MARIELA MARISA

Hebrew in the Second Temple Period
University Press of America
This publication outlines the material preserved in the ancient Jewish cemeteries in the Land of Israel and provides a comprehensive and instructive study of Jewish funerary customs, practices, and rituals relating

to death, burial and mourning, as well as addressing the meaning of Jewish funerary art and tradition.

A History of the Jews and Judaism in the Second Temple Period, Volume 2
Bloomsbury Publishing

This volume describes that part of the rich literary production of ancient Judaism which was not contained in the Hebrew Bible nor in rabbinic literature. these writings originated in the Second Temple period, which proved highly

creative in the midst of strong external influences and internal movements. Prime example are the Dead Sea scrolls, documents of an extremely separatist sect. Their discovery in 1947 revolutionized our understanding of the Second Temple Judaism and its literature. The scrolls appear more or less related in spirit to a group of writings transmitted by Christianity and known as the Pseudepigrapha. Yet another group are the Apocrypha, closely related to later biblical writings and incorporated within the Greek Old Testament. Finally, the encounter with Greek culture is documented by Jewish authors writing in Greek, notably Philo and Josephus. After a historical outline which sets the stage, the chapters in this book describe and analyze these

documents. Selective bibliographies for further reading conclude the chapters. An index of sources and of names and subjects, as well an exhaustive list of modern works quoted, complete the volume. It addresses not only scholars and students, but any reader interested in Judaism and Christianity in the ancient period.

[A History of the Jews and Judaism in the Second Temple Period](#) BRILL

This is the fourth and final volume of Lester L. Grabbe's four-volume history of the Second Temple period, collecting all that is known about the Jews during the period in which they were ruled by the Roman Empire. Based directly on primary sources such as archaeology, inscriptions, Jewish literary sources and Greek, Roman and Christian sources,

this study includes analysis of the Jewish diaspora, mystical and Gnosticism trends, and the developments in the Temple, the law, and contemporary attitudes towards Judaism. Spanning from the reign of Herod Archelaus to the war with Rome and Roman control up to 150 CE, this volume concludes with Grabbe's holistic perspective on the Jews and Judaism in the Second Temple Period.

The Danielic Discourse on Empire in Second Temple Literature A&C Black

This volume contains essays by some of the leading scholars in the study of the Jewish religious ideas in the Second Temple period, that led up to the development of early forms of Rabbinic Judaism and Christianity. Close attention is paid to the cosmological ideas to be

found in the Ancient Near East and in the Hebrew Bible and to the manner in which the translators of the Hebrew Bible into Greek reflected the creativity with which Judaism engaged Hellenistic ideas about the cosmos and the creation. The concepts of heaven and divine power, human mortality, the forces of nature, combat myths, and the philosophy of wisdom, as they occur in 2 Maccabees, Ben Sira, Wisdom of Solomon and Tobit, are carefully analysed and compared with Greek and Roman world-views. There are also critical examinations of Dead Sea scroll texts, early Jewish prayers and Hebrew liturgical poetry and how they these adopt, adapt and alter earlier ideas. The editors have included appreciations of two major figures who played important

roles in the study of the Second Temple period and in the history and development of the ISDCL, namely, Otto Kaiser and Alexander Di Lella, who died recently and are greatly missed by those in the field.

Second Corinthians in the Perspective of Late Second Temple Judaism University Press of America

Larry R. Helyer provides an introduction and historical context for the wealth of Jewish literature outside the Hebrew Bible, and he explores the pressures, realities, questions and dreams that nurtured and provoked these written works.

A History of the Jews and Judaism in the Second Temple Period Augsburg Fortress Publishing

In the first of four volumes on A History

of the Jews and Judaism in the Second Temple Period, Lester Grabbe presents a comprehensive history of Yehud - the Aramaic name for Judah - during the Persian Period. Among the many crucial questions he addresses are: What are the sources for this period and how do we evaluate them? And how do we make them 'speak' to us through the fog of centuries? This first volume, *Yehud: A History of the Persian Province of Judah* offers the most up to date and comprehensive examination of the political and administrative structures; the society and economy; the religion, temple and cult; the developments in thought and literature; and the major political events of Judah at the time. *T&T Clark Encyclopedia of Second Temple Judaism Volume One* Wm. B.

Eerdmans Publishing

Describes the Second Temple period (the first few centuries before and after the common era) and its influence on the development of Rabbinic Judaism, which is the foundation for all of modern Judaism.

