Jose Raul Capablanca Chess Collection

Jose Raul Capablanca is renowned for his exquisite positional play and flawless endgame technique. But *The Chess Machine* was also a master of that other way to deliver mate: the attack on the enemy king. In this groundbreaking work, award-winning chess coach and author Frisco Del Rosario shines a long-overdue light on this neglected aspect of Capablanca's record. He illustrates how the Cuban genius used positional concepts to build up irresistible king hunts, embodying the principles of good play advocated by the unequaled teacher, C.J.S. Purdy. The author also identifies an overlooked checkmate pattern - Capablanca's Mate - that aspiring attackers can add to the standard catalogue in Renaud and Kahn's *The Art of the Checkmate*. As Del Rosario shows, Capablanca has inspired not only generations of players, but also many of the classics of chess literature. Easy to read but chock-full of advice for study and practical play, *Capablanca: A Primer of Checkmate* fills a gaping hole in our understanding of the third World Champion.

Games Played in the World's Championship Match Between Jose Raul Capablanca ... and Alexander Alekhin ... Courier Corporation
This is the most complete and thorough biography of José Raúl Capablanca, one of the greatest players in the history of chess. Beginning with his family background, birth, childhood and introduction to the game in Cuba, it examines his life and play as a young man; follows his evolution as a player and rise to prominence, first as challenger and then world champion; his loss of the title to Alekhine and his efforts to recapture the championship in the last years of his too-short life. What emerges is a portrait of a complex man with far-ranging interests and concerns, in stark contrast to his robotic reputation as "the chess machine." Meticulously researched, utilizing many sources available only in Capablanca's home country, it puts truth to legend regarding a man who stood astride the chess world in of its most dynamic and dramatic eras. Numerous games and diagrams complement the text, as do a wealth of photographs.

Historic London 1922! Jose Raul Capablanca was the superstar of chess in 1922 and London was his first serious chess in the 15 months since he had won the championship title from Emanuel Lasker. Capa was the chessplayer whom even non-players could identify. But the tournament signified not only Capa's return to the game, it was also something of a revival of international chess after four years of war and four more of recovery. The new world champion would ease into first place undefeated ahead of future world champion Alexander Alekhine. The young Dutchman Max Euwe was honing his skills that would also eventually take him to the top of the chess world. And Richard R(c)ti was about to unveil his "Opening of the Future" 1.Nf3!. London 1922 is important for all these reasons, but it also served as the setting for the creation of the famous "London Rules" which would for years govern the way in which prospective challengers to the title would have the right to play the champion. As an added bonus, all fourteen games of the 1921 Capablanca-Lasker title match with annotations by Capa himself have been added to this new 21st-century edition. Complemented by more than a dozen archival photographs and a Foreword by Andy Soltis, London 1922 belongs in the library of every chessplayer!

Capablanca SCB Distributors

Jose Raul Capablanca is a chess legend, world champion and quite simply one of the greatest players in the history of the game. His achievements and seemingly effortless style of play won many admirers, and his legacy includes a treasure of instructive games. Studying Capablanca's play is a must for any aspiring chess player. For Cyrus Lakdawala, it was a key factor in his chess development and improvement, and in this book he revisits many of his favourite Capablanca games. Lakdawala examines Capablanca's skills in attack, defence, counter-attack, exploiting imbalances, accumulating advantages and, of course, his legendary endgame play. *Move by Move* provides an ideal platform to study chess. By continually challenging the reader to answer probing questions throughout the book, the *Move by Move* format greatly encourages the learning and practising of vital

skills just as much as the traditional assimilation of knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to improve your chess skills and knowledge.

Jose Raul Capablanca (Havana, 1888 - New York, 1942) was a Cuban chess player who became the World Chess Champion from 1921 to 1927. Capablanca learned to play chess at the age of four by observing his father's technique, and he became a legend in the world of chess. Originally written in English with the title "Chess Fundamentals" by Capablanca, is a treatise on the basic principles of the game, presented with remarkable precision and clarity, and developed and applied in a series of games commented on by the champion himself.

Chess Fundamentals Hardinge Simpole Limited

Last Lectures is, as the name suggests, a series of lectures given over the radio by former World Chess Champion Jose Raul Capablanca just a few months before he died. While he was preparing these lectures, he dictated them to his wife, Olga

