This essential guide steers you along France's best cycling routes, to the best patisseries, the friendliest places to stay and the most breathtaking scenery. Find a tour to suit you - a leisurely day trip, a week-long food and wine tour or an epic mountain climb. Including - 135 days of France's best cycling - including Corsica; - on-the-road maintenance tips and a guide to French cycle-speak; - where to eat -

from markets to cafes and restaurants; - where to stay - from camping to B&Bs and chateaux; - what to see and do, in and out of the saddle; - how to pack and transport your bike; - the Tour de France explained. *Magnum Cycling* Universidad de Oviedo Nous avons choisi d'évoquer les grands thèmes du Tour de France. Qu'il s'agisse des coureurs (d'Anquetil à Zoetemelk en passant par Bartoli, Ocana, Indurain, LeMond, Merckx ou Pantani, Robic, Sagan...), des différents maillots de l'épreuve (jaune, vert, à pois, blanc), des lieux mythiques (Tourmalet, Alpe d'Huez), des suiveurs (Blondin, l'ardoisier, la

télévision), des organisateurs (Leblanc, Prud homme, ASO) mais également de la production (littérature, films) que génère cette épreuve vieille de près de 120 ans (fondée en 1903). Les pages de ce dictionnaire sont accompagnées de photos de chaque époque. François Thomazeau qui ne compte pas moins de 30 Tours de France à son actif est un spécialiste qui fait aujourd'hui référence dans le milieu. Étape Random House Geoffrey Wheatcroft's hugely entertaining and well researched history of the Tour de France is already established as the definitive account of cycling's greatest

event. Since the book was last published in 2007, much has changed. Bradley Wiggins' historic victory in 2012 - the first Briton ever to secure the yellow jersey - brought him a knighthood and garnered more interest in the race than ever before. Yet the months after were dominated by an even bigger story, as Tour legend and seven-time winner Lance Armstrong was stripped of his titles and confessed on Oprah to doping in each of his victories. Suddenly, everything that we thought we knew had happened was no longer true. In this new and comprehensively revised edition of the book, Wheatcroft not only brings his story of the Tour fully up to date to mark the race's 100th running in 2013, he also reflects on the changes brought about by the scandals that have rocked the sport to its core. Yet for all the controversies of modern times, he vividly captures the essential glory and romance of the heroes who battle to conquer one of sport's greatest challenges.

A visual celebration of cycling presented through the passions and personal memorabilia of beloved menswear fashion designer Paul Smith Were it not for a

serious crash in his teens, fashion designer Paul Smith might have become known as a successful racing cyclist. His cycling career cut short, and after a six-month spell in the hospital, he opened a small boutique in England in 1970. Today, Paul Smith is one of the UK's most successful exports, with over 350 shops worldwide. It was only relatively recently, however, that Smith publicly returned to the world of cycling. This lively scrapbook illustrates Smith's favorite people, races, and places in the cycling world through the images and ephemera that inspired him. From his collection of cycling jerseys and his extensive library of cycling publications and brochures of the 1950s and 1960s to the inspiration he has found in his cycling heroes (Coppi, Anquetil, Bartali) and his collaborations with bike-makers (Mercian and Pinarello) and race organizers, this is a personal and highly visual journey that connects Smith's love of cycling with his love of design. Paul Smith's Cycling Scrapbook is a winning combination of design and the world's most increasingly popular pastime, sure to thrill cycling fans and fashion enthusiasts everywhere.

The thrilling life of France's finest cyclist Bernard Hinault is one of the greatest cyclists of all time. He is a five-time winner of the Tour de France and the only man to have won each of the Grand Tours on more than one occasion. Three decades after his retirement, Hinault remains the last Frenchman to win the Tour de France and his victory in 1985 marks the turning point for a nation who had dominated the first eight decades of the race they had invented. In this biography, bestselling author William Fotheringham details how Hinault, nicknamed the "Badger" for his combative style, was the last old-school champion: a larger-than-life personality from a working-class background, capable of winning on all terrains, in major tours, and one-day classics. A full portrait of this fascinating character, *The Badger* also explores the reasons why France, the nation that considers itself cycling's home, has found it so hard to produce another champion.

