The Eclectic Magazine Merriam-Webster

Drawn from a lifetime of passion for fishing, these stories focus on one man's angling adventures at the world's most exotic locations. Jim Chapralis began fishing at the age of eight, became immediately addicted, and for the next six decades found a way to fish in forty countries. Jim pioneered the international fishing travel business, and in this book he describes trips to Angola in search of giant tarpon, to Panama, where he and friends are held at bay by a dozen guns; and to Colombia, where witch doctors practice their medicine on two of his clients. Inspiring and filled with personal anecdotes from his adventures, this book produces an insatiable desire to wet a hook for all angling addicts.

Alice Hoffman is at her electrifying best in this fairy tale for grown-ups. The story begins with a little girl who makes a wish one snowy night and ruins her life. She grows up with a splinter of ice in her heart until one day, standing by her kitchen window, she is struck by lightning. Instead of killing her, this cataclysmic event sparks off a new beginning. She seeks out Lazarus Jones, a fellow lightning survivor. He is her opposite, a burning man whose breath can boil water and whose touch scorches. As an obsessive love affair begins between them, both are forced to hide their most dangerous secrets - what turned one to ice and the other to fire. The Ice Queen is a haunting story of passion, loss, second chances and the secrets that come to define us, if we're not careful.

The volume is the first comprehensive typological study of the conceptualisation of temperature in languages as reflected in their systems of central temperature terms (hot, cold, to freeze, etc.). The key issues addressed here include questions such as how languages categorize the temperature domain and what other uses the temperature expressions may have, e.g., when metaphorically referring to emotions ('warm words'). The volume contains studies of more than 50 genetically, areally and typologically diverse languages and is unique in considering

cross-linguistic patterns defined both by lexical and grammatical information. The detailed descriptions of the linguistic and extra-linguistic facts will serve as an important step in teasing apart the role of the different factors in how we speak about temperature - neurophysiology, cognition, environment, social-cultural practices, genetic relations among languages, and linguistic contact. The book is a significant contribution to semantic typology, and will be of interest for linguists, psychologists, anthropologists and philosophers.

I know many things. What I am capable of, what I will change, what I will become. But there is one thing I will never know?The veil I've worn from birth carries with it a terrible loneliness; a suppression I cannot imagine ever being free of. Some things never change?My mother will always hate me. Her court will always shun me.'Until they do. When the peace delegation arrives from the savage world of Glacium, my life is shoved wildly out of control by the handsome Prince Kedrick who, for unfathomable reasons, shows me kindness. And the harshest lessons are learned. Sometimes it takes the world bringing you to your knees to find that spark you thought forever lost. Sometimes it takes death to show you how to live.

From the author of *The Last Thing You Said*, a YA romance about a girl on a boys hockey team who happens to fall for the team captain. Holland Delviss wants to be known for her talent as a hockey player, not a hockey player who happens to be a girl. So, to keep her spot on the boys' varsity team, she has rules: Practice harder than anyone else, even if that means 5 A.M. training sessions. Keep a low profile, even if that means ignoring trolls calling her a distraction, a gimmick, or worse. But when her team is selected for HockeyFest, a televised statewide event, Holland becomes the lead story (Goodbye, rule #2!). Not everyone is thrilled with Holland's new fame, but there's one person who fiercely supports her, and it's the last person she expects: her bossy team co-captain, Wes. And Wes begins surprising her. He shares her passion for '80s glam metal, and his touch feels strangely electric. With the cameras set to roll, Holland is dangerously close to breaking yet another rule: No dating teammates, ever. A deeply romantic and empowering novel about shutting out the noise from the crowd, so you can listen to your heart. A Junior Library Guild Selection "A fun romp of a teen romance via an exciting hockey season, this book has all the right ingredients—a spunky, multifaceted main character, a love

interest who turns out to be a decent individual, and plenty of internal and external conflict. . . . A teenage love story steamy enough to melt the ice in the rink." —Kirkus Reviews "A fun read that simultaneously puts the reader into the hockey world as an insider and an outsider. . . . It's a last-act gut punch that really puts a spotlight on what female athletes have to deal with. A must-read for anyone who has had to defy expectations."