Capablanca, who typed them. As a result, we have them today. Perhaps more than any other player in the history of chess, Jose Raoul Capablanca was noted for his ability to cut through the complexities of modern chess theory and find the winning line in grandmaster tournament play. Capablanca was often called the greatest natural chess player of all time. His clarity of vision, his simplicity and precision of style were legendary. Here, in these twelve lectures originally delivered by short-wave radio to a Latin American audience shortly before his death in 1942, the qualities that made Capablanca one of the game's uniquely great masters are reflected in a timeless legacy of chess wisdom. His observations on the fundamental principles of sound chess thinking are expressed so clearly and simply that a novice can follow them; yet they touch on such profoundly important underlying themes that the most advanced player will benefit by absorbing them. In fact, these lectures reveal that much of Capablanca's supposedly instinctive genius for unraveling highly complex situations over the board consisted of a deeper and sounder understanding of the basic principles of endgame strategy (and the ability to see the endgame structure foreshadowed during the tactical maneuvering of the middle game) than that possessed by any other player of his time. Last Lectures contains Capablanca's chess "instinct" preserved for a later generation. Over and over again he stresses the vital importance of knowing how to play the endings. He gives simple rules of proper endgame play many of which he says are often overlooked by top flight masters. He shows how to recognize the winning elements of the commonest endings: Rook and Pawn, Bishop vs. Knight. He gives his analysis of the relative value of the pieces. Even in this era of exhaustive analysis of the openings, there is wisdom and profit to be gained from his chapter on the Ruy Lopez. Perhaps the greatest pleasure for the modern player, whether he is a beginner or an expert, in reading Last Lectures will come from Capablanca's lively anecdotes and strongly expressed opinions about his contemporaries. Using their play as examples for his observations on universal chess truths, Capablanca rates (and sometimes rakes) Morphy, Steinitz, Emanuel Lasker, Nimzovch, Alekhine, Reshevsky, Frank Marshall and other chess immortals. Last Lectures will enrich the play, as well as the library, of all chess enthusiasts."

Chess Fundamentals Ishi Press

Jose Raoul Capablanca is widely regarded as the strongest chess player who ever lived prior to Bobby Fischer. The authoritative work, "The Rating of Chess Players Past and Present" by Arpad Elo, inventor of the modern rating system, ISBN 0923891277, rates Capablanca as 2725, higher than any other player in history prior to Fischer. The great thing about Capablanca's style of play is he tended to play simple, direct moves, moves that even an amateur player can find over the board. Jose Raul Capablanca y Graupera was the third World Champion, reigning from 1921 until 1927. Renowned for the simplicity of his play, his legendary endgame prowess, accuracy, and the speed of his play, he earned the nickname of the "Human Chess Machine." Jose Raul Capablanca (Havana, November 19, 1888 - New York, March 8, 1942) was a Cuban chess player, world chess champion from 1921 to 1927. Capablanca's ideas are still relevant on the world stage of chess. His images are a powerful aid to the student board secrets. Jose Raoul Capablanca one of the outstanding players of all time became world's chess champion in 1921 when he defeated Lasker by 4 to 0. During his lifetime he held all the world's major records. In twenty five years of tournament play he lost less than twenty-five games, while between 1916 and 1924 he lost not a single one."

A Primer of Chess McFarland

Jose Capablanca was a phenomenon who burst onto the chess world and took top prize in the first ever elite tournament in which he participated. This was at San Sebastian - otherwise known as Donostia - in the Basque country of Spain in 1911. Capablanca's style was serene - no position seemed to trouble him, and he crushed most of the established European grandmasters with seemingly little effort. Only against the mighty Lasker did he experience serious problems. Then in 1921 Capa - as he was known - obliterated Lasker in their world title match and took the championship without losing a single game. Other triumphs followed, such as London 1922, and Capablanca acquired the legend of an invincible superman when he went for 8 years without losing a game! His supreme moment was in New York 1927 - a quadruple round trial of strength between Capa himself Alekhine, Nimzowitsch and three other contenders for the crown. Capa whitewashed the field, creating a fresh masterpiece practically every day. Possibly this easy victory left him overconfident for later the same year he lost his world title to

Alekhine.

José Raúl Capablanca Everyman Chess

Learn chess by one of the greatest. 145 remastered images show a few of Capablanca's games as well as beginner's chess using his very own system. Chess Fundamentals was regarded by Mikhail Botvinnik as the best chess book ever written. Capablanca preferred not to present detailed analysis but focused on critical moments in a game. His style of chess was influential in the play of future world champions Bobby Fischer and Anatoly Karpov.

[The Games of José Raúl Capablanca](#) McFarland

The name of José Raúl Capablanca (1888-1942), the third world champion, is indelibly inscribed in the annals of chess history. Capablanca's technique, intuition, remarkably quick calculation, and sense for elegant combinations made him the paragon of grandmasters during his lifetime. At the peak of his career Capablanca was almost invincible; each of his losses was regarded as a sensation. His books, articles, and lucid annotations

became instant classics. As a star of the first magnitude, Capablanca continues to influence the world of chess. All the world champions of the late 20th century Botvinnik, Smyslov, Tal, Petrosian, Spassky, Fischer, Karpov, and Kasparov have been influenced by Capablanca's original ideas. Join Russian chess historians Isaak and Vladimir Linder as they take you on a journey exploring the life and games of the great Cuban world chess champion.
