Be Careful what You Wish for Lulu.com

The story of the coolest international football team in history - the 1980s Danish national team - told for the first time in English. The Denmark side of the 1980s was one of the last truly iconic international football teams. Although they did not win a trophy, they claimed something much more important and enduring: glory, and in industrial quantities. They were a bewitching fusion of futuristic attacking football, effortless Scandinavian cool and laid-back living. They played like angels and lived like you and I, and they were everyone's second team in the mid-1980s. The story of Danish Dynamite, as the team became known, is the story of a team of rock stars in a polyester Hummel kit. Hailing from a country with no real football history to speak of and a population of five million, this humble and likeable team was unique. Everyman off the field and superheroes on it, they were totally of their time, and their approach to the game was in complete contrast to the gaudy excess and charmless arrogance of today's football stars. That they ultimately imploded in spectacular style, with a shocking 5-1 defeat to Spain in the 1986 World Cup in a game that almost everyone expected them to win, only adds to their legend. For the first time in English, Danish Dynamite tells the story of perhaps the coolest team in football history, a team that had it all and blew it in spectacular style after a live-fast-die-young World Cup campaign. Featuring interviews with the players themselves, including Michael Laudrup, Preben Elkjær and Jesper Olsen, as well as with those who played or managed against them, this is a joyous celebration of one of the most life-affirming teams the world has ever seen.

The future of football management is a hot topic of debate. An unprecedented spate of sackings in the 2001-02 season and the manner of many of the dismissals filled the back pages. There has even been talk of managers going on strike to defend their ill-treated colleagues. Packed with big names and exclusive stories, *The Sack Race* challenges the sanitised picture of football management portrayed in glossy autobiographies. It lays bare a profession where pressure to obtain results is immense and the tolerance of failure is low. Despite football's supposed professionalism, we learn that 'The Gaffer' is often an ill-prepared ex-player who has hopped onto the managerial merry-go-round more as a perceived 'character' than a qualified coach. This remarkable book traces the development of the football manager's role, offers a critique of the way the game trains its coaches for management and raises valid concerns about the suitability of their employers - the directors whose impatience creates a climate of fear and insecurity. Finally, it asks the controversial question - does 'The Gaffer' have a future?

For years, transfer gossip columns have been Alan Gernon's (author of *Retired: What Happens to Footballers When the Game's Up*) guilty pleasure. Fed up with the time wasted reading them, he explores how many of these rumours are accurate, planted by agents or simply made up - and how easy it is to plant a transfer story in the UK media. Along the way, he discovers how the market works and how a transfer happens; what a move actually means for a typical player in a world where you could buy over 160,000 League Two players for the price of Neymar; and that almost 30 per cent of transferred players worldwide are moved between clubs against their wishes. He also uncovers how to become a football agent overnight, and why British players are reluctant to move abroad. He speaks to players about the

pressures and real-life effects of a move, and tries to figure out how much the stars of yesteryear would be worth in today's crazy transfer market - where Premier League clubs spent a record AAGBP1.4 billion in the summer of 2017 alone.

Sir Alex Ferguson, who retired in May 2013 as manager of Manchester United is the most success manager English football has ever seen. He was simultaneously the most admired and feared manager in British football. During almost forty years in the dugout, and over half a century in the professional game, he's torn up the record books, amassed a treasure trove of silverware,

and unleashed the hairdryer – as well as the odd football boot – on countless players, rival managers, referees and journalists. But amid the sound, the fury and the mind-games lurks one of sport's greatest wits. So here we present Sir Alex Ferguson:

uncompromising, unrivalled and uncut. On Arsène Wenger: 'They say he's an intelligent man, right? Speaks five languages! I've got a fifteen-year-old boy from the Ivory Coast who speaks five languages.' On Dennis Wise: 'He could start a row in an empty house.' On referees: 'Can anyone tell me why they give referees a watch? It's certainly not for keeping the time.' On his humble beginnings: 'People say mine was a poor upbringing. I don't know what they mean. It was tough, but it wasn't bloody poor. We maybe didn't have a TV. We didn't have a car. We didn't even have a phone. But I thought I had everything, and I did: I had a football.' After the winning the European Cup in 1999: 'I can't believe it. I can't believe it. Football, eh? Bloody hell.'

In soccer's first linguistic odyssey, Peter Seddon explores how words came about to describe football kit, boots, and balls; playing techniques, foul play, girl talk, and team terminology; and the language of commentators and footie mags, to list just a few examples. This is the definitive guide to soccer's history and culture in its widest sense, and the book's nostalgic and often humorous approach encapsulates Britain's two greatest exports—the English language and soccer. Whether you're a football fanatic, armchair enthusiast, or wordsmith, learning "footie-speak" has never been easier.

The Gaffta Awards is a book about football's most enduring characters. You know who we mean - the game's talking heads, the selfless men who entertain us as royally from behind the microphone as their more athletic comrades do on the pitch. Despite all the media attention football receives, no one has seen fit to devise an awards system for the verbal geniuses of the modern game. Until now. This is the definitive study of 'guff', our umbrella term for all the gaffes, faux pas and general foolishness so prevalent in football today. Thrill as Uncle Bobby Robson, King Kev and Gordon Strachan battle it out for the Best Gaffer gong. While you're at it, cleanse your soul by taking a lesson or two

from the Word of Hod. In the Best Commentator category, sheepskin statto Motty challenges for glory against Beeb stablemate Barry Davies, as well as ITV big-hitters Clive Tyldesley (Manchester United's number one fan) and the sadly departed Brian Moore. Despite his fall from grace, Big Ron's sterling work developing Ronglish - the long-acknowledged official language of the commentary box - sees him in with a real chance in the Best Supporting Commentator category. That said, excitable newcomer Chris Kamara will shout him down all the way to the awards podium. Players, too, are recognised at the Gafftas. All the usual suspects are in with a chance, including belching Gazza, preening Beckham, rotund Maradona and miserable Merson. Less predictably, perhaps, we offer an impressive showcase of unintentional humour from Alan 'Mary Poppins' Shearer. Anchors, pundits, foreign stars and the radio boys all have their own awards, while we also identify football's answer to Sid James in our 'Ooh, Matron' category.
