with the study moves on to  
of cross- an  
linguistic explanation of  
syntax. A word classes  
theory-neutral (such as noun,

verb, adjective) and then to a discussion of sentence structure in the world's languages. Grammatical constructions and relationships between words in a clause are explained and thoroughly illustrated, including grammatical relations such as subject and object; function-changing processes such as the passive and antipassive; case and agreement processes,

including both ergative and accusative alignments; verb serialization; head-marking and dependent-marking grammars; configurational and non-configurational languages; questions and relative clauses. The final chapter explains and illustrates the principles involved in writing a brief syntactic sketch of a language, enabling the reader to construct a grammatical sketch of a

language known to them. Data from approximately 100 languages appears in the text, with languages representing widely differing geographical areas and distinct language families. The book will be essential for courses in cross-linguistic syntax, language typology, and linguistic fieldwork, as well as for basic syntactic description. Why I Go to Church on

<p><u>Sunday Collins</u> Practice in the Basic Skills The first English Basic Skills book provides plenty of practice questions to work through to build confidence and improve English skills at Key Stage 2.</p> <p><i>Natala East</i> African Publishers A Wall Street Journal Bestseller In a world of unrelenting change and unprecedente d challenges, we need organizations that are resilient and</p>	<p>daring. Unfortunately, most organizations, overburdened by bureaucracy, are sluggish and timid. In the age of upheaval, top- down power structures and rule-choked management systems are a liability. They crush creativity and stifle initiative. As leaders, employees, investors, and citizens, we deserve better. We need organizations that are bold, entrepreneuri al, and as nimble as</p>	<p>change itself. Hence this book. In Humanocracy, Gary Hamel and Michele Zanini make a passionate, data-driven argument for excising bureaucracy and replacing it with something better. Drawing on more than a decade of research and packed with practical examples, Humanocracy lays out a detailed blueprint for creating organizations that are as inspired and ingenious as</p>

the human beings inside them. Critical building blocks include: Motivation: Rallying colleagues to the challenge of busting bureaucracy Models: Leveraging the experience of organizations that have profitably challenged the bureaucratic status quo Mindsets: Escaping the industrial age thinking that frustrates progress Mobilization: Activating a pro-change coalition to

hack outmoded management systems and processes Migration: Embedding the principles of humanocracy—ownership, markets, meritocracy, community, openness, experimentation, and paradox—in your organization's DNA If you've finally run out of patience with bureaucratic bullshit . . . If you want to build an organization that can outrun change . . . If you're

committed to giving every team member the chance to learn, grow, and contribute . . . . . then this book's for you. Whatever your role or title, Humanocracy will show you how to launch an unstoppable movement to equip and empower everyone in your organization to be their best and to do their best. The ultimate prize: an organization that's fit for the future and fit for human beings.

## The Reading Crisis

International Institute of Islamic Thought (IIIT) 'Muthalalitha Vyavasthithiyu de Dhaarmikatha' an e-book published by CPPR is the first Malayalam translation of "The Morality of Capitalism: What Your Professors Won't Tell You", edited by Tom G. Palmer The second in the "What Your Professors Won't Tell You" series of essays on political economy, this

collection includes thirteen essays. Authors include Nobel Prize winners Mario Vargas Llosa and Vernon Smith, Whole Foods Market CEO and founder John Mackey, and scholars from across the globe. Practical Geography for Africa Berrett-Koehler Publishers This easy-to-read, comprehensive guide contains what you need to know on how to parent with confidence. Packed with

advice and powerful tips, using the latest research on child development and parenting techniques, it offers a mine of information on how to let children flourish, take the frustration out of parenting and develop happy family relations. Authors provide guidance on developing character, knowledge, values, and skills, as well as a faith-based outlook in children, benefitting

parents with kids of all ages. ☺e many strategies and techniques offered include: teaching children how to problem-solve, make decisions, and develop self-esteem. Raising God conscious, moral, successful children, with a sense of civic responsibility in today's world is not easy. It is also not impossible. Effective parenting is the key. *Majadiliano ya*

*Bunge (Hansard), taarifa rasmi* Internationals Institute of Islamic Thought (IIIT) This text examines the social and political impact of the Swahili language. Humanocracy East African Publishers Now more than ever before, Muslim young men and women need to improve not only their personal skills but also their group performance. This Guide presents easy-to-follow

instructions which can be used by those who desire to acquire these skills. This Guide focuses on the training needs of Muslim young men and women by providing the experience acquired by Muslim leaders over the last several decades. Thus, the new generation of leaders will be able to start from where their leaders left off, rather than having to duplicate their predecessors' successes and/or

failures. Using a simple Do's and Don't's format, this Guide enables the user to optimize his/her understanding of the art and science of da'wah and how it can be applied in today's world. Like genius, leadership entails harder work for the one who was born without this skill. It is to such people that this Guide is addressed. We are confident that, with the help of Allah, the user will be able to make a quantum

leap forward in the areas of growth and improvement through the proper use of the methods outlined in this Guide. Over time, there will be noticeable improvements in the areas of concepts, management, administration, and communication as well as the skills needed for conducting camps, conferences, and meetings. This Guide is supplemented by suggested workbooks which will lead to an even

deeper understanding of the skills needed for successful leaders.

One of the most powerful forces in the

universe is hope--the happy and confident anticipation that something good is going to happen. Regardless of where one is in life, it is impossible to live successfully and to the fullest without hope. With **GET YOUR HOPES UP!** Joyce will help readers achieve a lasting sense of hope, built on their faith in God. Hope is only as strong as its source. This book will help readers avoid

misplacing their trust in unreliable things, and help them ground their hope steadfastly in God for limitless joy and possibilities for their lives. As Joyce explains, "Without hope in God, there isn't much you can do, but with Hope in God, there isn't much you can't do." Get Your Hopes Up! International African Institute Focusing on the problem of multilingualism in relation

to national integration, communication, development and education in Eastern Africa, this study examines the processes of policy formulation. It discusses different types of language policies and practices in the context of the role of national and international agencies of language planning. Although the focus of the book is sub-Saharan Africa, comparisons with other

parts of the world are made whenever necessary. accomplish more than ever before. In this powerful, practical book, Brian Tracy uses the metaphor of an airplane trip to help chart a course to greater achievement,

happiness, and personal fulfillment. Life is a journey, and as with any other journey we need clear goals, plans, and schedules to get from where we are now to where we want to be.

Like any good pilot, we all need a flight plan filed before we begin and that we use to guide us on our way.
