the famous two-player
game and turns it into a
one-player trivia game of
deduction. On his run, he
finds a dead man hanging
from a tree. The book
features 100 puzzles split
into two sections with
varying levels of difficulty.
Each game has a category
clue and a unique way of
solving the puzzle. From
simple vocabulary to
extended quotes, you'll be
guessing to solve a
variety of words and
phrases. Each puzzle
comes with a category
and a visual hint to help
you solve the puzzle.
Scratch off the letter's
clue to find what positions
in the phrase the letter
falls on. If you guess
wrong, you add another
segment to the poor
man's body. Guess wrong
five times and you lose. If
you run out of guesses, an
answer key in the back
will help fill in the blanks.

Why there is no such
thing as a free audience
in today's attention
economy The internet was
supposed to fragment
audiences and make
media monopolies
impossible. Instead,
behemoths like Google

and Facebook now dominate the time we spend online—and grab all the profits. This provocative and timely book sheds light on the stunning rise of the digital giants and the online struggles of nearly everyone else, and reveals what small players can do to survive in a game that is rigged against them. Challenging some of the most enduring myths of digital life, Matthew Hindman explains why net neutrality alone is no guarantee of an open internet, and demonstrates what it really takes to grow a digital audience in today's competitive online economy.

Volume 2 Princeton University Press

As Janell Burley Hofmann, mother of five, wrapped her 13-year-old's iPhone on Christmas Eve, she

was overwhelmed by questions: "Will my children learn to sit and wonder without Googling? Should I know their passwords for online accounts? Will they experience the value of personal connection without technology?" To address her concerns, she outlined boundaries and expectations in a contract for her son to sign upon receiving his first cell phone. When Hofmann's editor at The Huffington Post posted the contract, now known as iRules, it resonated on a massive scale and went viral, resulting in a tsunami of media coverage and requests. It quickly became apparent that people across the country were hungry for more. In iRules, Hofmann provides families with the tools they need to find a balance between technology and human interaction through a philosophy she calls Slow Tech Parenting. In the book, she educates parents about the online culture tweens and teens enter the minute they go online, exploring issues like cyberbullying, friend fail, and sexting, as well as helping parents create their own iRules contracts to fit their families' needs. As funny and readable as

it is prescriptive, iRules will help parents figure out when to unplug and how to stay in sync with the changing world of technology, while teaching their children self-respect, integrity, and responsibility.

How difficult it can be to forgive others or to accept forgiveness or to accept that someone who had offended the community has been reconciled and accepted back into it. For two millennia Christians have pondered the scope of the forgiveness Jesus taught and lived. They have celebrated practices and rites that have enabled the faithful to forgive, to be forgiven, and to accept that God brings reconciliation even when we find it almost impossible to forgive. This book traces that history to the present, offering a sense not only of how the rites of reconciliation matter to Catholics but how our struggles with forgiveness are a real contribution to reconciliation in our world.

In *A Life in Learning*, award-winning professor Anthony Aveni tells the personal story of his six decades in college classrooms and some of the 10,000 students who have filled them. Through anecdotes of his own triumphs and tribulations—some amusing, others heartrending—Aveni reveals his teaching story and thoughts on the future of higher education. Although in recent years the lecture has come under fire as a pedagogical method, Aveni ardently defends lecturing to students. He shares his secrets on crafting an engaging lecture and creating productive dialogue in class discussions. He lays out his rules on classroom discipline and tells how he promotes the lost art of listening. He is a passionate proponent of the liberal arts and core course requirements as well as a believer in sound teaching promoted by active scholarship. Aveni is known to his students as a consummate storyteller. In *A Life in Learning* he shares real stories about everyday college life that shed light on serious educational

issues. The result is a humorous, reflective, inviting, and powerful inquiry into higher education that will be of interest to anyone invested in the current and future state of college and university education.

**The Women, of the
American Revolution**

A psychological thriller in the tradition of Patricia Highsmith about two couples caught in a web of conflicting passions while deep-sea diving off the beautiful Canary Islands In the late 1990s, Sven Fiedler and his girlfriend, Antje, left Germany for the island of Lanzarote, rejecting what Sven considered a vulgar culture of materialism and judgment. The young couple set up a diving service catering to tourists eager to bask in the warm sunshine and explore the silent, gleaming marine paradise that makes this otherwise barren volcanic island such a remarkable retreat. Sven's approach was simple: take the mechanics of diving seriously, instruct his clients clearly, and stay out of their personal business as best he can. And life on the island goes smoothly until two German tourists--Jola von der Pahlen, a daytime

soap star on the verge of cinematic success, and Theo Hast, a stalled novelist--engage Sven for a high-priced, intensive two-week diving experience. Staying in a guest house on Sven and Antje's property, the two visitors and their hosts quickly become embroiled in a tangle of jealousy and suspicion. Sven is struck by Jola's beauty, her evident wealth, and her apparently volatile relationship with the much older Theo. Theo quickly leaps to the conclusion that Sven and

Jola are having an affair, but, oddly, he seems to facilitate it rather than trying to intervene. Antje, looking on, grows increasingly wary of these particular clients. As the point of view shifts from one character to the next, the reader is constantly kept guessing about who knows what, and, more important, who is telling the truth. A brutal game of delusion, temptation, and manipulation plays out, pointing toward a violent end. But a quiet one, down in the underwater world beneath the waves.
