After reliving the same day for months, eighteen-year-old Barrett reluctantly teams up with her nemesis Miles to escape the time loop, and soon finds herself falling for him, but what she does not know is what they will mean to each other if they finally make it to tomorrow.

Beginning Lucia Marquand

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on

fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

In this standalone short

story by N. K. Jemisin, author of The Fifth Season, the winner of this year's Hugo Award for Best Novel, New York City is about to go through a few changes. Like all great metropolises before it, when a city gets big enough, old enough, it must be born; but there are ancient enemies who cannot tolerate new life. Thus New York will live or die by the efforts of a reluctant midwife...and how well he can learn to sing the city's mighty song. The City Born Great is a Tor.com Original. They told Thorn he was

one of them, although he was different. To them, he was ugly: sleek-skinned, not furred, and clawless. But he was part of their power class, part of the elite: the fighters, the defenders. When the crunch came, when Thorn learned that on him might hang the future of two worlds, he had to stand alone to justify his very existence.

Loosely based on the Odyssey, this landmark of modern literature follows ordinary Dubliners in 1904.

Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a

scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. Captivating experimental techniques range from interior monologues to exuberant wordplay and earthy humor. A major achievement in 20th century literature.

Which sort of seducer could you be? Siren?

Rake? Cold Coquette?

Star? Comedian?

Charismatic? Or Saint?

This book will show you which. Charm,

persuasion, the ability to create illusions:

these are some of the many dazzling gifts of

the Seducer, the compelling figure who

is able to manipulate, mislead and give

pleasure all at once.

When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on

how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of *The 48 Laws of Power*, *Mastery*, and *The 33 Strategies Of War*. *The Lady of the Lake* Profile Books

The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to

the second millenniums B.C. This book is an unparalleled compendium of what is known about them.

Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world.

"There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form

available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."—American Journal of Archaeology "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity."—Library Journal Tess of the D'Urbervilles Open Book Publishers Grimble's ethnographic studies of the Gilbertese, prepared between 1916 and 1926, provide an excellent baseline

account of a fundamentally pre-contact culture. This collection, edited and introduced by H.E. Maude, comprises essays on mythology, history, and dancing; four chapters on the Maneaba; and organized field notes. *The Sumerians* Long, long ago, when all the world was young and there were but few people dwelling on it, the strangest things could often come to pass. Then fairyfolk still lived in the greenwoods and elves sang and danced in the soft summer dawns. Then trees could sing and flowers speak and birds would carry messages about the world; wild beasts were often loyal friends to men and helped them in their difficulties. In these old

days, most noble dukes and earls would fall in love with dairymaids whose gentle ways and manners charmed their hearts. Sometimes great kings grew weary of the splendor of their courts and left their thrones to live as simple peasants. Each princess had a fairy godmother who showered her with magic gifts. Then wise men read the stars and seers would gaze in crystal bowls to tell the coming good or ill they saw. In those old days, the housewives left a bit of bread and cheese upon the pantry shelf each evening, that the brownie who was said to dwell in every kitchen might have a midnight feast. These brownies, 'twas said also, would make much mischief if they were

not treated very well. In early dawns, when fields of flowers were asparkle in the sun, the milkmaids used to bathe their eyes and ears with dew that they might see the fairyfolk forever afterward and hear them sing at midnight in the glen. The farmers' boys would search among the hedges in hopes of meeting The Red Caps who were said to bring much luck. These Red Caps too were said to give a magic purse of gold to those they fancied,—a purse that was always brimful no matter what was spent from it. The witches still rode broomsticks through the skies and there were wishing wells and magic charms and spells. In those delightful days of which I tell, there were not scores and scores

of books as there are now. Travelers journeying about the world told tales of the wonders that they saw and heard. It was not then thought strange that kings and queens or royal counselors and such wise folk should love to hear these wonder tales. In those dear days, indeed, the grown folk all loved wonder tales as well as children love them now and were not worse because of it. Sometimes these wonder tales were told by magic chairs or chests; sometimes by birds or beasts that were enchanted and had power of speech. *The Art Of Seduction* For sixteen-year-old Jane, life is a mystery she despairs of ever mastering. She and her friends are the idle, pampered children of

the privileged class, living in luxury on an Earth remade by natural disaster. Until Jane's life is changed forever by a chance encounter with a robot minstrel with auburn hair and silver skin, whose songs ignite in her a desperate and inexplicable passion. Jane is certain that Silver is more than just a machine built to please. And she will give up everything to prove it. So she escapes into the city's violent, decaying slums to embrace a love bordering on madness. Or is it something more? Has Jane glimpsed in Silver something no one else has dared to see - not even the robot or his creators? A love so perfect it must be destroyed, for no human could ever

compete?

Doug Engstrom imagines a future all too terrifying—and all too possible—in this eerie, dystopic speculative fiction debut about corporate greed, debt slavery, and gun violence that is as intense and dark as Stephen King’s *The Long Walk*. Like many Americans in the middle of the 21st century, aspiring actress Kira Clark is in debt. She financed her drama education with loans secured by a “lifetime services contract.” If she defaults, her creditors will control every aspect of her life. Behind on her payments and facing foreclosure, Kira reluctantly accepts a large signing bonus to become a corporate

gunfighter for TKC Insurance. After a year of training, she will take her place on the dueling fields that have become the final, lethal stop in the American legal system. Putting her MFA in acting to work, Kira takes on the persona of a cold, intimidating gunslinger known as “Death’s Angel.” But just as she becomes the most feared gunfighter in TKC’s stable, she’s severely wounded during a duel on live video, shattering her aura of invincibility. A series of devastating setbacks follow, forcing Kira to face the truth about her life and what she’s become. When the opportunity to fight another professional for a huge purse arises, Kira sees it as a chance to buy a new life . . . or die trying. Structured

around a chilling duel, Corporate Gunslinger is a modern satire that forces us to confront the growing inequalities in our society and our penchant for guns and bloodshed, as well as offering a visceral look at where we may be heading—far sooner than we know.

Critic and Literary World

First published in Germany in 1929, *The End and the Beginning* is a lively personal memoir of a vanished world and of a rebellious, high-spirited young woman's struggle to achieve independence. Born in 1883 into a distinguished and wealthy aristocratic family of the old Austro-Hungarian Empire, Hermynia Zur Muhlen spent much of

her childhood travelling in Europe and North Africa with her diplomat father. After five years on her German husband's estate in czarist Russia she broke with both her family and her husband and set out on a precarious career as a professional writer committed to socialism. Besides translating many leading contemporary authors, notably Upton Sinclair, into German, she herself published an impressive number of politically engaged novels, detective stories, short stories, and children's fairy tales. Because of her outspoken opposition to National Socialism, she had to flee her native Austria in 1938 and seek refuge in England, where she died, virtually

penniless, in 1951. This revised and corrected translation of Zur Muhlen's memoir - with extensive notes and an essay on the author by Lionel Gossman - will appeal especially to readers interested in women's history, the

Central European aristocratic world that came to an end with the First World War, and the culture and politics of the late nineteenth and early twentieth centuries. *The Canterbury Tales*
