[Life Strategies for Teens](#) Simon Spotlight

A brand new series of narrative non-fiction that tells the real-life stories of well-known animals.

[Lily and the Yucky Cookies](#) Random House

Bill Carmichael shows you how to cultivate your home as a place of refuge, formation, boundaries, celebration, connection, legacy, and purpose--a place where your children can grow in godly virtues and character.

[The 7 Habits of Happy Kids](#) Simon and Schuster

A "profound" (Cynt Marshall, CEO of the Dallas Mavericks), timely, must-have guide to understanding and overcoming bias in the workplace from the experts at FranklinCovey.

Unconscious bias affects everyone. It can look like the disappointment of an HR professional when a candidate for a new position asks about maternity leave. It can look like preferring the application of an Ivy League graduate over one from a state school. It can look like assuming a man is more entitled to speak in a meeting than his female junior colleague. Ideal for every manager who wants to understand and move past their own preconceived ideas, *The Leader's Guide to Unconscious Bias* is a "must-read" (Sylvia Acevedo, CEO, rocket scientist, STEM leader, and author) that explains that bias is the result of mental shortcuts, our likes and dislikes, and is a natural part of the human condition. And what we assume about each other and how we interact with one another has vast effects on our organizational success—especially in the workplace. This book teaches you how to overcome unconscious bias and provides more than thirty unique tools, such as a prep worksheet and a list of ways to reframe your unconscious thoughts. According to the experts at FranklinCovey, your workplace can achieve its highest performance rate once you start to overcome your biases and allow your employees to be whole people. By recognizing bias, emphasizing empathy and curiosity, and making true understanding a priority in the workplace, we can unlock the potential of every person we encounter.

[Ways of Learning](#) Simon and Schuster

"Instead of trusting kids with choices . . . many parents insist on micromanaging everything from homework to friendships. For these parents, Stixrud and Johnson have a simple message: Stop." —NPR "This humane, thoughtful book turns the latest brain science into valuable practical advice for parents." —Paul Tough, New York Times bestselling author of *How Children Succeed* A few years ago, Bill Stixrud and Ned Johnson started noticing the same problem from different angles: Even high-performing kids were coming to them acutely stressed and lacking motivation. Many complained they had no control over their lives. Some stumbled in high school or hit college and unraveled. Bill is a clinical neuropsychologist who helps kids gripped by anxiety or struggling to learn. Ned is a motivational coach who runs an elite tutoring service. Together they discovered that the best antidote to stress is to give kids more of a sense of control over their lives. But this doesn't mean giving up your authority as a parent. In this groundbreaking book they reveal how you can actively help your child to sculpt a brain that is resilient, and ready to take on new challenges. *The Self-Driven Child* offers a combination of cutting-edge brain science, the latest discoveries in behavioral therapy, and case studies drawn from the thousands of kids and teens Bill and Ned have helped over the years to teach you how to set your child on the real road to success. As parents, we can only drive our kids so far. At some point, they will have to take the wheel and map out their own path. But there is a lot you can do before then to help them tackle the road ahead with resilience and imagination.

[The 7 Habits of Highly Effective Teens: Workbook](#) Springer Nature

Whilst most teachers are skilled in providing opportunities for the progression of children's learning, it is often without fully understanding the theory behind it. With greater insight into what is currently known about the processes of learning and about individual learning preferences, teachers are better equipped to provide effective experiences and situations which are more likely to lead to lasting attainment. Now fully updated, *Ways of Learning* seeks to provide an understanding of the ways in which learning takes place, which teachers can make use of in their planning and teaching, including: An overview of learning Behaviourism and the beginning of theory Cognitive and constructivist learning Multiple intelligences Learning styles Difficulties with learning The influence of neuro-psychology Relating theory to practice The third edition of this book includes developments in areas covered in the first and second editions, as well as expanding on certain topics to bring about a wider perspective; most noticeably a newly updated and fully expanded chapter on the influence of neuro-educational research. The book also reflects changes in government policy and is closely related to new developments in practice. Written for trainee teachers, serving teachers, and others interested in learning for various reasons, *Ways of Learning* serves as a valuable introduction for students setting out on higher degree work who are in need of an introduction to the topic.

[13 Things Strong Kids Do: Think Big, Feel Good, Act Brave](#) Thomas Nelson

This completely updated and redesigned personal workbook companion to the bestselling *The 7 Habits of Highly Effective Teens* provides engaging activities, interactives and self-evaluations to help teens understand and apply the power of the 7 Habits. Sean Covey's *The 7 Habits of Highly Effective Teens* has sold more than 2 million copies and helped countless teens make better decisions and improve their sense of self-worth. Pairing new interactives with modern explanatory graphics, *The 7 Habits of Highly Effective Teens* workbook reaches today's teen generation effectively.

HarperCollins UK

Learn to be proactive with the 7 Oaks gang in this Level 2 Ready-to-Read edition of the first book in the *7 Habits of Happy Kids* series from Sean Covey and Stacy Curtis. Biff the beaver is always making fun of Pokey's quills. Every day at school he makes jokes about them in front of everyone and no matter how much his friends try to help, Pokey just can't help but feel bad when Biff says mean things. It isn't until he learns to ignore Biff that he can stop being so bothered by his comments. With short lyrical text, each of the Level 2 Ready-to-Reads in this winning series focuses on one habit.

[Sticks and Stones](#) Simon and Schuster

"... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called "zones," with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD."--Publisher's website.

[The Self-Driven Child](#) Simon and Schuster

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*

*The 12 Week Year* Mango Media Inc.

