Excerpt from The Arabian Nights: A Selection of Stories From Alif Laila Wa Laila, the Arabian Nights' Entertainment The Arabian Nights' Entertainments is a book which has been the delight of Europe and America for nearly two hundred years. Before that time, it had been the delight of Western Asia, and of the Mohammedan colonies in Europe and Northern Africa, it would be hard to say for how many centuries more. Since the Frenchman, Galland, first introduced it to readers of his own country, translations of it have been made into every language of Europe. In the English language, there have been, many translations from the original text. The

interest in the text has increased in the East, and new manuscripts have been found, and different editions printed from them at Cairo and Calcutta. The literature of the subject is now an important department of literary criticism. For our readers, young or old, it is perhaps enough to say, that the stories are as popular in the East as they have ever been in their translated forms, and that, at this moment, they may be heard recited wherever a considerable company of Arabs, Turks, or of other Eastern races come together. Nor is the interest which attaches to them in the East or the West difficult to account for. The stories are pure narrative, - narrative without any moral, without any

object but that of amusing or pleasing the reader. There is not the slightest pretence that they are instructive, nor that they will lead in particular paths of virtue, nor that they illustrate great or small principles of life or of society. They are simply stories. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Aladdin ; Sindbad ; Ali Baba.

*Tales from the Arabian Nights Entertainments.*

*Selected and Edited by Charles Platt*

Probably one of the original 'story within a story' books, Arabian nights is a selection of stories told by a young girl on her wedding night to a prince who has sworn to kill any girl who marries him. Her clever stories serve as 'cliff-hangers' and keep him from murdering her night after night. This collection is where classic fairy tales such as Aladdin and Ali Baba and the Forty Thieves

come from as well as well-known moral tales and metaphors. The use of djinns, magic and an evocation of Oriental splendour makes Arabian Nights dazzle. A 'must read' book and the perfect counter point to western fairy tales such as Hans Christian Anderson and the Brothers Grimm.

*The Arabian Nights; a Selection of Stories*

*From Alif Laila Wa Laila, the Arabian*

*Nights' Entertainment*

A selection of thirteen tales told by Scheherazade in the Arabian Nights, which enchanted the cruel sultan so much that, he gave up executing his daily wives. Full of mischief and valour, ribaldry and romance, The Arabian Nights is a work that has enthralled readers for centuries. The origins

of The Arabian Nights are obscure. About a thousand years ago a vast number of stories in Arabic from various countries began to be brought together; only much later was the collection called The Arabian Nights or the Thousand and One Nights. This selection includes many of the stories that are universally known though seldom read in this authentic form:

"Aladdin; or, the Wonderful Lamp,"  
"Sindbad the Sailor"  
and "Ali Baba and the Forty Thieves.