Judaism of the Second Temple Period

Mesorah Publications

The period of Early Judaism beginning with the return from the Babylonian Exile in 538 B.C.E. to the destruction of the second temple in 70 C.E. is an enigma to many students of the Hebrew Bible and the New Testament. This era has often been overlooked as unimportant or been the victim of strongly confessional overgeneralizations. Christians have often touted the absolute uniqueness of their faith as something that replaced a

jaded, outmoded Jewish religion. Jews, on the other hand, have often tended to identify Christianity as something entirely unique, a phenomenon totally unrelated to Judaism. However, the Second Temple period was one of the most prolific and creative in all of Israel's history. It was a time of unparalleled literary and theological diversity that gave rise to the powerful religious movements of Rabbinic Judaism and Early Christianity. The Internal Diversification of Second Temple Judaism provides a broad overview of the history, constituent communities, and theological innovations of the Second Temple period.

An Introduction to Second Temple Judaism BRILL

This is the third volume of the projected

four-volume history of the Second Temple period, collecting all that is known about the Jews from the period of the Maccabean revolt to Hasmonean rule and Herod the Great. Based directly on primary sources, the study addresses aspects such as Jewish literary sources, economy, Qumran and the Dead Sea Scrolls, the Diaspora, causes of the Maccabaen revolt, and the beginning and end of the Hasmonean kingdom and the reign of Herod the Great. Discussed in the context of the wider Hellenistic world and its history, and with an extensive up-to-date secondary bibliography, this volume is an invaluable addition to Lester Grabbe's in-depth study of the history of Judaism. *The Concept of the Covenant in the Second Temple Period* Bloomsbury

Publishing

In *The Jerusalem Temple in Diaspora*, Jonathan Trotter shows how different diaspora Jews' perspectives on the distant city of Jerusalem and the temple took shape while living in the diaspora.

[Hebrew Texts and Language of the Second Temple Period](#) Judaism of the Second Temple period

The T&T Clark Encyclopedia of Second Temple Judaism provides a comprehensive reference resource of over 600 scholarly articles aimed at scholars and students interested in Judaism of the Second Temple Period. The two-volume work is split into four parts. Part One offers a prolegomenon for the contemporary study and appreciation of Second Temple Judaism, locating the discipline in relation to other

relevant fields (such as Hebrew Bible, Rabbinics, Christian Origins). Beginning with a discussion of terminology, the discussion suggests ways the Second Temple period may be described, and concludes by noting areas of study that challenge our perception of ancient Judaism. Part Two presents an overview of respective contexts of the discipline set within the broad framework of historical chronology corresponding to a set of full-colour, custom-designed maps. With distinct attention to primary sources, the author traces the development of historical, social, political, and religious developments from the time period following the exile in the late 6th century B.C.E. through to the end of the Bar Kokhba revolt (135 C.E.). Part Three focuses specifically on a

wide selection of primary-source literature of Second Temple Judaism, summarizing the content of key texts, and examining their similarities and differences with other texts of the period. Essays here include a brief introduction to the work and a summary of its contents, as well as examination of critical issues such as date, provenance, location, language(s), and interpretative matters. The early reception history of texts is also considered, and followed by a bibliography specific to that essay. Numerous high-resolution manuscript images are utilized to illustrate distinct features of the texts. Part Four addresses topics relevant to the Second Temple Period such as places, practices, historical figures, concepts, and subjects of scholarly discussion. These are often

supplemented by images, maps, drawings, or diagrams, some of which appear here for the first time. Copiously illustrated, carefully researched and meticulously referenced, this resource provides a reliable, up-to-date and complete guide for those studying early Judaism in its literary and historical settings.

A History of the Jews and Judaism in the Second Temple Period: The Jews under the Roman shadow (4 BCE-150 CE) BRILL Hebrew Texts and Language of the Second Temple Period presents discussions on textual and linguistic aspects of the Dead Sea Scrolls and of Second Temple Hebrew corpora.

The Literature of the Jewish People in the Period of the Second Temple and the Talmud, Volume 2 Jewish Writings of the

Second Temple Period Wm. B. Eerdmans Publishing

A comprehensive and readable introduction to the Judaism of the Second Temple period.

A Light Among the Gentiles

Bloomsbury Publishing

This book represents the fruit of a long process of study and reflection, a powerful but subtle synthesis, by one of the most eminent scholars of Second-Temple Judaism. Far from a conventional narrative history, it is organized around themes and seeks to uncover the essence of Hebraic/Jewish religious thinking while confronting the phenomenon of its division into several 'parties' and traditions. Drawing also on recent studies of Christianity as a 'Judaism', Sacchi provides a stimulating

perspective on the nature of ancient Oriental and Occidental thought and the intellectual and spiritual heritage of European civilization.
