16 Traditional Tunes - 64 easy flute duets (VOL.1) Helen Winter "A fascinating journey through the history of "Amazing Grace," one of the transatlantic world's most popular hymns and a powerful anthem for humanity. Sung in moments of personal isolation or on state occasions watched by millions, "Amazing Grace" has become an unparalleled anthem for humankind. How did a simple Christian hymn, written in a remote English vicarage in 1772, come to hold such sway over millions in all corners of the modern world? With this short, engaging cultural history, James Walvin offers an explanation. The greatest paradox is that the author of "Amazing Grace," John Newton, was a former Liverpool slave captain. Walvin follows the song across the Atlantic to track how it became part of the cause for abolition and galvanized decades of movements, tragedies, and trends in American history and popular culture. By the end of the twentieth century, "Amazing Grace" was performed in Soweto and Vanuatu, by political dissidents in China, and by Kikuyu women in Kenya. No other song has acquired such global resonance as "Amazing Grace," and its fascinating history is well worth knowing"--

This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. We use an "easy-to-play" visual aid so any beginner can play music quickly. Neither kids nor their parents have to read sheet music or

have a musical background. No previous knowledge is necessary. Every song has a large and simple, color and letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There are totally 22 songs and 2 options to help children to begin to play right away. PLAYING BY LETTER CIRCLE PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - Circles Mary Had a Little Lamb - Ver 1 - Notes Level 2 In this part, you will find one version with both circles and notes, and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Version 1 - CIRCLES Hot Cross Buns - Version 1 - NOTES Hot Cross Buns - Version 2 - NOTES (Here the player will play songs in a different key and learn how to transpose.) Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3 Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can

be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer). We offer 22 one-hand piano songs. Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as xylophone, glockenspiel, melodica, or recorder. Additionally, you find funny riddles with engaging activities to teach musical notes and symbols.

30 Songs you can play for your baby immediately on any instrument you may have at home without any musical background. Hi. Now you are parents. Or grandparents. The second is much easier but does not free you from the duty of singing lullabies and other funny kids songs to your little ones. Do you feel forced to sing them? It's not easy, is it? Especially if

you're tone-deaf. Did your schoolmates study violin while you were playing hooky from music class? Now with the kids, you're stuck and everyone expects you to be a lullaby singer. Well, we have a solution for you. If your only singing has been in the shower, let us help you become a real musician. And you can do it with any instrument. Even a toy piano, if it is tuned. If you are a musician, this book is not for you. You can go play your instrument in an orchestra. Kids like simple music. We offer you a guaranteed time-tested set of cool kids songs. These are famous kids songs (which you'll recognize) and also some musical nursery rhymes thrown in. What do you need for your musical success? Equipment for starters. Your instrument can even be jars with water. But for most songs, it'll be better if they are somewhat tuned. It could be any key instrument like a piano, melodica, kalimba, marimba, synthesizer, xylophone, glockenspiel, or a color bell set with 8 bells or more. Drums, tambourine, castanets, and music rattles are also welcome. The main argument for the idea of not being able to play in a band with your child immediately is I CANNOT READ MUSIC SHEET. Don't worry! You don't have to! We made our pictures large and as simple as possible. You'll easy play by circles. No musical staff or notes. Your listeners are not very critical and won't know the difference. Kids are the best listeners in the world. The sheet music book has 2 parts: Part 1. No musical staff or notes. Simply follow the circles with letters. To show the rhythm, we grouped the circles together. Every song in this section was adapted for the newbie - you - just 8 notes (one octave). Part 2. Here you'll see traditional musical notes and staff added. But don't worry - the helpful letters are still there. Important! You will be able to

begin to play right away if the keys of your instrument have letter notations on the keys (like kalimba or xylophone). For other instruments, you just need to get and apply stickers with letter notations. Just 8 stickers will be enough. Write the notes with a marker - A B C D E F G and C8. You have never played music before or you cannot read sheet

music, but you want to play famous and inspiring hymns and spirituals. Don't worry! You will begin to play right away. We made our pictured sheet music as simple as possible. You'll play by letter-coded circles. No musical staff or notes. The easy-to-play songs and melodies were adapted especially for beginners. The melodies have been transposed to one octave and simplified. Also, the letter-coded notations have been added and complex notations and symbols have been reduced. Such simplification makes it possible for people to play melodies, especially those who can't read music or who have never played music before. Additionally, it makes it possible to play on the most primitive instruments, such as a child's xylophone, bell sets, chime bars, and even a kid's piano. You will be able to begin to play right away if the keys of your instrument have letter notations on the keys. Some percussion instruments already have them. They are printed by suppliers (for example, a simple xylophone or kalimba). For other instruments, you just need to get and apply stickers with letter notations. For most songs, just 8 stickers will be enough. You can create your own using post-it notes or stickers, or you can buy them. Write the notes with a marker - A B C D E F G and C of the next octave. Apply the stickers correctly. Find note C. Now apply the stickers alphabetically starting with C, then D E F G A B, and next C. Most songs from this book are possible to play on an 8-note instrument, so a one-octave instrument, for example, a 10-key kalimba, 8-key xylophone, small tongue drum, handbells, or even toy piano will be enough. But some songs here involve the neighboring with the main octave notes. For these songs, you will need a 2-3 octave instrument. It might be the kalimba with 17 keys, 15+ key

xylophone, melodica, synthesizer, or piano. All of them need to have special note stickers for beginners. These transparent removable stickers are available on Amazon for 88/61/54/49 key instruments and they can really help in your musical experience. We don't use most musical symbols and notations here: the length of the notes, bars, beams, etc. This book is aimed at your first musical experience no matter what age you are. There is no wrong time or not enough preparation to take up spiritual pursuits.