The Tour de France is a race like no other, so perhaps it's no surprise that it attracts racers like no other. The winner of the second Tour actually came fifth – but the four racers before him were disqualified for cheating. The 1932 champion credits his win with saving him from capture by the Nazis, as the soldiers recognised him from the podium. One of Britain's best cyclists of the modern era only got into European racing by forging an email. Tour de France Champions is a journey to the summit of cycling, looking at those who have taken on the roads and mountains of France to prevail above all others and win cycling's greatest prize. Giles Belbin presents the stories of all those who have claimed the original and greatest Grand Tour, the one race that still transcends the sport of cycling: the Tour de France.

DIV Federico Martín Bahamontes, the Eagle of Toledo, is rated by many as the greatest climber in cycling history. The first Spaniard to win the Tour de France and a six-time champion of the race's gruelling King of the Mountains classification, he became a national hero in a Spain struggling to rebuild after the devastation and atrocities of the Civil War. Indeed, his success owed much to the conflict. When the Nationalist rebellion of General Franco finally overran the democratically elected Republic in 1939, vast swathes of the country were left impoverished and desperate. On the verge of starvation, the young Bahamontes took to cycling as a means of running black market goods, before realising that sport offered a more lucrative future. An impressive amateur career followed, leading to his Tour debut in 1954, when he won the mountains competition on his first attempt. Success and a charismatic, but temperamental, racing style brought him fame at home and abroad – as well as controversy. Today, despite his appropriation by the Franco regime, he

remains the godfather of Spanish cycling and a sporting eccentric of phenomenal will power. He is also one of the few living witnesses to cycling's golden age and – as Alasdair Fotheringham discovered when interviewing him for this compelling biography – he's more than ready to tell the tale. /div

Written with verve and enthusiasm, Higher Calling explores why mountains have such a magnetic appeal to cyclists the world over. But Max Leonard, himself an accomplished amateur cyclist, does not forget the pain, the glory, the sweat, and the tears that go into these grueling climbs. After all, cycling up a mountain is hard. So hard that, to many, it can seem absurd. But for others, climbing a mountain gracefully (and beating your competitors up the slope) represents the pinnacle of cycling achievement. It is where legends are forged. Many books tell you where the mountains are, or how long and how high. None of them ask why. Why are mountain ranges professional cycling's Coliseum? Why do amateurs also make pilgrimages to these high, remote roads?

Why are the roads even there in the first place to lure us on to these obsession inducing climbs? Just why are mountains so enthralling? "This is real cycling, where the glory is and where dreams come true," according to Bradley Wiggins. Mountains are where cycling's greatest heroes have made their names. Every amateur rider wishes they could climb better, too. Are all these people addicted to the pain? To the achievement? Or to the allure of the peaks? Some spend their weekends and holidays cycling up mountains from start to finish. But how does a rider push themselves beyond their limits to get up a 10% gradient on pedal power alone? What is happening when they do? Higher Calling explores the central place of mountains in the folklore of road cycling. Blending adventure and travel writing with the rich narrative of racing, Max Leonard takes the reader from the battles that created the Alpine roads to the shepherds tending their flocks on the peaks, and to a Grand Tour climax on the "highest road in Europe." And he tells stories of courage and sacrifice, war and love, obsession and even elephants, along the way.

An all-encompassing history of the Tour de France that brings the story right up to date with all the action from the 2014 race. In this updated edition of the highly acclaimed Tour de France, Graeme Fife sets the 2014 race in the context of the event's remarkable history, stretching back to July 1903. Combining meticulous research with a pacy narrative style, he penetrates the mystique of the race and paints a colourful picture of the men whose exploits have given the Tour enduring universal appeal. The momentous 100th edition fully lived up to expectations and was the most exciting race in years. Mountains loomed large in one of the toughest routes since the Second World War, including a double ascent of the iconic l'Alpe d'Huez in just one day. The Briton Chris Froome, riding with panache and great courage, brought Team Sky its second victory in succession; the Colombian Nairo Quintana emerged as a climber of huge talent; and there was a welcome sense that a new generation of riders was turning its back on a murky past. Laced with tales of great solo rides, amazing fortitude, terrible misfortune and

triumph, Tour de France is the definitive account of this extraordinary competition. Named one of the top-five sports books of the year by both The Independent and The Times, it is the essential guide to the Tour. *Speed Read Tour de France* National Geographic Books

