NMMS Exam Guide for (8th) Class VIII OUP India

Swiss Family Robinson - Johann David Wyss - First published in 1812, Johann David Wyss The Swiss Family Robinson is a classic story of survival on a deserted tropical island. While en route to Australia, the titular Swiss Family Robinson finds themselves in great peril when their vessel is caught in a violent storm. As the ship breaks apart when it is battered against a reef, the family is abandoned by their crew, who escape without them in the lifeboats. The family, which consists of a mother, father, and their four sons, are left to fend for themselves. Luckily as the storm subsides they see an island in the distance. After salvaging a plethora of food, livestock, and other supplies they fashion a crude raft from the wreckage and make their way for the island. Every day on the island brings a new adventure and a new obstacle to overcome, as the family struggles to survive in a foreign land isolated from society. Johann David Wyss, a Swiss pastor, wrote this tale of adventure not only to entertain but to instruct, specifically his four sons, in the ways of good family values and the virtue of self-reliance. This exciting adventure has been loved for generations by readers both young and old. This edition includes an introduction by Charles Nodier.

Walt Whitman's poem was first published in the 1856 collection Leaves of Grass.

Know Your State West Bengal R.S.MULEY

Kautilya, also known as Chanakya, is India's most illustrious political economist of all time. He regarded economic activity as the driving force behind the functioning of any political dispensation. In fact, he went to the extent of saying that revenue should take priority over the army because sustaining the army was possible out of a well-managed revenue system. Kautilya advocated limiting the taxation power of the State, having low rates of taxation, maintaining a gradual increase in taxation and most importantly devising a tax structure that ensured compliance. He strongly encouraged foreign trade, basing it on the premise that for a successful trade contract to be established, it had to be beneficial to all. He emphasised State control and investment in land, water and mining. Kautilya was a true statesman who bridged the gap between experience and vision. For Kautilya, good governance was paramount. He suggested built-in checks and balances in systems and procedures for the containment of malpractices. Many postulates of Kautilya's philosophy of political economy are applicable to contemporary times.

Emotion: Theory, Research, and Experience, Volume 1: Theories of Emotion, presents broad theoretical perspectives representing all major schools of thought in the study of the nature of emotion. The contributions contained in the book are characterized under three major headings - evolutionary context, psychophysiological context, and dynamic context. Subjects that are discussed include general psycho-evolutionary theory of emotion; the affect system; the biology of emotions and other feelings; and emotions as transitory social roles. Psychologists, sociobiologists, sociologists, psychiatrists, ethologists, and students the allied fields will find the text a good reference material.

Publisher's Monthly Disha Publications

"The emergence of the untouchables on the socio-political scene is one of the significant events of the twentieth century India. This pioneering study traces the history of this phenomenon in the form of the rise of the Raigar community as a socio-political force from 1940 to 2004. Focusing on eight states of northern India - Rajasthan, Delhi, Uttar Pradesh, Madhya Pradesh, Gujarat, Maharashtra, Haryana and Punjab, the author traces the genesis and development of the Raigar movement from its early days of self-reform through the successive agitations, formation of organisations and their active participation in freedom struggle. He also provides the traditional account of socio-religious, educational and economic disabilities imposed on untouchables in a traditional Hindu society. The author analyses the Dalit Movement as a part of broader socio-religious and educational reform movement. In this process, Raigars sought to transform their socio-economic life, while opposing the caste system. The book also discusses the gains and failures of the movement in the pre- and post-independence periods. This invaluable study will be of interest to political scientists, cultural historians, sociologists, activists and all those studying the grassroots efforts of the untouchables in a new social order."

Current Affairs 2017 for Competitive Exams - UPSC/ State PCS/ SSC/ Banking/ Insurance/ Railways/ BBA/ MBA/ Defence - 2nd Edition Manchester University Press

Our NEET Foundation series is sharply focused for the NEET aspirants. Most of the students make a career choice in the middle school and, therefore, choose their stream informally in secondary and formally in senior secondary schooling, accordingly. If you have decided to make a career in the medical profession, you need not look any further! Adopt this series for Class 9 and 10 today.

Conceptual Chemistry Volume-I For Class XII

Untouchable Castes in India Oswal Printers & Publishers Pvt Limited

Not everyone has a knack for Mathematics and several people simply give up when the teacher begins adding letters into the equations. However, there are actually some solid uses for Algebra 2 other than keeping headache medicine manufacturers in business. Building on the ideas and core concepts learned in basic Algebra, the intermediate Algebra 2 introduces abstract thinking. Students

learn how to identify likenesses and evaluate equations based on their characteristics. This information is useful for higher mathematical pursuits and is also helpful for general life. The analytic approach to problem solving is essential in both employment situations and personal relationships.

Chemistry : Textbook For Class Xii Arihant Publications India limited

Since its 1911 publication, this influential essay has helped administrators eliminate inefficiency through a system applicable to individual and collective activities. A classic of decision theory and managerial technique. /div
