the name of the artist/potter, the school, or style, creating a grand tour through the very finest examples of the art form.

Design Since 1945 Phaidon Press

Collier Schorr met Paul Hameline, a young French artist and model, in New York in 2015. A friend of friend, he came to her home for a "go-see", which is when a photographer gets to see how a model looks in front of the camera. Paul's family lives in the Marais section of Paris around the corner from the hotel Collier stays at while in Paris, so they began to meet and to make a project that lasted two years in which Collier would visit Paul at his parents' house and take pictures and talk. The idea was for Paul and Collier to experience photography as a social space, a conversation in which his body and her eyes could try and understand each other's fascinations and fantasies. Many of the pictures were published in 'Re Edition' magazine. 'Paul's Book' expands that magazine story to form a larger piece about the way in which a photographer and model can search for some greater

revelations with the simplest movements and various states of undress. --

Modern Operative Dentistry Cambridge University Press

Biodegradable and Biocompatible Polymer Composites:

Processing, Properties and Applications begins by discussing the current state-of-the-art, new challenges and opportunities for various biodegradable and biocompatible polymer composite systems. Interfacial characterization of composites and the structure-property relationships in various composite systems are explained in detail via a theoretical model. Processing techniques for various macro and nanocomposite systems and the influence of processing parameters on properties of the composite are also reviewed in detail. The characterization of microstructure, elastic, visco-elastic, static and dynamic mechanical, thermal, rheological, optical, and electrical properties are highlighted, as are a broad range of applications. The book is a useful reference resource for both researchers and engineers working in composites materials science, biotechnology and nanotechnology, and is also useful for students attending chemistry, physics, and materials science and engineering courses. Presents recent outcomes and highlights the going importance of biodegradable and biocompatible polymer composites and their impact on the environment Analyzes all the main processing techniques, characterization and applications of biodegradable composites Written by leading international experts working in the field of biodegradable and biocompatible polymer composites Covers a broad range of application fields, including medical and pharmaceutical, agricultural, packaging and transport

Paul's Book Phaidon Press

The papers in The Economic Integration of Roman Italy use various archaeological data, particularly recent field survey and excavation data, to explore the changes Rome's territorial and economic expansion brought about in the Italian countryside.

The Conservation of Archaeological Sites in the Mediterranean Region BRILL

This book provides the theoretical knowledge required by students when learning how to diagnose oral diseases, plan treatment, and perform various types of dental restoration. It is also useful for clinicians wishing to update their treatment skills and broaden their understanding operative dentistry. Adopting an evidence-based approach, and in accordance with the philosophy

of minimally invasive dentistry, it explains in detail the use of both classic and new restorative materials in various clinical situations. It also discusses the principles of smile analysis, as well the technique for esthetic composite restorations on posterior and anterior teeth, including direct and indirect veneers. In addition to richly illustrated, step-by-step descriptions of procedures, it offers essential information on basic topics, such as dental instruments and equipment, nomenclature and general principles of tooth preparation, isolation of the operating field, matrix and wedge systems, light curing, and pulpal protection. Furthermore it addresses the diagnosis of dental caries and tooth sensitivity of non-cariou origin, like dentin hypersensitivity, dental erosion and cracked tooth syndrome, together with their treatment options. Also explaining the fundamental ergonomic principles of clinical practice, the book enables undergraduate students to embark on a successful professional career.

Unexpected Pucci Aperture Foundation

This landmark collection of illustrated essays explores the vastly underappreciated history of America's other cities -- the great metropolises found south of our borders in Central and South America. Buenos Aires, So Paulo, Mexico City, Caracas, Havana, Santiago, Rio, Tijuana, and Quito are just some of the subjects of this diverse collection. How have desires to create modern societies shaped these cities, leading to both architectural masterworks (by the likes of Luis Barragn, Juan O'Gorman, Lcio Costa, Roberto Burle Marx, Carlos Ral Villanueva, and Lina Bo Bardi) and the most shocking favelas? How have they grappled with concepts of national identity, their colonial history, and the continued demands of a globalized economy? Lavishly illustrated, Cruelty and Utopia features the work of such leading scholars as Carlos Fuentes, Edward Burian, Lauro Cavalcanti, Fernando Oayrzn, Roberto Segre, and Eduardo Subirats, along with artwork ranging from colonial paintings to stills from Chantal Akerman's film From the Other Side. Also included is a revised translation of Spanish King Philip II's influential planning treatise of 1573, the "Laws of the Indies," which did so much to define the form of the Latin American city.

The Good Enough Studio Mack

This groundbreaking fashion branding and management text brings an analytical business dimension to the marketing and corporate techniques of the luxury fashion goods industry. It will

make engaging reading for anyone who wishes to learn about the captivating business of turning functional products into objects of desire.