Why do road cyclists go to the mountains? Many books tell you where the mountains are, or how long and how high. None of them ask 'Why?' It has been called the Tour de France's 'Hollywood climb', and there is no doubt that Alpe d'Huez has played a starring role in cycling's history since its first encounter with the sport back in 1952 when the legendary Fausto Coppi triumphed on the summit. Re-introduced to the Tour in 1976, Alpe d'Huez has risen to mythical status, thanks initially to a string of victories by riders from Holland, whose exploits attracted tens of thousands of their compatriots to the climb, which has become known as 'Dutch

mountain'. A snaking 13.8-kilometre ascent rising up through 21 numbered hairpins at an average gradient of 7.8%, Alpe d'Huez is the climb on which every great rider wants to win. Many of the sport's most famous and now even infamous names have won on the Alpe, including Bernard Hinault, Joop Zoetemelk, Lucho Herrera, Marco Pantani and Lance Armstrong. As well as days of brilliance, there have been controversies such as the high-speed and drug-fuelled duels of the EPO years in the 1990s and into the new millennium. In Alpe d'Huez, veteran cycling journalist Peter Cossins reveals the triumphs, passion and despair behind the great exploits on the Alpe and discloses the untold details that have led to the mountain becoming as important to the Tour as the race is to resort at its summit. It is a tale of man and machine battling against breath-taking terrain for the ultimate prize.

The Historical Dictionary of Cycling takes a closer look at the sport, as well as discussing the use of bicycles as a means of fitness, touring, and commuting. This is done through a chronology, an

introductory essay, appendixes, photos, a bibliography, and over 500 cross-referenced dictionary entries on cycling's two main disciplines—road and track—as well as brief overviews of the other forms of cycling. This book is an excellent access point for students, researchers, and anyone wanting to know more about cycling.

An awe-inspiring history of the five most legendary 'classic' races in world cycling. 'Peter Cossins is an engaging writer whose conversational style makes this an effortless yet interesting read. The cosy tone delivers a great deal with a good balance of history and anecdotes. If you wish to explore cycling beyond the Grand Tours this is the book.' Carlton Kirby The Tour de France may provide the most obvious fame and glory, but it is cycling's one-day tests that the professional riders really prize. Toughest, longest and dirtiest of all are the so-called 'Monuments', the five legendary races that are the sport's equivalent of golf's majors or the grand slams in tennis. Milan-Sanremo, the Tour of Flanders, Paris-Roubaix, Liège-Bastogne-Liège and the Tour of

Lombardy date back more than a century, and each of them is an anomaly in modern-day sport, the cycling equivalent of the Monaco Grand Prix. Time has changed them to a degree, but they remain as brutally testing as they ever have been. They provide the sport's outstanding one-day performers – the likes of Philippe Gilbert, Fabian Cancellara, Mark Cavendish, Tom Boonen, Peter Sagan and Thor Hushovd – with a chance to measure themselves against each other and their predecessors in the most challenging tests in world cycling. From the bone-shattering bowler-hat cobbles of the Paris-Roubaix (rumoured to be Bradley Wiggins' next challenge) to the insanely steep hellingen in the Tour of Flanders, each race is as unique as the riders who push themselves through extreme exhaustion to win them and enter their epic history. Over the course of a century, only Rik Van Looy, Eddy Merckx and Roger De Vlaeminck have won all five races. Yet victory in a single edition of a Monument guarantees a rider lasting fame. For some, that one victory has even more cachet than success in a grand tour. Each of the Monuments has a fascinating history,

featuring tales of the finest and largest characters in the sport. In *The Monuments* Peter Cossins tells the tumultuous history of these extraordinary races and the riders they have immortalised.

What if all the best Tour stages happened in one race? In Etape, critically acclaimed author Richard Moore weaves first-person interviews with cycling's great riders to assemble a "dream team" of the best Tour de France stages in modern history. Featuring exclusive interviews with the Tour's legends and scoundrels about their

best-ever day on the bike (and their most heartbreaking defeats), Moore unravels lingering mysteries and recounts strange tales from 20 great stages of the Tour: LeMond's impossible return from near-death, Schleck's primal scream atop the Galibier, Merckx's self-described toughest Tour, Cav's mind-bending victory in Aubenas, Hinault's hellish battle with Fignon. Etape assembles the greatest days of modern Tour history into a Tour de France of incredible victory, glorious failure, shocking revelation, and beautiful memories. In the words of those who were there, Etape recreates each day vividly and reveals the beauty and the madness of cycling's greatest race.
