Izzy is always shuffling, jiggling, squirming and twitching. She just can't keep still! So when Izzy's school go on a trip to the zoo, her teacher warns her to behave. She must never wriggle, she must never fidget and she must certainly NEVER TICKLE A TIGER! But does Izzy listen? She does NOT - and what happens next throws the zoo into complete chaos. With eye-catching illustrations by the internationally acclaimed bestselling illustrator, Marc Boutavant, Never Tickle a Tiger will amaze and delight children and parents alike!

The Tree with Eyes Sophia Perennis
Ten-year-old Ernest lives a flat, colorless life. Each day is the same: he comes

home right after school, eats a healthy snack, and does his homework. Enter Victoria, the new girl in class. Victoria instantly falls in love with Ernest, and bulldozes her way into his life. Much to Ernest's surprise, he likes it. Bit by bit, color seeps into Ernest's humdrum existence--and he begins to realize that life can hold an endless variety of love, friendship, adventure, and change."Quirky characters, heightening suspense, and hilarious situations are deftly combined in this tender novel, which examines a few of the large and small ways people affect one another." -- Booklist, starred review

King of the Middle March Capstone
A gorgeously illustrated nonfiction book about the polar bear, this is a factually accurate as well as a poetic exploration of polar bear bodies, habits, and habitats. Working in a painterly, expressive way, Jenni Desmond creates landscapes and creatures that are marked by atmosphere and emotion, telling a story about bears that engages the reader's interest in amazing facts as well as their deep sense of wonder. A

graduate of the renowned MA program in Children's Book Illustration at the Cambridge School of Art (ARU), Jenni Desmond works from her studio in London, UK. This, her second book for Enchanted Lion, will be followed by one about elephants.

'It was the summer that men first walked on the moon. I was very young back then, but did not believe there would ever be a future. I wanted to live dangerously, to push myself as far as I could go, and then see what happened when I got there.' So begins the mesmerising narrative of Marco Stanley Fogg - orphan, child of the 1960s, a quester by nature. Moon Palace is his story - a novel that spans three generations, from the early years of this century to the first lunar landings, and moves from the canyons of Manhattan to the cruelly beautiful landscape of the American West. Filled with suspense, unlikely coincidences, wrenching tragedies and marvellous flights of lyricism and erudition, the novel carries the reader effortlessly along with Marco's search - for love, for his unknown father, and for the key to the elusive riddle of his origins and his fate. 'Clever: very. Surprising: always - Auster is a master.' The Times

One of René Guénon's lifelong quests was to discover, or revive, the esoteric,

initiatory dimension of the Christian tradition. In the present volume, along with its companion volume *The Esoterism of Dante*, Guénon undertakes to establish that the three parts of *The Divine Comedy* represent the stages of initiatic realization, exploring the parallels between the symbolism of the *Commedia* and that of Freemasonry, Rosicrucianism, and Christian Hermeticism, and illustrating Dante's knowledge of traditional sciences unknown to the moderns: the sciences of numbers, of cosmic cycles, and of sacred astrology. In these works Guénon also touches on the all-important question of medieval esoterism and discusses the role of sacred languages and the principle of initiation in the Christian tradition, as well as such esoteric Christian themes and organizations as the Holy Grail, the Guardians of the Holy Land, the Sacred Heart, the Fedeli d'Amore and the 'Courts of Love', and the Secret Language of Dante. One chapter in the present volume, 'Christianity and Initiation', is of special interest with regard to the history of the Traditionalist School. When first published as an article, it gave rise to some controversy because Guénon here reaffirmed his denial of the efficacy of the Christian sacraments as rites of initiation, a point of divergence between the teachings of Guénon and those of other key perennialist thinkers. Both *The Esoterism of Dante* and *Insights into Christian Esoterism* will be of inestimable value to all who are struggling to come to terms with the fullness of the Christian tradition.

"Sur le coeur, j'ai juste un métronome." Quand Basile, un enfant solitaire, rejoint la classe d'Herbert, figure enseignante de Senneville, la partition démarre. Mais l'équilibre se brise. Que cachent les professeurs de cette petite école de campagne ? Et comment vont-ils résister au cataclysme qui s'abat sur le village ? Roxane tente de dissimuler son passé, Charlotte d'accepter sa nouvelle vie, Kader de supporter l'impensable et Mélissa de trouver sa place. En solos, en duos ou de concert, les six voix de ce roman s'entrecroisent et se révèlent. Où se trouve l'harmonie ? "J'ai lu Une symphonie humaine avec admiration. C'est une composition musicale très subtile."

The Flight of Mr. Finch Shakespeare Comic Books

A hilarious and sweetly philosophical twist on a classic tale—three penguin pals refuse to enter the ark two by two.

Romeo and Juliet Bloomsbury Publishing Money can't buy a good first impression. Seventeen-year-old Caymen Meyers learned early that the rich are not to be trusted. And after years of studying them from behind the cash register of her mom's porcelain-doll shop, she has seen nothing to prove otherwise. Enter Xander Spence—he's tall, handsome, and oozing rich. Despite his charming ways and the fact that he seems to be one of the first people who actually gets her, she's smart enough to know his interest won't last. Because if there's one thing she's learned from her mother's warnings, it's that the rich have a short attention span. But just when Xander's loyalty and attentiveness are about to convince Caymen that being

rich isn't a character flaw, she finds out that money is a much bigger part of their relationship than she'd ever realized. With so many obstacles standing in their way, can she close the distance between them?

A hallmark of much of the research on children's thinking in the 1970s had been the focus on explicit content domains. Much of this research had been represented by an eclectic collection of studies sampled from a variety of disciplines and content areas. However, in the few years before this publication, research in several content domains has begun to coalesce into a coherent body of knowledge. Originally published in 1982, the chapters in this work represent one of the first attempts to bring together the perspectives of a variety of different researchers investigating a specific, well defined content domain. This book presents theoretical views and research findings of a group of international scholars who are investigating the early acquisition of addition and subtraction skills by young children. Together, the contributors bring a blend of psychology, educational psychology, and mathematics education to this topic. Fields of interest such as information processing, artificial intelligence, early childhood, and classroom teaching and learning are included in this blend.
