Each person has only so many heartbeats on this earth. Behind every thought and action is a heartbeat, which is traded like currency. As top leadership, you can ensure personal and professional success by making sure your actions are worthy of investing those heartbeats. Invest Your Heartbeats Wisely offers guidelines, based on biblical principles, to help you lead in business and live as an ethical person. Etzel discusses how to effectively lead an organization, how to create a corporate culture of accountability, and the importance of mentoring, along with advice on every aspect of running a company, from getting started and hiring and motivating employees to letting go and redirecting when you are ready to exit the business. Etzel provides a guiding voice for leaders who believe their role is to lead people, not to manage them. In a genre crowded with what may seem like data-driven proscriptions for established leaders, Etzel offers a combination of business practices and life habits, using specific examples and suggesting solutions that you, as a seasoned executive, can apply to make both your company and your life more joyful, purposeful, satisfying, and profitable.

Chapters in this volume include: Chapter 1: American Government 101 Schools are supposed to teach this subject, but schools never teach what actually goes on at the local, state, and national levels. If they did, students would be mightily entertained Chapter 2: Our Weird, Weird World You would not believe how the behavior police want you to act while backpacking in the wilderness and other weirdness. Chapter 3: We Muse on the News So why don't rich people pay more in taxes, how to sell air, and other interesting stuff. Chapter 4: Sports There are only two sports that remain where one can drink while one is playing the sport and other observations. Chapter 5: Dog Tales I live in a town where dogs are so admired that we may give them the right to vote. Chapter 6: Space and Science The next gold rush will occur in outer space, where a single asteroid could be worth \$100 trillion. Chapter 7: The Gopher Relays I can't help it. This happens every spring. You almost have to witness this activity to appreciate it. Chapter 8: Useful History What did they do about pirates back in the eighteenth century? Who actually won the Crusades? And honestly, a school forgot about Christmas? Chapter 9: Government Finances If this chapter doesn't frost your eyebrows, you probably don't pay taxes. Chapter 10: We Get Mail A big part of the fun of owning a newspaper is opening the mail. I mean, really. Chapter 11: Diving Us Crazy The days of Route 66 may be ending, and why I don't go abroad. Ever.

In Search of a Destiny is about Udup, a village boy from Kerala. He was a good student under the discipline of his father. Much against his wishes, he is sent to a boarding school. After graduation, he continues his higher studies. He takes several degrees in chemistry and teaches science in a school. He resigns from the school in order to look after his sick mother and obtains

a job to teach chemistry closer to home. Against all odds, he competes and wins the Fulbright scholarship and leaves for the USA. At the university, he is overwhelmed with the hippie culture, women's liberation, drug use and sexual freedom but stays at the sidelines. After submitting the PhD thesis at MSU, he tours Venezuela on being invited by his classmate and accepts a job from the Ministry of Education. He suffers misgivings of failure at the job for his lack of knowledge of Spanish, its people and culture. Against all odds, he survives, succeeds at work and returns to India to get married. He settles down with his wife Melody in Venezuela and raises three children. Eventually, he accepts a job from the petroleum industry. He is assigned to the Bon Bini island refinery but finds the going difficult and returns to Caracas. He moves his family to a border town in Venezuela near Colombia for the education of his children. His family becomes noted by the FARC. As the terrorists close in, he moves his family to New Jersey, where the family takes roots and his children graduate from good universities. After twenty two years, he retires from the petroleum industry and returns to India after being away for forty years while his children pursue the American dream. After settling down in his house in Kerala, he starts several projects for the good of the society.

Birdville School opened in 1922 on the corner of two dirt roads at the edge of a fallow farm. Over the next 67 school years it witnessed, and influenced, the unfolding story of the town that grew up around it, amid flood, brushfire, blizzard, tornado, and earthquake; poverty and prosperity; war, peace, and cold war; and even the collapse of the earth beneath its foundations. Its auditorium and cafeteria hosted PTA meetings, plays, movies, concerts, basketball tournaments, holiday parties, Girl Scout and Boy Scout meetings, polio vaccination clinics, and war-time rationing registrations and scrap-collection drives. Local sand-lot softball, baseball, and football teams competed in the same

surrounding fields that swarmed with gleeful children at recess, and that echoed with the roar of low-flying aircrafts snagging mailbags on their tail hooks. Among its staff were thespians, musicians, firemen, outdoorsmen, and athletes, including a singer who performed in the Coolidge White House, a candidate for the state legislature, an army medic, and a ball player who faced off against the Homestead Grays and the Pittsburgh Pirates. By the time classes concluded for the last time in 1989, thousands of children - including the author - had benefitted from the care, instruction, and example of the Birdville School family. This book is a feeble tribute to those who made us who we are.