*The 7 Habits of Highly Effective Teens Personal Workbook* Simon and Schuster

"There are five Units of Study in Reading for each grade level, and each unit represents four to six weeks of teaching. The units are the heart of the series. In each unit of study, you will learn a rich repertoire of ways to provide focused and explicit instruction on a specific set of skills and strategies. This is unit 1 of the series is intended for Grade 1!"--

*The 3rd Alternative* Hachette UK

In *The 7 Habits of Happy Kids*, Sean Covey uses beautifully illustrated stories to bring his family's successful philosophy to the youngest child. For the Seven Oaks friends, there is always something to do. Whether they're singing along with Pokey Porcupine's harmonica or playing soccer with Jumper Rabbit, everyone is having fun and learning all sorts of things. These seven stories show how practicing the 7 Habits makes this possible for the whole Seven Oaks Community. From learning how to take charge of their own lives to discovering how balance is best, the Seven Oaks friends have tons of adventures and find out how each and every kid can be a happy kid!

*The Leader in Me* Penguin

*Sticks and Stones* is for parents, youth leaders, and small group leaders to use in helping teens cope with the various issues relating to teasing, taunting, and harassment by: identifying key issues related to bullying, offering practical steps for teaching teens how to handle teasing and how to become an interceder for victims of teasing, and examining the spectrum of bullying from teasing and taunting to physical violence. Adults and teens will be encouraged to take a proactive role, not only in helping victims, but also in targeting the potential for bullying teens and putting an end to the destructive cycle.

*Ending Discrimination Against People with Mental and Substance Use Disorders* Simon Spotlight

"I'm a HUGE fan of Alison Green's 'Ask a Manager' column. This book is even better! Robert Sutton, author of *The No Asshole Rule* and *The Asshole Survival Guide* 'Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of *The Life-Changing Magic of Not Giving a F\*ck* A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, *Ask a Manager* will help you successfully navigate the stormy seas of office life.

*Living the 7 Habits* St. Martin's Press

The internationally bestselling author of *13 Things Mentally Strong People Don't Do*, Amy Morin, empowers tweens, teaching them how to think, feel, and act stronger than ever! Perfect for fans of *The Confidence Code for Girls*, this book tackles mental strength in a relatable way. Filled with fun

graphics and illustrations throughout. "This book is a powerful gift to kids—it shows them how to help themselves!" —Claire Shipman, New York Times bestselling coauthor of *The Confidence Code for Girls* Do you worry that you don't fit in? Do you feel insecure sometimes? Do you wish your life looked as perfect as everyone else on social media? Do you have anxiety about things you can't control? Being a tween can be really hard, especially in today's world. You balance it all—homework, extracurricular activities, chores, friendship drama, and family, all while trying to give the impression that you know exactly what you're doing. Sometimes when we try to look perfect on the outside, we can feel rotten in the inside. Do you want to become a stronger person, inside and out? By picking up this book, you're already taking the first step toward becoming a better person where it counts—by training your brain. Prominent psychotherapist and social worker Amy Morin offers relatable scenarios, then shows tweens the ways they can develop healthy habits, build mental strength, and take action toward becoming their best selves. *13 Things Strong Kids Do* gives tweens the tools needed to overcome life's toughest challenges. This nonfiction middle grade book is an excellent choice for tween readers in grades 5 to 8, including those living through the stresses of homeschooling, returning to the classroom, and navigating a changed and stressful world.

*The Leader's Guide to Unconscious Bias* Teachers College Press

In her latest book, five-time #1 New York Times bestselling author Dr Brené Brown, writes, "If we want to find the way back to ourselves and each other, we need language and the grounded confidence to both tell our stories, and to be stewards of the stories that we hear. This is the framework for meaningful connection." In *Atlas of the Heart*, Brown takes us on a journey through 87 of the emotions and experiences that define what it means to be human. As she maps the necessary skills and lays out an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances - a universe where we can share and steward the stories of our bravest and most heart-breaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. *Atlas of the Heart* draws on this research, as well as Brown's singular skills as a researcher/storyteller, to lay out an invaluable, research-based framework that shows us that naming an experience doesn't give the experience more power, it gives us the power of understanding, meaning and choice. Brown shares, "I want this to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves. Even when we have no idea where we are."

*Uncle Wille and the Soup Kitchen* National Academies Press

Starting right now, today, you and I can build the momentum towards more equality and unity in America - while uplifting our own lives too. This is the win-win cliché of all time - together we don't fall down, we all lift up. If we haven't learned much else from social media, we've learned that shared thoughts, for good or bad, that are truth or fake truths, become powerful beyond measure when they reach lots of people at the same time and are repeated over and over again. This isn't a book ABOUT habits - it is a HABIT-FORMING book. When you take it home and begin your "one-minute-a-day" habit building adventure, your life and your outlook will brighten. I hope you use your social media power to share the colorful monthly messages with others. Together, we can overcome the pain of a divided America with the power of goodness because it is in these aspects of our citizenship that we are all equal.

*The Art of Creativity* Simon and Schuster

Learn to listen with more than your ears with the 7 Oaks gang in this Level 2 Ready-to-Read edition of the fifth book in the *7 Habits of Happy Kids* series from Sean Covey and Stacy Curtis. On a rainy day, Lily wants to make cookies. But instead of paying attention to the recipe, she tells her dad she knows what she is doing. What could go wrong? Lily comes to understand the importance of listening—not just with your ears, but your eyes and heart as well! Each of the Level 2 Ready-to-Reads in this winning series focuses on one of the *7 Habits of Happy Kids*.

**CDC Yellow Book 2018: Health Information for International Travel** Random House

"A straightforward fictional view of an urban soup kitchen, as observed by a boy visiting it with his 'Uncle Willie,' who works there every day....The difficult lives of those fed (including children)--as well as the friendly, nonintrusive attitude of the kitchen workers toward them--are presented sensitively but without sentimentality.
