'I'm a HUGE fan of Alison Green's "Ask a Manager" column. This book is even better' Robert Sutton, author of The No Asshole Rule and The Asshole Survival Guide 'Ask A Manager is the book I wish I'd

had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of The Life-Changing Magic of Not Giving a F*ck A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she

takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, Ask a Manager will help you successfully

navigate the stormy seas of office life.

Unfair Competition and Discriminatory Automobile Marketing Practices Routledge

The book addresses the concerns of the typical family, intended as a first-aid manual for legal issues.

Autonomous State Ask a Manager

Autonomous State provides the first detailed examination of the Canadian auto industry, the country's most important economic sector, in the post-war period. In this engrossing book, Dimitry Anastakis chronicles the industry's evolution from the 1973 OPEC embargo to the 1989 Canada-US Free Trade Agreement and looks at its effects on public policy, diplomacy, business enterprise, workers, consumers, and firms. Using an immense array of archival sources, and interviews with some of the key actors in the events, Anastakis examines a fascinating array of topics in recent auto industry and Canadian business and economic history: the impact of new safety, emissions, and fuel economy regulations on the Canadian sector and consumers, the first Chrysler bailout of 1980, the curious life and death of the 1965 Canada-US auto pact, the

'invasion' of Japanese imports and transplant operations, and the end of aggressive auto policy-making with the coming of free trade. More than just an examination of the auto industry, the book provides a rethinking of Canada's tumultuous post-OPEC political and economic evolution, helping to explain the current tribulations of the global auto sector and Canada's place within it.
